FROM THE PRINCIPAL'S DESK

My journey of thirteen years with Marathwada Mitramandal's College of Commerce as a Principal, has been interspersed with fond memories and challenges. One of the most coveted memorabilia has been and continues to be 'URMI', a student magazine to showcase their talent and voice their thoughts. The contribution of all students and teachers in publishing the annual magazine, has been as a result of team work that has ensured the gestation and germination of young ideas and knack of carving a niche for themselves.

I wish to express my deepest sense of appreciation and gratitude to Hon. Prin. B. G. Jadhav, Executive President, Marathwada Mitra Mandal; and the management members for their guidance and support.

There were rewarding challenges that I along with my team faced, during the NAAC

(National Assessment and Accreditation Council) re-accreditation process for 3rd cycle which brought laurels to the college by getting the 'A' grade. The experience of working together with my team and motivating them to excel in their work, generated camaraderie and brought out the best in all.

The present edition of URMI is a wonderful collection of varied articles, poems and current trends in education, media and global issues related to environment.

My best wishes to the editorial team for their determined efforts in bringing out this magazine and students and teachers for their contribution that witnesses this and upcoming magazine issues.

**- Dr. M. D. Lawrence,
Principal**

EDITORIAL

Hello Friends

As we draw towards the end of yet another academic year, it gives me immense pleasure to announce the issue of 'URMI'2018. The articles, poems and art work touches upon various issues ranging from modern trends, art, sports, science and various human experiences,surely giving enough food for thought and emotion.Adding a feather in our cap, we are proud to state our college has been reaccredited by NAAC 'A' grade.

'Urmi' is a platform to support our young writers and encourage them to experiment , explore their potential and voice their feelings about changing global scenario, opportunities and challenges in the competitive world.

I appreciate the hard work put in by the editorial team, contributors and concerned teachers for shaping this issue of 'URMI'. My deepest gratitude to Principal, Dr.M.D.Lawrence for his unwavering support, which motivates us to strive for excellence.

Placing in your hands, a thing of beauty, source of joy and expression of heart. I hope you enjoy the issue and have a great year ahead!

CENTRAL LIBRARY REPORT

- *Gateway of Knowledge*

Mr. Manohar V Gohane

The Library is not simply a place or building, nor is it only a collection of resources. Rather, the Library, as a program of services (including on-site and remote collections), possesses a mission of supporting learning by providing information services to meet the needs of students and faculty. There has been a long felt need to bring clarity and uniformity in procedures and practices of the library and resource center so as to further improve its efficiency, and utility services.

Thus, in keeping with this idea, our library has added 247 books to the collection in this year and also subscribed 40 printed journals and magazines for periodical section. We are member of in N-List program, "N-List – National Library and Information services Infrastructure for Scholarly Content" being jointly executed by the UGC-INFONET Digital Library Consortium. It provides the widest range of online resource to us. We can read and unlimited download from N-List package. It is very useful for research scholars. We are also member of DELNET, "DELNET-Developing Library Network" is a major resource sharing library network in India connecting more than 6054 libraries in 33 States and UTs in India and 25 other countries. It provides Inter Library Loan service and access of Union Catalogues to us. Also we have membership of National Digital Library of India (NDL).

Central library having tie-ups with Jaykar knowledge resource Centre (Pune University), MCCIA library and British Council Library.

LIBRARY ADVISORY COMMITTEE (LAC):

The function of the Library Advisory Committee is to support the functioning of the library so that it can facilitate the library development plans by advocating the library development activities with the management. This act as a channel of communication and dialogue between the Library System and its users. BBA(CA) and BSc(CS) Department

Dr. S. M. Anapat

The department started with the objective of catering to the growing demands of the dynamic IT industry and has seen success through growth and development of students in curricular, co curricular, extra curricular and sports activities. The department was actively involved in the documentation and preparation for NAAC Peer Team visit for the first part of the academic year. The department received large number of applications for the two courses. Accordingly, 150 admissions for FYBSc (CS) and 120 admissions for FYBBA (CA) were confirmed.

Profile of Teachers

There are more than twenty five full time faculty members who are into teaching, evaluating, mentoring and counseling the students for better curricular, co-curricular and extracurricular performance. The multidisciplinary culture, environmental consciousness and social outreach has seen an excellent placement record and liaising with prominent alumni in different walks of life. There are

- Three Ph.D teachers
- Six M.Phil teachers
- Two NET / SET faculty members.
- Teachers are continually striving for higher academic upgradation

Activities of Department

1. Pegasus

Every Year, a student event ‘Pegasus’ is organized for cognizing curricular, co curricular, extra curricular and sports talent of the students. This event also comprises of addressing social and environmental issues by organizing competitions, skits or plays. In the month of January 2019, the event commenced with curricular activities like e commerce projects, networking projects, quiz and programming competitions. Students implemented their innovative ideas on the topics by designing 3D models. An e Commerce project was based on the concept of safe driving through generating awareness on the use of helmets whereas another project spread awareness on female hygiene. The science and management approach made the event interesting and effective.

The next week saw the participation of large number of students for extra curricular activities such as rangoli, mehendi, style tags, make up and hair style; that develop creativity among the students. The success of these events lay in the fact that even the rangoli designs had a social message on ‘save the girl child’ along with the promotion of traditional and contemporary practice of rangoli designs. The girls and boys participated in groups; enthusiastically for the makeup and hair style competition. The use of

modern day products and ideas, resulted in the creation of beautiful characters and icons. The style tag concept promoted the idea of apparel design with the use of eco friendly colored paper, that saw a wide range of costume design representing state, national and international culture.

The sports event every player's grit and determination in individual as well as team events. The indoor and outdoor games, both attracted large number of students to participate and cheer for others. The game of chess saw each player battle it out on the board whereas, football and cricket had everybody biting their nails to witness a tough match.

The culmination of the event was the cultural program that saw a tremendous talent and teamwork from the students to focus on the national integration and cultural diversity. The Nehru Memorial Hall, with a capacity of 700 viewers, saw full occupation and self discipline from the students. The performances included solo and group dance based on various dance forms or state songs. This was followed by singing and playing of musical instruments.

The skit, "Mimicry and Mockery" was based on promoting the thought 'Don't Drink and Drive' which was very well scripted and presented by FYBSc students. The mimicry done by various students portraying different actors like Shahrukh Khan, Nana Patekar, Amitabh Bachchan etc; enthralled all the viewers and received a thunderous applause for displaying the issues related to drinking and driving.

The most awaited being the prize distribution ceremony followed shortly during which prizes were awarded to the winners of curricular, co-curricular, extracurricular and sports competitions to promote the culture of talent nurturing and team work.

2. Rotract

MMCC Rotract Club established in the year 2015, encourages the students to actively organize and participate in various activities. Students volunteer in arranging programs on social awareness and addressing environmental concerns. Alongwith the volunteering work, students have won accolades in various co-curricular and extracurricular events organized by MMCC Rotract Club. Sanskruti More (daughter of single parent) is Rotract President for the current year.

3. First Year Orientation Programme Report 2018-19

The Orientation Programme for the students of First Year BSc (CS) and First Year BBA (CA) was successfully conducted from 23rd to 26th July 2018 by inviting eminent speakers from various arenas of life and industry for the purpose of making the students aware of their own personality, career opportunities and setting their own priorities and goals. About 180 students benefited with the orientation program and also interacted with the teachers and third year students for better camaraderie and guidance.

The first day saw Mrs. Dhanashree Ghare, Education Counsellor, start with the personality development of the individual to make a mark on others and excel in career. Students were given examples on individual personality types and enhancement along with the awareness of peer to peer pressure.

On the second day, Dr. M. D. Lawrence, Principal, MMCC, addressed the students on the motto, vision and mission of college for the benefit of stakeholders. He mentioned the best practices and ideology of the college in undertaking various curricular, co-curricular and extra-curricular activities that benefit the students in winning

laurels and accolades in every walk of life. He also briefed the students about the infrastructure and canteen facilities and mentioned that the real wealth lay in the efforts and excellence of the students. Finally he discussed on "Why the students were at MMCC ?"; to which the students gave varied responses. From student centric culture & welfare schemes, location, teachers, environment etc. The students on their part, were very impressed with the dynamic and genuine personality of the principal.

Mr. Prasheek N Gaikwad, CMD at Lessons of Life; enthralled the students and teachers alike with his session and demonstration on hypnosis and hypnotherapy. He motivated the students on handling stress in various ways and overcome any hurdles, confidently and smartly. He demonstrated various hypnotherapy activities by making participants eat bitter gourd thinking it to be cucumber, forgetting the number '6'

JUNIOR COLLEGE OF SCIENCE

Mrs. Asha Desai

Apart from following the HSC Board curriculum the prime objective of our science college is to provide platform for research oriented young minds and enable them to develop and show case their innate abilities in academic and co-curricular activities.

In this Eleventh year We-Gyan the intercollegiate Science exhibition competition conducted by us was appreciated for its unique concept. 80 participants from various colleges presented working and non working models on topical scientific issues. We hope to introduce many more such innovative activities in future.

Throughout the year our students have made us proud at various intercollegiate events and competitions.

It gives me great pleasure to present departmental report for junior college of science 2018-19

प्रियदर्शनी युवती मंच

प्रा. बसंती फडके

विद्यार्थिनींच्या सर्वांगीण विकासासाठी कार्यरत असलेले हे व्यासपीठ, वर्षभर विविध कार्यक्रमांचे आयोजन यासाठी जाणीवपूर्वक केले जाते. शैक्षणिक वर्ष २०१८-१९ मधील प्रियदर्शनी युवती मंचच्या कार्यक्रमांची सुरुवात एकदिवसीय कार्यशाळेने झाली. मनशक्ती प्रयोग केंद्र, लोणावळा येथे कार्यशाळा आयोजित करण्यात आली. कार्यशाळेचा विषय 'यौवनाच्या क्रांतीदिशा' हा होता. स्वामी विज्ञानानंद यांनी या मनशक्ती प्रयोगकेंद्राची स्थापना केली. विज्ञानावर अधिष्ठित या केंद्राची 'न्यू वे फिलॉसॉफी असून उत्कृष्ट आयुष्य जगण्याची प्रक्रिया येथे उलगडून दाखवली जाते.

कार्यशाळेचे पहिले व्याख्यान मानसशास्त्रज्ञ क्रांती दुधारे यांनी घेतले 'मनपरीक्षण' या विषयावरील त्यांच्या व्याख्यानात त्यांनी सांगितले की कोणतीही गोष्ट विनाकारण घडत नाही. मन, मेंदू आणि शरीर ही आपली जगण्याची त्रिसूत्री आहे. मन दिसत नसले तरी मनाचा शरीरावर परिणाम होत असतो. राग, भीती या भावनांचा शरीरावर परिणाम होतो. परंतु रागात सगळ्यात जास्त शक्ती खर्च पडते, रागावर नियंत्रण मिळवणे गरजेचे आहे. माणसाच्या मनावर विविध प्रकारचे ताण असतात हे ताण स्क्रिन कन्डन्टन्स या मशीनद्वारे मोजता येतात. कोणतीही व्यक्ती किती तीव्रतेने विचार करते यासाठी 'लाईट एनर्जी' टेस्ट असते या दोन्ही मशीनद्वारे विद्यार्थिनींना प्रात्यक्षिक देण्यात आले.

'अभ्यासातील समस्या आणि मेंदूशास्त्र' या विषयावर शेखर मुजुमदार यांनी सादरीकरणासह व्याख्यान दिले. मन हे व्यक्तीसाठी मालक म्हणून तर मेंदू कार्यकारी संचालक म्हणून काम करत असतो. आपल्या शरीरात अगणित पेशी

असून त्या आपल्याला सतत सहकार्य करीत असतात. आपले विचार आपल्या पेशीवर लिहीले जातात. शेखर मुजुमदार यांनी विषय अधिक स्पष्ट करून सांगताना सांगितले की 'मेंदूची डावी बाजू आणि उजवी बाजू असे दोन प्रकार पडतात. डाव्या बाजूला बीज / अंकगणित, इतिहास, विज्ञान आणि भाषा या विषयांचे तर उजव्या बाजूला क्रीडा, कला, भूगोल आणि भूमिती या विषयांचे कार्य चालते. शिक्षण हे ज्ञान रचनावादावर अधिष्ठित असल्याने कोणी शिकवून ते प्राप्त होण्यापेक्षा समर्पणाने ते अधिक प्राप्त होते. बुद्धीवर्धन करण्यासाठी कठीण विषयांचा रोज एक तास अभ्यास सलग नव्वद दिवस करावा लागतो. त्यासाठी एक विषय, एक वेळ, एक जागा, आणि एक दिशा निश्चित करायची, सातत्यपूर्णतेने हे केल्यास निश्चित प्रगती होते. आईवडीलांना रोज नमस्कार करणे गरजेचे आहे. कारण त्यात 'रेझोनन्स एनर्जी' प्राप्त होत असते. महिन्यातून एकदा शिक्षकांना नमस्कार करायला हवा, ज्या समाजात आपण राहतो त्या समाजासाठी दिवसातून एक तास द्या, ज्यामध्ये पाण्याच्या एका थेंबाचाही स्वार्थ असता कामा नये ही उतुंग व्यक्तीमत्वाची कारणेही मुजुमदार यांनी सांगितली.

'यौवनाच्या क्रांतिदिशा' या सत्रात उमा चंदने यांनी 'तरुण' आणि 'आत्मविश्वस' याच्या व्याख्या समजावून सांगितल्या. 'तरुण' म्हणजे जो अडचणीत संकटात स्वतःबरोबर दुसऱ्यालाही तरुण घेऊन जातो. तारुण्याला कोणत्याही वयाचे बंधन नाही. आत्मविश्वास म्हणजे 'आत+मी+विश्वास होय. आतल्या मी वर विश्वास म्हणजे आत्मविश्वास हा मनातून उमलावा लागतो.

तारुण्य हे कापूरासारखे असते, जे लगेच उडून जाते, तारुण्यात दोन धोके असताता एक म्हणजे यात शक्ती व्यय अधिक होतो जो लक्षात येत नाही आणि दुसरा म्हणजे तारुण्यात शक्ती जास्त असते हा भ्रम असतो.

यशोशिखर गाठण्याची प्रत्येकाची इच्छा असते. त्यासाठी इच्छा, निश्चय, प्रयत्न, जिद्द, सातत्य, कृतज्ञता आणि एकाग्रता ही यशाची सप्तपदी अंगीकारली पाहिजे.

या कार्यशाळेत एकून नव्वद विद्यार्थिनी सहभागी झाल्या. डॉ. ज्योती गायकवाड, डॉ. सुनीता पोखरणा, डॉ. सुजाता शेणई आणि प्रा. बसंती फडके यांनी कार्यशाळेचे संयोजन केले. प्रा. लक्ष्मी रामचंद्रन, प्रा. ज्योती साहू, प्रा. स्वाती बांगर आणि प्रा. राजश्री मेमाणे यांनी समन्वयक म्हणून काम पाहिले.

दिनांक ११ ऑगस्ट २०१८ रोजी 'आपुले भविष्य आपुल्या हाती' या विषयावर एक दिवसीय कार्यशाळा घेण्यात आली. अकरावीच्या विद्यार्थिनींसाठी जणू हा प्रियदर्शनी युवतींमध्ये कडून स्वागताचा कार्यक्रमच होता. कार्यशाळेचे उद्घाटन उपजिल्हाधिकारी (निवडणूक) पुणे, मोनिका सिंग यांनी केले. विद्यार्थिनींना मार्गदर्शन करताना त्या म्हणाल्या "मुलगी म्हणून मला कधीच कुटुंबाने नाउमेद केले नाही उलट प्रोत्साहनच दिले, त्याचा परिणाम म्हणूनच माझी अधिक अधिक शिकण्याची जिद्द कायम राहिली. स्वतःशी संवाद साधता आला. या संवादातून जाणवले की आजूबाजूला खूप आकर्षणे असतात पण यापासुन स्वतःला दूर ठेवता आले तरच काहीतरी साध्य करता येते. मुली स्वतःच्या भविष्याबद्दल जागरुक आणि केंद्रित असतात. जे आपल्याला आतून करावेसे वाटते तेच करायला हवे. प्रयत्नावर शंभर टक्के विश्वास ठेवायला हवा. उपजिल्हाधिकारी म्हणून काम करताना लोकांच्या अपेक्षांवर उतरता आले पाहिजे. हे मी स्वतःला बजावत आले आहे." मोनिका सिंग यांच्या हस्ते अकरावीत सर्वाधिक गुणांनी प्रविष्ट झालेल्या वेदांती बेंडे, आरब्युट्स संगीत स्पर्धेत प्रथम क्रमांक मिळविलेल्या नेहा पाध्ये आणि आंतरराष्ट्रीय बॉक्सर म्हणून सहा सुर्वपदके मिळविलेल्या वैष्णवी भुजबळचा सत्कार करण्यात आला.

कार्यशाळेच्या दुसऱ्या सत्रात ज्येष्ठ निवेदक आणि सूत्रसंचालक विनया देसाई यांनी अनुभवकथन करताना

सांगितले की, 'आपला शोध आपण घेताना स्वतःवर प्रेम करायला शिकले पाहिजे. जे काम आपल्या समोर आहे ते आनंदाने करा. अवती भवती माणसांची गर्दी असताना त्यातल्या चांगल्या व्यक्तींचे विचार ऐकले पाहिजे, एकविसाव्या शतकात कामाच्या व्यग्रतेमुळे जरी जीवनशैली बदलली तरी निर्सगाबोरोबर जगा, सूर्योदया बरोबर उठा आणि दिनचर्या सुरु करा. 'दिसण असण लपण या खेळात स्वतःला हरवणार नाही याची काळजी घ्या. आईचा तिसरा डोळा तुमची सदैव पाठराखण करत असतो. त्याचे भान मनात असायला हवे म्हणजे चुकीचे पाऊल पडत नाही.' नेहा पाध्ये हीने स्वागत गीत गायले. समृद्धी जाधव हीने आभार मानले.

शैक्षणिक वर्षाच्या दुसऱ्या सत्रात २२ जानेवारी २०१९ रोजी प्रतिवर्षी प्रमाणे सांस्कृतिक मेळ्याचे आयोजन केले होते. अनेक प्रकारची वैयक्तिक व सामुहिक नृत्ये विद्यार्थिनींनी सादर केली. या वर्षाचे वैयक्तिक नृत्याचे प्रथम पारितोषिक वैदेही असवलीकर (एम.कॉम -१), द्वितीय पारितोषिक सृष्टी यादव (अकरावी), तृतीय पारितोषिक युक्ता घाटे (एफ.वाय.बी.कॉम), तर उत्तेजनार्थ मिताली सरडे (टी.वाय.बी.कॉम) हीला मिळाले. तर सामुहिक नृत्याचे प्रथम पारितोषिक हर्षाली चव्हाण (एफ.वाय.बी.कॉम) व साक्षी जाधव (टी.वाय.बी.कॉम) यांना तर द्वितीय पारितोषिक अनुष्का खेरे (एफ.वाय.बी.कॉम) व युक्ता घाटे (एफ.वाय.बी.कॉम) यांनी मिळवले.

वाचनाने माणूस समृद्ध होतो. युवती मंचाने यावर्षीदेखील नवीन पुस्तकांची खरेदी वाचकमंडळासाठी केली.

प्रियदर्शनी युवती मंचच्या यावेळच्या पुरस्कार प्राप्त विद्यार्थीनी पुढीलप्रमाणे :

- १) मुक्ता भुतडा : शैक्षणिक गुणवत्ता
- २) वैष्णवी जोशी : सांस्कृतिक गुणवत्ता
- ३) साध्वी धुरी : क्रीडा नैपुण्य

प्रियदर्शनी युवती मंचचे काम प्राचार्य डॉ. एम. डी. लॅरेन्स यांच्या मार्गदर्शनाने तर डॉ. जे. एम. गायकवाड, डॉ. सुनीता पोखरणा आणि डॉ. सुजाता शेणई यांच्या सहकायाने चालते.

लैंगिक छळवाद विरोधी समिती

प्रा. बसंती फडके

लैंगिक छळवाद विरोधी समितीच्या वतीने यावर्षी आँगस्ट महिन्यात ब्लॅक इंज ब्युटिफुल हा अभिव्यक्ती च्या वतीने कार्यक्रम घेतला गेला. अलीकडच्या काळात सौंदर्यप्रसाधनांचा वापर प्रचंड प्रमाणात वाढला आहे. अनेक सौंदर्यप्रसाधनात घातक द्रव्ये आहेत. निरनिराब्ध्या माध्यमांच्या प्रभावामुळे बाह्य सौंदर्याला अवाजवी महत्त्व आले आहे. या कार्यक्रमातून केवळ रंग आणि बाह्य सौंदर्य महत्त्वाचे नसून आंतरिक सौंदर्य महत्त्वाचे हे विद्यार्थ्यांच्या मनावर बिंबवले गेले. आपला रंग आपली शारीरिक ठेवण आपल्या हातात नाही. सौंदर्य प्रसाधनांच्या मदतीने बाह्य सौंदर्य खुलवण्यापेक्षा आपले गुण क्षमता ओळखून स्वतःचे व्यक्तिमत्त्व विकसीत करा असा संदेश या कार्यक्रमाच्या माध्यमातून मिळाला. अभिव्यक्तिचे निश्चय, कल्याणी, श्रद्धा या सगळ्यांनी विद्यार्थ्यांशी मनमोकळा संवाद साधत त्यांचे उद्बोधन केले.

दुसऱ्या सत्रात दिनांक ९ जानेवारी २०१९ रोजी जाहिरात माध्यमांतील स्त्री प्रतिमा आणि त्याचा समाजावर होणारा परिणाम या विषयावर चर्चा झाली. प्रथम जाहिरातीच्या काही क्लीप्स दाखविल्या नंतर त्या जाहिरातीच्या मागची मानसिकता नेमकी काय? याचे विश्लेषण केले गेले. अशा जाहिराती का तयार केल्या जातात? त्याचा नेमका प्रभाव समाजावर कसा पडतो? या विषयी चर्चा झाली. विद्यार्थ्यांनी

आपापली मते स्पष्टपणे मांडली. अभिव्यक्तीच्या गीतांजली आणि निश्चय यांनी विविध प्रश्न विचारून विद्यार्थ्यांना बोलते केले. स्त्रियांकडून समाजाच्या अपेक्षा, त्यांच्याकडे पहाण्याचा दृष्टीकोन याचे प्रतिबिंब जाहिरातीत पडते हे निर्दर्शनाला आणून दिले. समाज हळूहळू बदलतो आहे. पण तरीही अजून स्त्री कडून आवाजवी अपेक्षा करणे तिला उपभोग्य वस्तू मानणे ही मानसीकता बदललेली नाही. आजही आपल्या देशात दर २२ मिनीटांनी एक बलात्कार आणि दर ३ मिनीटांनी छेडछाडीची घटना घडते हे विदारक सत्य आहे.

स्त्रियांविषयी असलेले कायदे आणि त्यातील कडक तरतुदी या विषयीची माहिती या निमित्ताने झाली.

अभिव्यक्तीच्या गीतांजली, कल्याणी आणि निश्चय यांच्या सहकार्याने हा कार्यक्रम आयोजित करण्यात आला. वरिष्ठ महाविद्यालयातील ९० विद्यार्थी यात सहभागी झाले.

लैंगिक छळवाद, छेडछाड करणे हा गुन्हा आहे. चुकीच्या जाहीराती याविषयी विद्यार्थ्यांना जागरूक करणे हा हेतू असे कार्यक्रम करण्यामागे असतो.

Establishing Dreams And Goals Living Life Fully

Sakshi S. Kamble
T.Y.B.Com

One of the amazing things we have been given as humans is the unquenchable desire to have dreams of a better life. Think of it. We can look deep within our hearts and dream of a better situation for ourselves and our families; dream of better financial lives and better emotional or physical lives; and certainly dream of better spiritual lives. But what makes this even more powerful is that we have also been given the ability to not only dream, but to pursue, those dreams, and not only to pursue them, but the cognitive ability to actually lay out a plan and strategies (setting goals) to achieve those dreams.

What are your dreams and goals? This isn't what you already have or what you have done, but what you want. Have you ever taken the time to truly reflect, to listen quietly to your heart, to see what dreams live within you? Your dreams are there. Everyone has them. So how do we know what our dreams are? This is an interesting process, and it relates primarily to the art of listening. This is not listening to others; it is listening to yourself. Let's take a look at some practical steps / thoughts on hearing from our hearts on what our dreams are.

Take time to be quiet. This is something that we don't do enough in this busy world of ours. We rush, rush, rush and we are constantly listening to noise all around us. The human heart was meant for times of quiet, to peep deep within. It is when we do this that our hearts are set free to soar

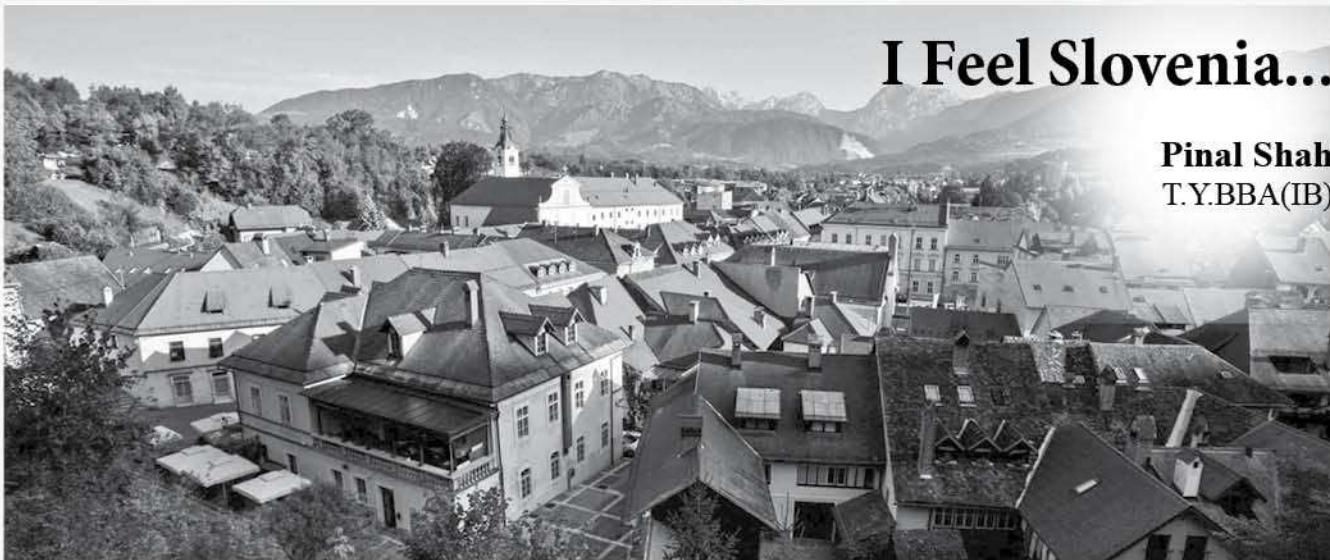

and take flight on the wings of our own dreams! Schedule some quiet "dream time" this week. No other people. No cell phone. No computer. Just you, a pad, a pen and your thoughts. Write down all of your dreams as you have them. Don't think of any as too outlandish or foolish. Remember, you're dreaming! Let the thoughts fly and take careful record.

Now, prioritize those dreams. Which are most important? Which are most feasible? Which would you love to do the most? Put them in the order in which you will actually try to attain them. Remember, we are always moving toward action, not just dreaming.

I Feel Slovenia...

Pinal Shah
T.Y.BBA(IB)

Slovenia, a country in central Europe, is known for its mountains, ski resorts and lakes. On lake Bled, a glacial lake fed by hot springs, the town of Bled contains a church, topped islet and a cliffside medieval castle.

Any season is the right season to visit Slovenia. This green part of Europe is indeed a special place wherever you cross the border. You can expect an exceptional diversity of landscape that changes in spectacular fashion, while friendly people and fine cuisine health resorts and spa's, tourists farms and sports offer something for everyone. In Slovenia the sun shines more than 2,000 hours a year. So every season offers a pleasant break. There are many wonderful locations to charm even the most demanding guest.

Slovenia is a pleasant country that calms the spirit and refreshes the body especially with its unspoilt nature, mild climate, friendly people and thermal springs. Slovenia's greatness lies in its wealth of diversity, in values that have emerged. Over countries in a co-existence of man & nature and also Slovenia is a clean, modern & safe country.

It is a cool Eastern European influence if you want a taste of Eastern Europe without being too far from a popular European destination. Slovenia

is a perfect choice. I'm a sucker for any city filled with street art, but Ljubljana stands out to me as one of the best. Street art is everywhere. The streets are decorated with quirky objects. Wonder beneath brightly patterned umbrellas hanging over street lights, see thousands of pairs of shoes draped over the powerlines or sit yourself on a neon pink park bench. It's really cheap! A casual meal will be around 7 Euro, a beer will only set you back about 2.50 Euro and also you can grab a coffee for only 1.30 Euro.

I love discovering cities that actually give a damn about socially responsible tourism. Ljubljana has been awarded the European Green Capital of 2016. Which is huge deal for eco-conscious travellers like myself.

Things to do in LJUBLJANA :

1. The triple bridge and square around it.
2. The Dragon Bridge.
3. Ljubljana Castle.
4. St. Nicholas Church.
5. Lake Bled.

Slovenia is tiny yet very beautiful. You can totally see the main sights of the country in a few days just like I did.

Losing Man's Best Friend - Book

Anikesh Dutta
F.Y.B.Com

Since childhood we are told that books are our best friend. We have used books to solve each and every problem we faced in our academics. Books have always been with us through out our lives but now people don't find books interesting, they use their devices to find their solutions. With increasing advancement in technology, people are forgetting their best friends. Especially kids, they don't read books for pleasure. They prefer to spend time with their mobile phones, desktop, laptop and videogames, etc. They don't understand that the information they get on the internet is not always correct. Internet may be wrong at some point but books cannot be wrong. According to the Bureau of Labor Statistics, a decline in leisure

reading is found. The high school graduates never read books other than their syllabus. Libraries are found empty throughout the year; only a few people read books and engross themselves in reading. Technology has definitely improved our standard of living but has also separated us from our best friend - Books. Now a days, people spend hours on their cell phones and other e-devices but they don't have time to read a single page from a book. Reading a book is very useful, it can release your stress and tension out of your body without having a side effect. We find so many quotes and memes on friendship / best-friend then why aren't we going back to our any best friend - Book.

7 Rules of life

Monika Shiva Sul
S.Y. B.Com

1. Make peace with your past so it won't screw up to the present
2. What others think of you is none of your business.
3. Time heals almost everything, give it time.
4. Don't compare your life to others and don't judge them. You have no idea what their journey is all about.
5. Stop thinking too much, it's alright not to know the answers. They will come to you when you least expect it.
6. No one is in charge of your happiness, except you.
7. You don't own all the problems in the world.

Current Trends in Education

Manisha Latake

S.Y. B.Com

India's huge population of young people might be considered its biggest strength unfortunately. India is far from having its act together when it comes to how to educate these young people. Government data suggests that only one out of every seven children born in India goes to college.

Modern education system caters to the present and the future needs of the nation & its citizens. Varied innovations are enriching the ongoing educational process throughout the world. Some of the modern trends in education followed in India are flipped classroom. STEM education, digital education etc.

Father of Nation Mahatma Gandhi once said, "By education I mean all round drawing out of the best in child & man body mind and spirit."

Change is the only constant. Even education is benefiting from trends across sectors from integration of technology to making hard science a more creative process to encourage innovation.

1) Digital citizenship :

Technology has become pervasive in our lives as well as our classrooms using google for a research project is no longer a luxury but the norm.

2) Making education more interactive :

Learning must be made interesting & fun, for a range of learning styles. Sometimes a video on a concept from You Tube can provide the right start to learning for the day.

3) Parent engagement will become more digitised:

In digital age, parent engagement with the school and their children will become more digitised. Parents will be able to receive communication from their school.

4) Unsatisfaction of Youth :

Teachers are unable to satisfy the youth by their knowledge and methods of teaching. Their knowledge level & education system is not providing satisfaction & due to this the youth stand against the teachers & system.

5) Education is not for knowledge :

Our education guides students to get marks, not to get knowledge. Our teachers emphasise on the marks.

6) Unawareness of teachers :

Unawareness of teachers about the methods and techniques of teaching. A teacher needs to polish his / her knowledge day by day.

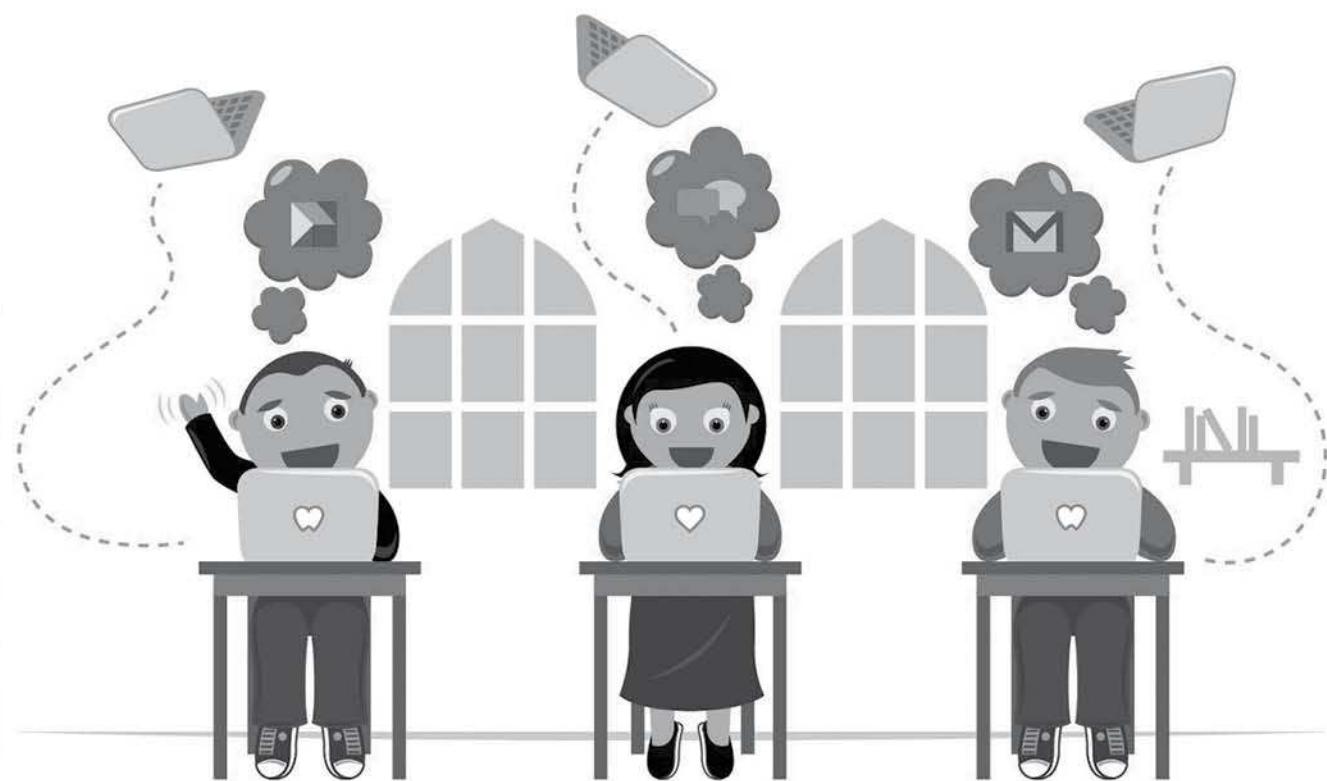

Education either functions as an instrument which is used to facilitate integration of the younger generation into the logic of the present system and bring about conformity. It becomes the practice of freedom. The means by which men and women deal critically with reality and discover how to participate in the transformation of their world.

Today the education of colleges & school is almost limited for earning bread & butter. Students are made to believe that developing the ability to store & retrieve information. Education is not the amount of information that is stored into ones brain. Nobody is born with moral content in him. It is necessary to teach the moral value beginning from childhood.

As we know that education is a key to success. Education is most important in our lives, because without education we can't imagine what is happening around you.

Now a days the cost of education is very high, not everyone can afford higher education. Character of teacher - A teacher is only person who can change the direction of the society. Teacher is the center point of any education system.

As we know, education is like water, which has no shape, no colour, no taste & no place, but still education is important in our life.

Business & PLEASURE

STUDENTS IN THE CITY HAVE COME UP WITH INNOVATIVE ENTREPRENEURIAL IDEAS AND ARE RUNNING FULL-FLEDGED VENTURES, ALONG WITH ACADEMICS

Entrepreneurship has always been seen as a realm for the bold, unconventional and for those driven by belief in an idea. And, this belief is being seen increasingly in students, several of whom are juggling homegrown businesses with full-time academics. *Mirror* spoke to them about their ventures and the drive behind them.

Paint Job

For Shruti Shankar (21), custom painting t-shirts is as much of a passion as pursuing engineering. Having started off on a small scale, she now has a team of 10 who help her to showcase her talents to a larger audience through her Instagram page, @shrutishankar. Her mantra is simple: give people what they want. "I figured that if I could paint anything requested, there wouldn't have to settle on what they find on websites or in stores," says Shruti. She paints designs she finds on Google or Pinterest, but also in her own creations. The number of days it takes to paint the t-shirt and the cost, all depends on the design. Starting from Rs 1,500.

While Shankar started painting t-shirts in 2016, she started taking paid orders in 2017. Profit is not her motto; she derives joy by providing people with personalised t-shirts, which makes the whole experience of a gift more touching. "It's a win-win — they get cool designs and I gain the experience of painting shirts," she said.

As a final-year student of information technology at PES's Modern College of Engineering, painting customised t-shirts is no easy feat. But Shankar is up for the challenge. She usually focuses on college work during the day and paints at night, even if it means rather less sleep. "You have to go that extra mile and find time for doing things you love, no matter how busy you are. Painting that for me," she beamed.

Current Trends in Management

Riddhi Prakash Gore

S.Y.B.Com

2015 was a big year for the business industry, featuring a host of new challenges and changes for the world's top business professionals. Increased digitization, new management styles, and more have changed the modern office. Careers in business are now more complex and specialized than ever before.

There is no better time to pursue a business management career. Whether you are interested in starting your own business or bringing your organizational and administrative skills to an existing organization, the right training can prepare you for lasting success in the business world. Understanding the ins and outs of the fast paced business environment will be your job, so a working knowledge of industry trends will be great to keep in your back pocket.

1) Business Management from Home : Hiring Remote Workers :

With more and more work being taken into the digital cloud accessible and exchangeable from anywhere and everywhere. Many of the industry's leading businesses have employees (and even management staff) who work from home.

Xerox, Dell, American Express and Lockheed

martin all topped 2015's list of companies who hire the most remote workers. Their upper-management boasts flexible working hours, and great percentages of their companies work are done out of office from mass data entry to creative design and more.

2. More millennials in Business Leadership Roles:

The time has come for the world's responsibility in the business world. Many people who were born between 1980 and 2000 are either in business colleges taking their first steps down their career paths or out in the world as business program graduates making their mark.

In recent years, social scientists have identified a "leadership gap" in the business scene between millennials and older generations in the business world. But with 10,000 baby boomers reaching retirement age (65) with each passing day from now until 2030. Millennials are beginning to tip the scale and take on more and more business management roles. This means if you are a business minded millennial with the latest training, leadership opportunities are now awaiting you.

3. 'Collaborative' vs. 'Command' styles for careers in Business Management :

Business management training will prepare you to manage employees of your own and when you do, you may want to consider adopting a collaborative / command leadership approach. This year it was cited by former Chilean president Michelle Bachelet and world food program executive director Josette Sheeran, who both promote collaboration / command as the best way to motivate employees while maintaining their trust.

"It needs to be hierarchical but also needs to be flexible" explained Sheeran at this year's world Economic Forum. Leaders agree this is the ideal balance to strike : Collaboration shows employees are open to exchanging input while the command side of the coins reminds them you can handle business on your own.

4. Continuing Digitization of the Business World :

Domestic and international business processes are becoming more digitally reliant by the day. That's why top training programs like AOLCC's Business Management and Business Administration diplomas offer you state of the art courses on business in the electronic age.

A noteworthy sign of this digitization was 2015's "webroom" trend, where in the traditional business showroom or expo model was taken online. People browsed "webroom" pages instead of expo aisles, exploring digital showcases of businesses retail products and services. This means it paid for companies to hire digital savvy employees this year.

With the right training and a finger on the pulse of the business industry, nothing can stop you from finding success in a business management career of your own.

Millennial Children : A prey of expectation

Pooja Desai
MJMC, Part - I

With stories of outrageous pressure on kids to excel, is it just to bombard them with expectations against their wills? To what extent are parents responsible in hurdling the development of their child? While nepotism in field of entertainment has gained a momentum, other areas of excellence are not far behind.

We all know that parents work very hard to give the best to their children and their only expectation is to see their children achieving and making name for himself. But while giving them their best is it just to expect more than what is humanly capable for the kid? Asking their kids to follow their own footsteps instead of following their hearts, how does one justify to the role of parenting. Kid of doctor can become an actor. Child of lawyer has a right to pursue food industry.

Seemingly unaware about the oppressive pressure a parent puts on the child, the childhood is lost within. Encouraging kids to have a goal is one thing but expecting them to achieve that goal through and through should be the very last thing on a parent's mind. Willingness from a kid

to persuade the field of his own liking should be encouraged by parents.

While generation gap and advancement in the world comes to a point where you can distinguish a stark contrast between the two generations, is it not the child's willingness to deliver what's expected out of him his own decision? Whatever happens in the future, one should not regret the choices they discarded or opportunities they missed.

A child should have all the options available in the world to choose what becomes of him in the future. Even if he is not of the age to decide what is best for him, he should still get a chance to make mistakes. Failure is the best teacher. Failing in life doesn't break you, it makes you what you are. Gold is tested by its trial with fire. And with immense will power and hard work nothing is too far away from your hands. When reality of the burdensome expectations set in, there is no turning back once the arrow shot from the bow.

Strategy of Life

Sakshi S. Kamble
T.Y. B.Com

Life is the name of purpose, struggle, love, dedication and a number of feelings and emotions. Life shows its true colors with time. It depends upon you that how you look towards life and what is your strategy of leading an ideal life.

Life takes a number of turns during its whole span. Life may not be kind to you all the times. There are tough times which really test your courage and your capabilities of facing unfavourable situations. How well you tackle these adverse conditions prove your credibility. People who just close their eyes to avoid facing the hardships of life are coward. They do not have courage and stamina to stand firm in front of life's demon. Remember that nothing can be done without trying, without striving hard to get yourself out of trouble, without facing the situations. Such incidents in life improve your approach towards destiny. These incidents may entirely change one's life (in some cases). These make your thinking a bit more rational. If there were no such thrills in life, it would be quite boring and monotonous. These incidents make you strong nerved person. In other words, life tests you all the time.

"Life is different from a teacher because teacher teaches a lesson and takes the exam but life takes

exam first and then teaches a lesson."

Do not waste your life. Life should have some purpose. Identify your aim, head towards your destiny and spend your entire life in achieving your goals. This is what we call life. It is a wise saying that time waits for no one. Once it is spent, it is gone. We've got to be wise in choosing our priorities so as not to waste any of our precious time. Keep on trying to get your goals and don't lose hope. It is said by Poulo Coelho : "When you want something, the entire universe conspires in helping you to achieve it."

Life is worthless without hope. Hope is the key element in life which never lets you down and keeps your morals high. Always be optimistic and have faith in God. Everything happens for a reason. Sometimes a slight inconvenience makes us to think that we are unfortunate, life is cruel etc. but this is not the reality. Spread optimism instead of pessimism. It will light up your life positively.

Remember that : "The darkest hour of night comes just before the dawn."

The inspiration of life is to serve mankind. Spread happiness and you will be blessed!!

Eradication of Superstitions - A Challenge

Shrushti Yadav

Since time immemorial, superstitions have engulfed the lives of people all over the globe. Superstitions can be referred to as irrational beliefs. Our country, India is a home to many such superstitions. Most of the Indians, till today believe in such baseless talks. People are still warned of 'black cat crossing their paths' or 'three people together often destroy the very motive of work' and many more.

Superstitions should not be confused with 'traditions and culture' which are the ethos of a country. They on the other hand are 'blind beliefs'. In ancient times, when development of science was unsubstantial, people believed in magic. They were pendants and amulets to protect themselves from 'black magic'. Natural calamities were considered as 'weapons of destruction by demons.' Even today, people get unwell by the thought of going against these superstitions.

For the development of a country, education and acceptance are two major factors. People need to have a scientific approach towards things. Eradication of superstitions is surely a challenge. When a government or a few group of people speak something against superstitions beliefs, other people become hysterical. A famous anti-superstitions activist, name Narendra Dabholkar

was assassinated by people because of his actions. Superstitions are so deep rooted that their eradication is a major challenge for any economy. I would say that eradication of superstitions is surely a challenge but it's not impossible. People need to be provided with awareness lectures. Campaigns and seminars should be arranged to spread awareness. Education and literacy should be the priorities. Many influential political leaders should make people believe in science rather than blind myths. Swami Vivekananda, a great leader always discouraged superstitions.

Superstitions like animal offerings in the name of God should be banned by law. In the beginning, people will riot and get violent but slowly and steadily accept the scientific approach. People from all walks of life should build up a scientific approach and a rational attitude towards things. All of us should encourage development of the economy along with its growth. Supporting the cause is only going to make the situation worse. But going against will develop our country. I would like to conclude by saying that Religion brings glory to a man's life but do not let it bring you down to the level of a beast."

Impact of Media on the Society

Saee Walkikar

XI E

The society is made up of the rich and the poor, the powerful and the weak. But the difference that truly matters is the difference between awareness and unawareness.

This difference creates a huge void in the society. The void is filled with darkness. Media is something that enlightens this darkness. It is known, that communication is the answer. Media is nothing but communication between those who don'ts. Intellectuals target masses with facts which take shape into opinions.

And society is nothing but all kinds of opinions thriving to harmonise with each other. What makes people are their thoughts. And media is the source of these thoughts. Such is the power of mass media. Masses are influenced and stimulated to think. Thoughts the fuel of the working society, are shaped through media. And these thoughts justify the behaviour of the people, the behaviour of the society. Now, contries are being changed because opinions matter. People's grievances are heard and acted upon. Entire mindsets are being changed.

If we think about the effects of mass media, the most drastic change is in our culture. Culture, which is deeply rooted into our identities, is being moulded to fit into this era of mass communication. The way festivals used to be celebrated has changed. Now, festivals are tinted

with the effects of cinema and pop culture. Our everyday lives have evolved from being centered around worldly matters, and shifted to the real world.

Not only has mass media influenced the society to think and behave, but it has also erased boundaries. It has become a bridge, a bridge to unite the world. To turn it into one, big globalized society. And this bridge cannot be swayed. It stands strong on the stumps of its righteousness.

The most powerful arm of media, is the internet. The youth, the wealth of the society, is easily influenced because of the internet. Their actions are effortlessly controlled by the strings of the internet. But it has also helped turn the youth into an intelligent generation which believes in itself.

Mass Media is like an ocean. It is brimming full with possibilities. But it is also very polluted. The quality of being highly influential has turned mass media into a lethal tool. Thoughts might be influenced into going astray. In that case, media is a ticking bomb disguised as a clock, awaiting the apocalypse.

Mass media is like the best friend of the society. It makes people think, it makes people act. But regardless, it is always going to be there. It will continue to keep the society on its toes, and hold it up. Media is the influencer, the maker of society. It is the guardian of the society.

Contribution of Education in Personality Development

Pratiksha Lodha
XI B

Education is only asset which one has till the end of his life. Education assist individual to stand on his own feet and take right decision. It helps person to gain confidence. Confidence is must for anyone to have good personality. So Education is only booster. Which can help a person to gain confidence in himself. Some people are very shy. They can gain confidence by taking proper education only.

Proper education helps them to built confidence. This helps them to sit with other person and have a healthy communication with them. Can get more knowledge and clear doubts. Just like a plant needs to be nourish to get fruits similarly, we needs to nourish physically or mentally to have good personality.

As we know that confidence is must for the development of anyone's personality . Which can be only gained by having education. Education gives us knowledge experience and opportunity which helps to achieve confidence and so automatically to have good personality. We should have a proper education and must take it

seriously. If we take education lightly then our personality will be a joke. Similarly literate and illiterate people have personality but we can find difference between both of them instantly by their own behaviour.

Literate people speak properly with elders, give them respect, not only to elders, whereas, all people, they have good communication tone. Whereas, illiterate people are viceversa of it. They don't have good communication tone, or give respect to people. Whether it be elders or youngers. They don't understand importance of good communication and giving respect to other.

Education is equities in life. Personality is absorbed by surroundings too. So we should have a good surroundings. To have goo personality which determines our character. So all are correlated to each other. In this way, only education contributes for development of the personality. "Absorb what is good, discard what is wrong and have a unique personality on."

Role and Contribution of Men in Eradication of Dowry

Today I would like to write about the role and contribution of men in eradication of dowry and would also like to highlight the condition of men because of the misuse of dowry prohibition act 1961.

So, once Swami Vivekananda said, 'It is not the building that makes home but it is the wife that makes it.' We worship goddesses on one hand and give so much importance to women while at the other end of the spectrum, we follow civil practices like dowry.

Violence against women has a long history in world, especially in India. The country's extreme caste system, cultural custom and gender inequality has created male dominated society. This is the reason that violence has persisted in India. One of the more extreme practices can be seen through dowry practice.

Dowry transactions go back in Indian culture. Traditionally dowry was an act of love as parents would gift their daughter with dowry. It could be in form of cash or even real estate. It allowed her to enter the marital home with her own wealth. It was seen as a substitute for inheritance.

But as the pressure of cash economy increased under British colonial rule, dowry was transformed into vital source of income. The effect of dowry custom can be traced back to womb and is considered as one of the primary causes for female foeticide, as parents would

avoid life long liability of saving up for daughter's marriage.

Dowry has now become a social evil and in the most extreme cases the newlywed bride can be murdered by her in-laws or even be driven to commit suicide. Indian National Crime Bureau reported that there were approximately 8233 dowry murders in the year 2012.

In 1961, Government launched dowry prohibition act which was later amended in 1984 and 1986. The law punishes both the families. It was not until 1983, that govt. realized dowry and domestic violence as criminal offense by the introduction of section 498-A into Indian penal code.

In January last year, Prime Minister Narendra Modi launched a special campaign to empower women called "Beti Bachao, Beti Padhao."

Various public videos were launched that take aim at dowry system. The videos are the latest attempt by Indian adverts to address gender stereotypes and dated attitudes.

When Modi invited public to come up with their own ideas to support his campaign, Sunil Alagh, a Mumbai based business consultant came up with stronger messages than Indians could expect. He persuaded Inox Cinema chains to show videos for free before every show at more than 400 screens in 57 cities.

"I have sat in the audience and heard a loud murmur of approval after the add finishes" said Alok Iondon, owner of the Inox Cinema.

Brinda Karat, the former secretary general of All India Democratic Womens Association, has found that dowry is now widespread and is practised where it was not traditionally practised.

"I don't know how far it will change the attitude of the people, but we need ideas like this to shake things up a bit." said she.

Demanding dowry is no way to respect women. India needs a cultural revolution. As a society India must come together and eradicate dowry process.

This was about the role but today Dowry Prohibition Act, 1961 is more misused than it is used. To be honest, I never thought men would have any issues, men would ever have any concern will one day I came across this video, where a man called Syed Ahmed Makhdoom said that he would be committing suicide, tired of fighting false dowry cases against him & separation from his beloved son in April 2009.

I, as a woman was confused after watching this video. Just because I am a women, does it give

me any right or power to ruin a family or a man. I was moved to tears because of the condition of the men & the way they are being victimised due to gender biased laws in India.

Section 489 - A of the Indian Penal Code, the law that was made with very noble intentions to protect the women against violence. But today, 35 years down the line, section 498 - A is known as the law that has been most abused in the history of Indian Judiciary. More than 23 lakh people have been arrested under this law. More than 5 lakh women have been arrested under this law and when I say women, I am talking about mother of the boy, sister of the boy, 85 to 90 years old women, small young girls have been arrested under this law, no matter if you have done something wrong or not, just because your name was written in the complain, you will be arrested. Barely 15% of the total people are actually found guilty under this law.

The provision is to be used as a shield and not as an assassins weapon. If the cry of the wolf made to often as prank, help and assistance will not be available when actual wolf appears.

The means is the end, therefore choose wisely.

Growing Dowry Custom and Corruption

Pranita Bagmar

"It was a prostitution when they sold her, but it was a dowry when they sold him."

Yes, this is a very appropriate line to explain what does dowry means to you, me and whole of India.

"Isn't it a shameful thing for us to say that we are the part of society where giving & taking a dowry is pride?"

Moving ahead let us first understand meaning of Dowry. Dowry system is a cultural practice where the family of bride gives away a large sum of cash, property and valuables to family of groom at the time of marriage.

Dowry custom was initiated as a very decent practice in order to help the girls financially as they move on to new phase of their life. These has been continued since centuries in India. But today it has turned into an evil practice. In the ancient times, the daughters had no inheritance in property of their parents. But today even though the daughters can inherit and no longer depend on dowry for financial strength / security still consider dowry their right. As the thinking here on girl part is to maintain her reputation in groom's family.

The very popular quote, 'God resides where women are worshiped' has now changed its meaning for our society. As per statistics not only the uneducated family and groom but also the educated family and groom are part of this

useless system. Then there arises a question is this our culture, is this our education system?? And if the answer is yes, then it is very shameful that a system which cannot make a boy stand on his own feet and demand huge dowry from the bride and her family ruining their lives.

Due to dowry custom, a sacred affair of marriage is now destroyed and turned into a business deal. Ah! and most ugliest fact / truth of this system is richer family of groom, higher is their demand. Alas! All the noble virtues of humanity have now buried like a rotten corpse.

But even today the custom is increasing rapidly. To support this statement. I would like to add up an alarming fact and disturbing / shocking figures related to this custom.

"Domestic violence is on rise and many of this is due to inadequate dowry." As per the official record 7 newly weds die everyday, while 21 newly weds die everyday as per unofficial record.

The count does not stops here only almost 500 brides die every year as a consequence of dowry (NBI).

Today it is a state of every mind "Dulhan khud hi ek dahej hai." Again dowry is one major social cause that promotes corruption. Corruption is the misuse of entrusted power (by heritage, education, marriage, election, etc.) for private gain. Somehow dowry and corruption are interrelated,

There are no shortcuts to any place worth going.

because both are age old phenomenon that leads to destruction, ruining / spoiling of lives. Dowry itself is a corruption, just they are two different words. The word dowry is used in society while word corruption is that of vicious circle. It starts with family of groom, where groom demands for a huge position or seek for a government job, so there he bribes the government officer in order to achieve the same. Later on, family of groom has an golden opportunity to recover the amount which they had bribed from family of bride at time of marriage, where dowry comes into picture. Again it becomes a matter of prestige & symbol of status for family of bride to give away so called dahej and ends up taking a huge loan at an exponential interest rate which leads to corruption and this is now circle goes on.

Dowry is not just a need but a greed to earn more and more, where this more has unstoppable line.

In 2014, India ranked 5th out of 174 countries in Transparency International Corruption Perception Index (TICPI), where State of Bihar is on No. 1 position in India.

As we say Lotus is our national flower, Tiger is our national animal and so on relating with the current affairs, i feel that it will not be wrong to say that corruption is our national food. To root this social evil mere laws, by laws and social enactments cannot be sufficient. Total change in

society is required to eradicate this blot / stigma from face of Indian society. The measures like, -

1) Social awarness : Among people by organizing anti dowry & anti corruption campaings through out the country. Also socially boycotting people who accepts and demands dowry.

2) Women empowerment and education : It is an another important step through which women can be educated and also be made self sufficient so that they might grow conscious of their dignity and prestige.

3) Laws : The laws like 'Dowry Prohibition Act 1969' as well as 'Prevention of Corruption Act 1988' should be strictly enforced and the one which misuses the law should be punished immediately.

With this point I will like to conclude, corruption and dowry is an intractable problem, it is like a diabetes which can only be controlled but not totally eliminated, it may not be possible to root out corruption completely at all levels but it is possible to contain it within a tolerable limit. The ball has already started rolling and people also have become more conscious. So let us all work together & put an end to this system. Just like Gandhiji ke 3 bandar, jo bura nahi dekhate, bura nahi sunte, our bura nahi bolate.

"A honest person will not close his eyes to corruption, will not close his ears to complaints, will not keep quite against corruption."

Journalist's : For or Against?

Shivani Tanpure

MJMC Part - 1

A press line in newspaper indicates that each and every word printed under the mast head of the newspaper is the whole and sole responsibility of the editor alone. There are many reporters working for every single word out there which is printed but the liability is only that of the editor. Yes! Agreed. They say, "The editor is the face of the newspaper." But, before being an editor he is a journalist at the first place.

I believe (from the journalists point of view), there are two faces to the society; one is the journalist himself and other is the reader.

Some of the newspapers accept letters from these common people about their views on a particular issue revolving around the society. It is said to be a report from the ground level. At last it is all about the reader's viewpoint. For them there is either all black or all white with no shades between. But there are certain elements around who are included in the grey shades and with the misuse of social media applications give a waiving hand to fake news. One such incident happened is as follows, -

An anonymous post card was received by a media house recently. The farmers issue in the country is all heated up past few months. The farmers are on strike in few cities. So the subject of the letter was with two views; one 'For the strike' and another 'Against the strike'. And it is quite fair. There are two sides to the coin as well. with the view to a justified chance to the layman to raise their outlooks, the newspaper printed both the letters in the succeeding day's copy. The newspaper reached every doorstep early in the morning.

The editor got a call at 8.30am from an unknown number. He received it, and a person screaming to the top of his voice from the other side. Not only was he screaming, but using indecent language as well. The editor hanged up the call. Another call at 8.34 am, again an unknown number, "we will burn your newspaper, we will not leave you, how can you do this?" was the response. He was shocked for a moment, he immediately saw the paper, but he did not notice anything wrong.

At 11.45am a watsapp message flashed in his notification bar, he opened it and was terrified by reading the message. The language from the 'Against the strike' letter was altered and forwarded on watsapp by someone by the editor's name and number under it. And it took just few hours for the message to get viral in the entire city. People started degrading the newspaper without cross checking for the matter.

Development in technology, freedom of speech is on one side, but misusing the same, leaving back the humanity is shameful. Therefore, here is the mirror of a journalist to all the grey shaded people out there, whose only motive is to create stressful environment.

A journalist is never 'FOR' OR 'AGAINST', they have their own opinions, but never are they biased. A true journalist is never from any party. But yes! The definition for 'true' may vary individually. A journalist is never a 'Rightist' or 'Leftist', instead he is the pillar to hold on to the partial elements in the society and still follow the neutral way, an unbiased path.

Cyber Security Awareness For College Students

Hemant Dusane

Cyber Security Researcher

The internet is an increasing part of today's culture, especially for children and youth, for whom college work, online gaming, and social networking are among the most popular activities. It's all about being able to have fun online - to be able to chat with your friends, to post a video that you've made or a song that you've written, to be free to find out more about information you're interested in and check out the latest trends without being bullied, annoyed or scammed, or having your ideas stolen including identity theft. Today's world is moving with a speed of thought, everyone want to come on Cyber Space.

Let's understand, what is Cyber Space? It is a world of information and communication which can be accessed via internet. There are 3 important characteristics everyone need to understand, which are;

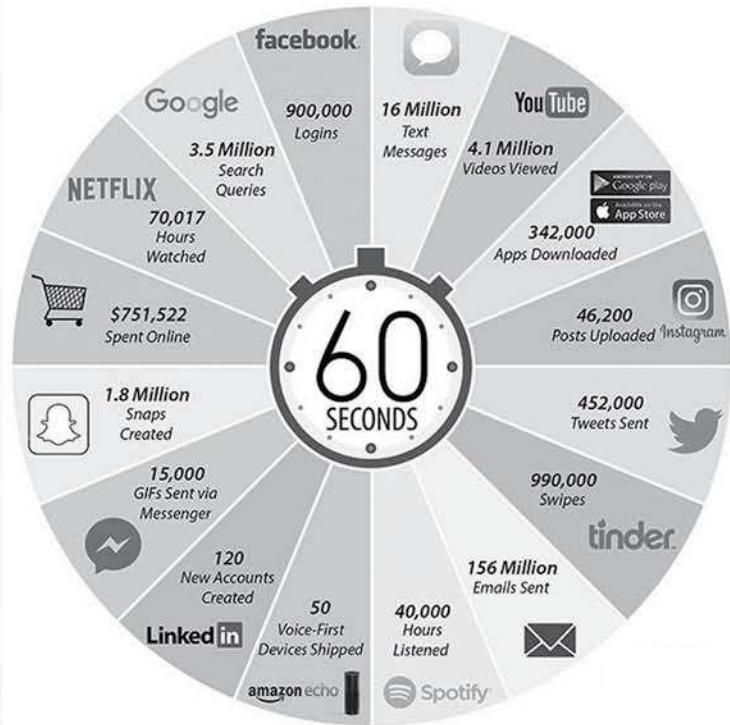

1. Space : Individuals are one click away from each other and they can be available at multiple places at the same time (google, checking emails and chatting on FB)

2. Time : Anything which happens, in stored

and recorded (photo uploaded 15 - years ago may be still available on internet)

3. Individual : Individual create real vs virtual identity (IDs, Avatars, Account Number etc.) to differentiate them from their real identity.

2017 *This Is What Happens In An Internet Minute*

Unless a man undertakes more than he possibly can do, he will never do all that he can.

A minute on the internet world : 156 million emails are sent every minute on average across the internet. But beyond just email, a lot is happening, on the internet in not a lot of time. In the span of just one minute, on average : 259 Uber rides are booked. 52,000 tweets are tweeted. 8 million images are snapped on snapchat. 90,000 potential suitors are swiped on Tinder.

FACTS of Social Networking world :

Online communities began building in the late 1990s with sites such as Classmates and Sis Degrees along with Email, IM and Chat rooms. It wasn't until around 2005 when social networking exploded with MySpace, Facebook and Xanga. A study shows that teens (age 12-18) use e-mail or instant messaging (IM) to communicate with their friends more than text messaging e-mail accounts for example are often necessary to join social networking sites, online games, and virtual worlds. Though there is an explicit age criteria defined for all social networking sites (the minimum age on Facebook is 13, on LinkedIn it's 14, on WhatsApp it's 16 and on Vine it's 17.), teens are trying to engage themselves extensively on all platforms. This level of engagement online increases the risks of cyberbullying. "Facebook depression" (a new phenomenon where "de-friending" and online bullying lead to symptoms of depression), exposure to inappropriate content, and sexting.

In India, mobiles have been driving the growth of Facebook. More than 98 million of users access Facebook via smartphone followed by feature phone which stands at 17 million. Any kid with a cell phone

probably uses it to send and receive text messages and images. It's similar to using email or instant messaging and most of the same etiquette and safety rules apply.

Why is it important to stay safe online?

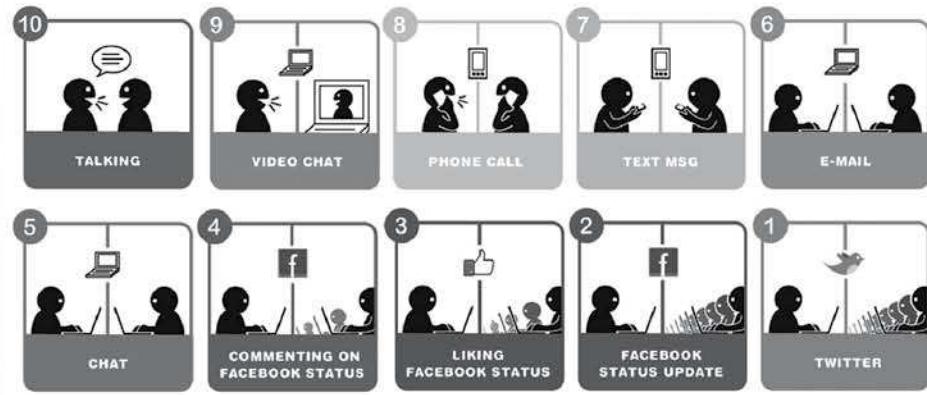

What happens if you not follow the Game Rules in your college? You may be abandoned from the game by your teacher, and punished. Similarly, while using Internet also, it's very important to follow the Rules/ethics, you may be denied from some of the Internet facilities.

Most of us are 'connected' via our laptops, mobile phones, tablets or personal computer. The potential for the internet to be a valuable and a fun resource for entertainment, making friends, keeping in touch and learning is huge. But if you use the internet without safety awareness, you could be at risk of illegal activity or abuse like it bullying, fraud or something more serious. Unlike seeing someone face to face, on the net, people aren't always what they first seem.

Online predators : Biggest online risks for students and teenagers :

Online predators are internet users who exploit children and teens for sexual and violent purposes. This may include child grooming,

10 LEVELS OF INTIMACY IN TODAY'S COMMUNICATION

engage in sexual activities, unwanted exposure of materials and pictures, online harassment, threats to cause fear or embarrassment. It is online harassment.

If someone offers you gifts or without any reason wants to meet you and try to be very affectionate - these may be signs of an online predator.

Threats by online predators : Online Predators make threats when you no longer want to chat with them and start forcing you for in person meeting by issuing threats to harm your family members and friends.

How to prevent online predators?

Recognize the techniques tried to mislead you. Make sure to choose the user names without using your real names.

Set rules for online chatting, avoid chats like gender, problems at home and college.

Don't fill your personal details in your online profile, be careful about the information you put online.

Always take security measures like privacy settings and set the limited view of your profile. Don't fear and Don't be scared to say no for personal information.

Do not get led by any strangers into changing your habits and thoughts, take your parents if you want to meet your online friend.

If someone uses bad language or threatens, take a screen shot of your conversation and tell them that you would report to police.

Best way to prevent online abuse is to educate yourself on the websites, software, and apps that you use. Visit social networking websites with your parents, and exchange ideas about acceptable versus potentially risky websites. Stay educated about online world and stay connected to your family....

Joy & Sorrow

T.Y.B.Com

Joy has relation with sorrow of a step brother,
Never in our life they go together.

Joy is the one for which we all crave,
And from sorrow, ourselves, we try to save!

Joy is bright day & sorrow dark night,
We try to illuminate life with joy's light.
For joy, with life, we all fight,
Because joy is our dream & sorrow our plight!

Life is full of ups and downs,
Sometimes smiles on face & sometimes frowns!
This is the real meaning of joy & sorrow.
Sorrow today & joy tomorrow!

Hide & seek in our life they play.
Joy makes & sorrow spoils our day!
None of them in our life has permanent stay,
So live life to its fullest day-by-day!

Kolkata Days - Kolkatar Dingulo

Neha Padhye
F.Y.B.Com

Someone has rightly said, "Everyone has to leave their home, their city and come back to love it again for all new reasons." This was what I thought when I left my hometown Pune two years back. I was posted to Kolkata for 6 months as a part of ITC's music collaboration projects. A new journey was awaiting. Honestly speaking, I was afraid of the new city, a part of India I had never been to. But when you live somewhere new, you navigate emotions that range from fear to excitement. You attempt to find your niche in this new world while working to make sense of the new life you are living.

Out of all the cities I had been to this place had something unique, it's very own potent charm. The very next day when I reached, I woke up to the sound of raindrops in my darkened hostel room. It had rained too much and there was no sign of respite yet. I tried to enjoy the rain much like a Bong, for a short while with a warm cup of tea at hand. I then murmured the notes of 'Des' as the gray sky descended upon the city. The next

day we left for sightseeing and witnessed traces of the 'British Raj'. Located on the Hooghly river banks, 'The city of Joy' was indeed home to many art forms, I spent months exploring the city and finally realised that the real heart of the city lies in its people. If you want a city with a soul, you can't look beyond any other city other than kolkata.

I still cherish the memories of Durga Pujo, enjoying 'kulladwali chai' with my hostel friends and enjoying mishti doi after rigorous riyaaz sessions. What makes me nostalgic is Kolkata's environment zones, free from the city's hustle bustle they help you calm down.

finally this journey came to an end and it was time to go back to my very own Pune! Afterall home is home right? But for sure, this city has given me new experiences, lifelong memories and after 2 years, I still have a bit of kolkata in my heart.

GST and its Impact on Business in India

Harshada Pawar

A just and reliable tax regime is vital for the sustainable economic growth and the fiscal consolidation of an economy in the world. This involves a greater importance in developing economy like India. Where although we have to high demographic dividend we are yet to convert it to the proportionate human capital, which will in turn benefit the social and economic growth of the country.

The essential rationale behind this is the taxation system should be reasonable and nondiscriminatory in respect to both the direct taxes payable by individuals and the indirect taxes payable by industries. so to make them more tax compliant and bring the larger populace in the taxation.

Need for the GST legislation :

The tax GDP ratio of country is an important indication that helps understand how much tax revenue is being collected by the government as compared to the overall size of the economy & unfortunately, this ratio is dismal lone for India despite having years of high growth the longest in BRICS countries.

The burden of regressive taxes is another issue that the GST aims to redress Direct taxes are

progressive taxes as they are contingent to the ability to the taxpayee to pay.

Furthermore the cascading of taxes with both the centre revenue from the tax system and both the taxes levied by the State Government are not available to set off against the taxes being levied by the state governments.

The Goods and Services Tax Network :

Along with GST, there are a number of reforms that the government is bringing in to strengthen the manufacturing bone of India.

GSTN, the Goods and services Taxes Network is being setup with the objectives to provide the requisite IT infrastructure and services for the proper roll out and implementation of GST.

The company will work towards providing a proficient GST eco-system. It will encourage and collaborate with GST Suvidha provides the roll out GST application for providing simplified services to the stakeholders.

The important feature of the GST is to develop Tax payer profiling utility which is a very important aspect in ensuring efficient administrative and achieve the GST council.

GST Council :

This is the most important aspect of the Goods and Services tax, in ways biggest than the GST will too, as the entire structure of GST is contingent on this foundation.

It is impressive to note that the excise of the GST council will shape whether this ambitious tax reform will achieve its due desired effect or not.

My College Days

Gaurav Nahata

T.Y.BBA (IB)

Those were the best days of my life
when fun and frolic was rife.

A refreshing realm of knowledge
That was my college.

Funny friends and loving lectures
Freaky fundas and flexible study hours
Riddles and rumors, gossips and giggles umpteen
Added spice to the junk I hogged at the college canteen

My college was a literary paradise,
Where I learnt to critically analyze,
Every text that came my way
Be it poetry, prose or play

Free from the fetters of school
I willingly jumped into the knowledge pool
Where education was mixed with entertainment
At college learning was never a punishment.

Happiness

T.Y.BBA

Happiness comes now and then,
We cannot be sure just when,
But when it's there enjoy every hour
Because happiness has such power,
Joy to you it will bring
Even when make someone else sing.
What peace of mind happiness can show
making you and others glow,
Nurture it, make it last
forget the trouble of past
Never fear that it will go
for it could always grow
And tomorrow there it will be
For happiness can set you free.

Students Involvement in Quality Enhancement by NAAC

Dr. Shrishti Gangalay

"I learnt most not from who taught me, but from those who talked with me" - **St. Augustine**

This article basically to understand various initiatives taken by NAAC to involve students as important as teaching in any educational organization quality assessment.

Students of any disciplines are expected to be proficient in four basic skills of learning such as Listening, Speaking, Reading and Writing (LSRW). But Indian traditional educational system has so far successful in all avenues in imparting only one basic of four skills namely "Listening." Our educational system has made our students to remain passive listeners for years together. The classroom teaching system namely the lecture method never allowed the students to speak, question and discourse in their respective subjects.

Quality is an elusive concept. The NAAC is viewing quality as "fitness for purpose", and quality assurance as "continuous improvement". The quality of higher education is a result of collective effort of all stakeholders in higher education, which includes the state, the society, the employer, parents, the management, teachers and students. Among the stakeholders the students are the primary stakeholders and all

quality measures, which are to be benchmarked against the student interests. This is the student-centric approach to quality.

NAAC initiatives Taking note of the worldwide initiatives, NAAC has launched various initiatives to promote Student Participation In Quality Assurance.

- A. NAAC is focusing on participation of all students in quality enhancement, not merely the representatives of students. This inclusive approach to participation may help in avoiding some of the limitations of student representative politics.
- B. NAAC is encouraging institutions to put in place a system of student feedback particularly on teaching-learning, assessment and support services. The feedback from students will help in quality improvement of the processes and empower the student with a sense of participation.
- C. Another initiative of NAAC is to encourage the institutions to have internal mechanisms for continuous participation of students in institutional quality improvement activities.
- D. NAAC is also having a system of getting student inputs on assessment of institutional performance. This process makes assessment

process more reliable and credible. NAAC believes and encourages more flexibility and diversity in the practice of student assessment of quality, depending on the context.

- E. NAAC is organizing a number of programmes for quality awareness / quality literacy.
- F. NAAC is engaged in developing guides of good practices of student participation in quality.
- G. NAAC has developed the student character as a guide for action by institutions and students.

The higher education academy carried out a project called Student Enhanced Learning through effective feedback. The objective of this project was to develop a resource for practitioners aspiring to improve their feedback practice to students and get some new ideas on how to improve and enhance the current practices. The outcome of the project included a series of case studies, seven principles for good effective practice and a manual to conduct workshops using the project materials. (Source : The Higher Education Academy, Enhancing student learning through effective formative feedback by Charles Juwah, et.al. Page 2) The seven principles are listed below.

- 1. Facilitates the development of self assessment (reflection) in learning.
- 2. Encourages teacher and peer dialogue around learning.
- 3. Helps clarify what good performances is .
- 4. Provides opportunities to reduce the gap between current and desired levels .
- 5. Delivers high quality information to students.
- 6. Encourages positive motivation.
- 7. Provides information to teachers to improve teaching.

Conclusion :

The challenge for the institutions of higher education really is how do we incorporate the work ethic and transparency these institutions of professional education have established, without the accompanying consumerist and pragmatic culture? What are the alternative values and symbols that can motivate students and teachers to work hard? How do we reconcile the need to study for jobs with an academic and genuinely inquisitive learning? Unless these issues are addressed we might end up with conventional universities without a work culture and professional institutions without social relevance. This to my mind is nothing short of a crisis in higher education.

Student is the nucleus of every educational institution. Massive buildings, scholarly professors, scientifically-designed curricular, objectives, mission, vision, huge amount of finance, plethora of educational equipments, innovative concepts, methodologies and strategies will have their meaning, relevance and existence only when these pervade an entity called "Students". But for students, the world of academia would become hollowed. But it is sad that all kinds of educational reforms do take place in India without taking into consideration the aspirations of the students community who is the very foundation of the superstructure of Indian academia. It is a fact that one cannot pull on with this condition further for the 21st century. The 21st century is a century of knowledge, resourcefulness, proficiency, competency and analytical abilities for human development. Therefore students should constitute the preamble of India's academic reforms for the 21st century.

Work Life Balance: Some points to ponder

Tamphasana Rajkumari

Introduction :

Work determines a person's worth and place in society. It influences one's mental identity and sense of well-being. It is their purposeful activity which directed them towards the satisfaction of their needs and desires. However, so many people are sacrificed some or the other things for the work. It is inappropriate to presume that in order to have greater job satisfaction one must sacrifice his personal pleasure and joy of living. One must maintain a balance work and personal life. Here, the question of maintain due balance between work and pleasure is of great importance and a difficult issue. An imbalance is created when conflict occurs between work and personal life time, which results in stress. Occupational related stress among working people is increase tremendously. Stress at work place has become an integral part of everyday life. It is called by the World Health Organization as "Worldwide epidemic".

Stress that cause disturbance in behaviour can neither offer pleasure nor satisfaction. When one is overstresses by work pressure, he loses both

– personal satisfaction and ability to cope up with stress. Therefore, the true challenge before an individual to overcome the adverse effects of stress and balance between work and pleasure is of great importance.

In present's work life, due to higher level of organizational expectation, employees are generally working for longer hours; which effect their personal life and stress for maintaining work-life balance. No doubt work is important for

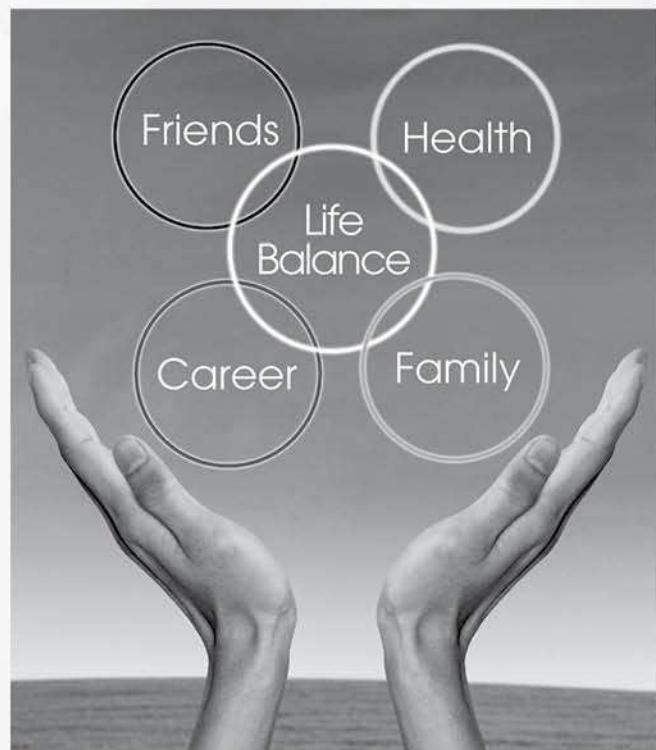

everyone and it is something can't avoid. However, making out what is important and necessary and determined what is valued will make a work-life balance and stress management possible.

Maintaining work life balance :

Work life balance means harmonizing balance of organizational job work and personal life. This brings a balance between conflicting and multiple roles performed by an individual. One has to perform multiple roles effectively and efficiently. However, these roles results in conflict due to limitations of time, non-availability of resources and conflicting demands of each one over others.

It is very stressful situation when one tries to fulfill all these challenging and conflicting roles simultaneously. An employee simultaneously plays the role of husband/wife, father/mother, friend and well-wisher of someone. But when he performs all these roles simultaneously he faces critical challenges. And for this purpose he has to balance various roles effectively and simultaneously.

To maintain an appropriate balance, an employee can give a direction to their family and personal life and at the same time it can improve the quality of work life. However, achieving a work life balance is one of the most difficult challenges before every individual. Different business expects different commitments and requirement. By focusing on this expectation organization ignore the employees' personal life, which ultimately affect the organizational main objectives. Due to this, in present scenario, many organizations have realized the importance of work life balance as it has a positive and direct impact on productivity and effectiveness of employee. Organization has taken up various measures to maintain a healthy work environment. Some of the healthy practices

adopted by organization are recognizing employees, improving their competitive edge and encouraging them to give their best.

Conclusion:

Work life balance is very important both for individual as well as organization. It creates a positive environment in workplace, which leads to improve employees' productivity and efficiency and organization's profit at large. To maintain work life balance efforts should be made both from individual as well as organization. Thus, organization should also focus on healthy atmosphere at work place rather than on results and performance. They should adopt certain healthy practices like discouraging the employee from working late, develop a flexible working time, measures to reduce pitfalls and tensions at work place and provide deserving holidays.

Person With Ability ?

Dr. Swapna Kolhatkar

The use of the acronym 'PWD' - Person With Disability, for the physically challenged person in government and education sector is quite common; all with good intentions and inclusions of the not so privileged in the society at large. It was during the preparation for the National Assessment and Accreditation Council (NAAC) visit to the college that I, as one of the teachers got to know of the acronym and what a boon the facility for a PWD. There are reservations, concessions and facilities to make such a person self dependent and self reliant in the family and society.

Accordingly, for the NAAC peer team visit, our college had invited all PWDs so that the college facts and adherence to education norms could be corroborated . Even the parents of PWDs were sent special invitation for interacting with the NAAC Peer Team. While all care was taken to show the financial and administrative facilities for the PWDs, on the other hand, there were invitations for the students who had shown excellence in curricular, co-curricular, sports and extracurricular activities. I remember a few talented and deserving students who had come

with a big haul of medals and certificates from recognized bodies.

These were the students who had exceptional abilities in their respective areas. There were other students too who were also working under the 'Earn and Learn' scheme so as to take care of their financial part, themselves. I respect and admire all these students (PWDs, bright students and responsible students) who either try to cope with their circumstances or excel in their areas of choice or are understanding and responsible towards their family.

Education sector addresses a varied number of issues and cases to see justice and equality for all; successfully (or not is debatable). There are scholarships and recognition for students to promote the culture of excellence to bring forth quality in young generation and motivate all for progress.

In between all this, the student with ability which is a quality, is forgotten or not promoted at all. With ability, I would like to specify the qualities or morals that children are taught at a young age. These morals include speaking the truth, inculcating good habits, practicing hygiene

He knows the water best who has waded through it.

(internal & external), respecting elders, caring for others, loving nature etc. I am in fact amazed by the variety of stories in 'Panchtantra' that address all these morals through mundane characters and simplicity of storytelling. Indeed, if a person is to practice all these morals, wouldn't it lead to all desirable quality(ies) in and as a person, as a professional, in the culture & society and finally the world ?

Hats off to Indian Prime Minister who has practiced and promoted ideas like 'Swachchh Bharat Abhiyaan', 'International Yoga Day', etc., which are in tune with the inculcation of good habits and morals. It is onto the society to imbibe them and pass it to the coming generation. A well aware person has the potential to be a just person and accordingly becomes the start of the greater change in society. It causes a revolution when the society abides by the rules and regulations.

A person with such qualities is desirable to the family for his caring attitude; to the society as a good citizen; to the company for his amicable behavior etc. His qualities are because of his ability to think of the larger good. The transition from 'quality' to 'ability' is because of recognition

by family and friends and encouragement from elders and teachers. No wonder children show progress in certain areas like debates, team spirit, arts, crafts, music, story telling, spinning tall tales, oration etc; which consequently also define the attitude towards work. But the abilities that I talk of are hardly rewarded later on because the competitive world is busy judging the intelligence of person, never his 'qualities'. India as a country does have awards and recognition for citizens who do good to society but is there fairness in the process ? Are there not hundreds of anonymous citizens who did greater good, selflessly ? Is it not the time for the country to reward and recognize such citizens at village / city / state level ? Why do we have laws only to punish the guilty ? Why not have provisions to acknowledge the good behavior too ? Will this process not generate more positivity?

Our education system solely relies on numbers and no matter how stringent we make the laws, there are bound to be loopholes. One must admit that awareness among the parents is on the increase and they show courage in defying norms by encouraging their child to pursue

their hobbies and interests. Even the modern companies are promoting employees to work as per their interests and aptitude rather than follow staid patterns of job / work culture. 'A person with ability' becomes desirable to the progress of the company. A child who excelled in giving speeches has good prospects with apt companies. The educational qualification that he had slogged for are only for getting a job, whereas for excelling in the job, all an employee needs is the strength and potential of his ability.

I would like to make a few observations as follows :

1. Let children between age group 2-8 be channeled for inculcating good habits to make them good and responsible citizens. Their efforts in adapting to healthy habits will teach them that everything has to be learned through hard work. Our education system teaches this aspect but does not practice it. Family system is also unable to accomplish the task due to problems of urbanization.
2. Children in the age group of 6-18 should be promoted for identifying and pursuing their interest so as to make them aware that developing and skills. Schools are highly successful in implementing various activities for the all round development of the children and channeling them for the competitive world. So what is lacking then? Is it the lack of rewards? No ! It is basically the lack of quantifying these qualities for higher studies. There needs to be identification of skills required for the modern world and accordingly their promotion in obtaining recognition. So many qualities of a person are not recognized solely due to the lacking system and its parameters.

3. Youngsters in graduation and post graduation need to be made aware of the requirements of the world and allowed to choose their subjects, possible through the liberal education. This is a concept that is in its nascent stage but fast catching up.
4. Professionals who make it to the corporate ladder, should be allowed to pursue or develop their skills for few hours in a month. The corporate social responsibility is not only about the society, it also must be inclusive of its employees. A happy employee is the one to contribute in the happiness quotient of the society. The increasing graph lines that indicate the progress of a company, need to remember that it is one of the reasons of decreasing social activity and enthusiasm among the society.

All in one, one in all ! A person with ability needs his due place. Instead of newspapers and news channels blaring 'Breaking News', let there be a time for 'Happy News' where good contributions from citizens are applauded.

Impact of excessive use of social media on student's academic performance

Dr. Ashwini Kulkarni

BBA Department

The world is today celebrating the improvements in communication technology which has broadened the scope of communication through Information and Communication Technologies (ICTs). Modern Technology in communication no doubt has turned the entire world into a "Global village". But as it is, technology like two sides of a coin, bring with it both negative and positive sides. It helps people to be better informed, enlightened, and keeping abreast with world developments. Technology exposes mankind to a better way of doing things. Social networking sites include: Twitter, Yahoo Messenger, Facebook Messenger, Blackberry Messenger (BBM), Whats app messenger, Skype, Google talk, etc. These networking sites are used by most people to interact with old and new friends, physical or internet friends. The world has been changed rapidly by the evolution of technology; this has resulted into the use of technology as the best medium to explore the wide area of knowledge. The evolution of internet technology has led to its use as the best medium for communication. Whereby, two-third of the world's internet population visits social networking or blogging

sites, thus serving as a communication and connection tool. Social networking sites (SNSs) are online Communities of Internet users who want to communicate with other users about areas of mutual interest, whether from a personal, business or academic perspective. The millions of social networking sites have transformed the thought of global village into a reality whereby billions of people communicate through social networking sites. Numerous benefits have been obtained through distant communication through the use of social networking sites. Academic excellence or achievement plays an important role in an individual placement, be it in the academic institutions or job placement. Due to this, many people are concerned with the ways they can enhance their academic achievement. The emphasis on academic excellence which is also prevalent worldwide has encouraged many studies about the conditions promoting it. The role of academic achievement as one of the predictors of one's life success and also in the aspect of academic placement in schools to higher institutions as well as the level of employability in one's career is inevitable. Academic performance, which is measured by the examination results, is

one of the major goals of schools and colleges. Academic performance or achievement is the outcome of education, the extent to which a student, teacher or institution has achieved their educational goals. Academic performance is commonly measured by examinations or continuous assessment but there is no general agreement on how it is best tested or which aspects are most important, procedural knowledge such as skills or declarative knowledge such as facts. A direct relationship exists between Social media usage and the academic performance of students in universities. However the darker side within technological evolution has resulted in dilemmas such as the setback of real values of life especially among students who form the majority of users interacting through the use of social networking sites. Online social networking sites focus on building and reflecting social associations among people who share interests and/or activities. With so many social networking sites displayed on the internet, students are tempted to abandon their homework and reading times in preference for chatting online with friends. Many students are now addicted to the online rave of the moment, with Facebook, Twitter etc. Today most youths and students possess Facebook accounts. The reason most of them perform badly in school might not be far-fetched. While many minds might be quick to blame the poor quality of teachers, they might have to think even harder, if they have not heard of the Facebook. These days' students are so engrossed in the social media that they are almost 24 hours online. Even in classrooms and lecture theatres, it has been observed that some students are always busy pinging, and using their phones while lectures are on. Times that ought to be channeled towards learning, academic research and innovating have been crushed by the passion for meeting new friends online, and most

times busy discussing trivial issues. Hence most students' academics suffer setback as a result of distraction from the social media. It was observed that the use of these sites also affects students' use of English and grammar. The students are used to short forms of writing words in their chat rooms they forget and use the same in the classrooms. They use things like 4 in place of for, U in place of You, D in place of The etc; and this could affect their class assessment. Social networking sites although has been recognized as an important resource for education today, studies however shows that students use social networking sites such as Facebook for fun, to kill time, to meet existing friends or to make new ones. Although it has been put forward that students spend much time on participating in social networking activities, with many students blaming the various social networking sites for their steady decrease in grade point averages, it also shows that only few students are aware of the academic and professional networking opportunities the sites offered. Social network websites grab attention of the students and then diverts it towards non-educational and inappropriate actions including useless chatting.

There are certain benefits of social media like connecting with the experts, helps in research, Educational Tool, News Updates, Networking, Experience Global Exposure, Employment Opportunities etc. but the thing is most of the students do not use it for all these activities. To be more bright in academics students should restrict the use of social media.

A Study of Assessment and Accreditation: Basics and Benefits to Higher Educational Institutes

Teja V. Dighe

Abstract

Education is a term which we all know is conferred on every citizen of India as a constitutional right. It has played a very prominent role in shaping thousands of workforces for the development of India as well as for the other developed nations. We will first try to understand with the help of this paper the concepts – related to what is higher education and the NAAC assessment and accreditation process. Education since ages is a tool in the hands of the ones who are literate for understanding its necessity for earning or satisfying all the needs as deciphered by Maslow in his ‘Need Hierarchy Theory.’ These include satisfaction of the basic physiological, to safety, social, esteem and finally satisfaction of the self-actualization aspect. NAAC is a investigating and empowering agency which delivers quality for the higher educational institutions to flourish and prosper for the benefit of innumerable citizens who have rightto education conferred by the article of Constitution of India.

In order to visualize these two aspects the

methodology opined in this paper deals with researching upon what are the basics and benefits –of the entire NAAC process. From a detailed analysis we may get an answer to this question by convening a study of the importance of higher education in India and the impositions lay down by the agency to cater to the needs of students.

This domain of study can help us to identify how perspectives can be categorized to help the students, teachers or rather all the stakeholders who are investors as also beneficiaries in the entire arena.

Introduction :

India must transform its universities and other higher technical education institution to world class institutions for getting itself a hold in the world market where developments are an inevitable phenomena leading to progress of the nations and the citizens. India is a country where

since ages education was given importance. Education system in India is enriched with the immense contributions of sages who not only described or inculcated the basics of educating and empowering oneself but also strived to build a class who could add success, glories and wealth to the nation.

India with maximum college age-group population aspires to build a knowledge-based society that critically values the need of the hour. International collaborations and global initiatives are critical for developing academic standards and research capacities within our Universities and colleges. While there are significant milestones that the post-independent India has achieved in various sectors both in the economy and society, transformational reforms relating to higher education is an urgent need of the hour.

Objectives of Study :

1. To understand current educational scenario
2. To assess the approach of NAAC as an assessing agency
3. To analyze impact and importance of accreditation process
4. To offer useful suggestions in light of the findings

Design / Methodology / Approach – This paper is basically descriptive and analytical in nature. The data used in it is purely from secondary sources according to the need of this study.

Literature Review :

This paper explores the question, concerning the basics and benefits of NAAC in higher education. The two sections of the paper describe the merits of the entire assessment and accreditation process.

Basics and Benefits of NAAC assessment and Accreditation to Higher Educational Institutes

A world class higher education system is one that is student- or customer-centered rather than institution-centered. It comprises certified and caring institutions that have the resources required and the core mission of ensuring that students/customers acquire the knowledge/skills/abilities and dispositions that they need to achieve their individual goals and to maximize their contribution to society.

India's current system has been almost exactly the opposite of that. The emphasis has been primarily on a select group of institutions and individuals rather than embracing and addressing the needs of the whole. For addressing maximum to benefit maximum NAAC is a pillar of support for all the stakeholders so that the higher educational system raises its standard as per the needs of the society.

The National Assessment and Accreditation Council (NAAC) is an autonomous institution of the University Grants Commission (UGC) with its prime agenda and focus to assess and accredit institutions of higher learning in the country. The UGC have mandated that all colleges should complete the process of assessment and accreditation. The NAAC has been established in the year 1994 is headquartered at Bangalore. State governments have acknowledged and supported this tool for transforming the educational institutions from earning aspect to learning aspect. Quality Sustenance and Quality Enhancement are the two key words reverberating in most institutions of higher learning in the country today. Prime focus is on benefitting students who invest their time and money for the development of nation as a whole.

Understanding the importance of Accreditation:

Accreditation is a formal recognition of an educational program by an external body on the basis of an assessment of quality. It is a process of quality assurance and improvement, whereby a programme in an institution is critically appraised to verify that the institution or the continues to meet and exceed the norms and standards prescribed by the appropriate designated agency. Accreditation dose not seek to replace the system of award of degree and diplomas by the universities/ autonomous institutions. But, accreditation provides quality assurance that the academic institution and objectives are honestly pursued, and effectively achieved by the resources available. And that the institution has demonstrated capabilities of ensuring effectiveness of the educational programmes over the validity period of accreditation.

It has many aspects to be pondered upon for understanding the importance which can be stated as follows:

1. Verification of institutions meeting the required standards.
2. Providing financial aid to students every year the government needs to be aware that the funding that they create will benefit the society or the real stakeholders involved.
3. Involving faculty and staff in evaluation and planning.
4. The primary purpose of accreditation is to ensure the basic role of providing education. Methods for measuring the quality of education received are not widely agreed upon and the definition of "quality education" varies.

5. Quantification of strengths and weaknesses and providing directions and opportunities for future growth.
6. It provides a quality seal or label that differentiates the institutions from its peers at the national level. This leads to a widespread recognition and greater appreciation of the brand name of Institutions and motivates the Institutions to strive for more.
7. It helps the accredited institutions for quality sustenance and quality enhancement activities by setting up of Internal Quality Assurance Cell (IQAC) in each of the Colleges and Universities.
8. Encouraging self-evaluation and accountability in higher education.
9. Creating goals for self-improvement of weaker programs and stimulating a general raising of standards among educational institutions.

Benefits of Accreditation are:

1. Institution understands its strengths, weaknesses, and opportunities through an informed review process.
2. To realize their academic objectives.
3. Identification of internal areas of planning and resource allocation.
4. Collegiality on the campus and gives institutions a new sense of direction and identity.
5. Ensure heightened level of clarity and focuses on institutional functioning towards quality enhancement.
6. Funding agencies look for objective data for performance funding.
7. Institutions to initiate innovative and modern

methods of pedagogy.

8. Ensure enhancement and coordination among various activities of the institution and institutionalize all good practices.
9. New sense of direction and identity for institutions.
10. The society look for reliable information on quality education offered.
11. Employers look for reliable information on the quality of education offered to the prospective recruits.
12. Intra and inter-institutional interactions. And, providing a sound basis for decision-making to improve institutional functioning.

Benefits to Institutions :

Accreditation has an international focus. National Board of Accreditation judges the characteristics of an Institution and its programmes against a set of criteria fixed for benefitting all stakeholders. Its key objective is to contribute to the significant improvement of the Institutions involved in the accreditation process. Accreditation process quantifies the strengths, weaknesses in the processes adopted by the Institution and provides directions and opportunities for future growth. It brings about a quality improvement scheme which imprints the importance of systematizing the institutions for future growth of the nation. This leads to a widespread recognition and greater appreciation of the brand name of Institutions and motivates the Institutions to strive for more.

Benefits to Employers :

Accreditation assures and signifies that the students passing out have acquired competencies and skills required in today's world based on well-established technical inputs.

Benefits to Students :

Students studying in NBA accredited Institutions can be assured that they will receive education which is a balance between high academic quality and professional relevance and that the needs of the corporate world are well integrated into programmes, activities and processes. It enhances the overall employability of graduates. It signifies that he has entered the portals of an Institution, which has the essential and desirable features of quality professional education.

Benefits to Parents :

It signifies the positive framework and mindset in parents minds that their ward goes through a teaching-learning environment as per accepted good practices.

Benefits to Alumni :

It reassures alumni that alumni are products of an institute with a higher standing in terms of learning and systematic best and innovative practices and measures. Alumni and institutions both can benefit each other hand in hand since each alumni contributes as gratitude for the institution which strives for them to have a foothold in the world.

Benefits to Country :

Accreditation assures and helps in gaining confidence and trust of stakeholders in giving a strong message that as a country, our technical as well as intellectual manpower is of international standards and can be very useful in enhancing the global mobility for our country. It contributes economic development of the country by producing high quality human resource. Human resource which is trained, well – equipped with all the related knowledge for contributing productivity in organisations thus leading to a developed nation. Role in human resource

development and capacity building of individuals, to cater to the needs of the economy, society and the country as a whole, thereby contributing to the development of the nation as a whole.

Findings and Results :

We found that reformation is the need of the hour. India must lead its way to greater growth; it must transform its universities and other higher technical education institution to world class institutions leading to competent and skilled workforce for the nation. NAAC strives to lay emphasis to change the mode from a 'regulator' to a 'promoter and facilitator'.

Conclusion :

Higher education is a necessity, something which is the most important subject of study. Development of individuals with new developments in higher education require a major transformation in the accreditation process toward a more public-private system of governance based on national if not global standards. The overriding public interest for the 21st century is promoting accountability for moving to world-class quality and performance of the aspiring candidates for country's future growth. In order to survive in the competitive world of globalization, all higher education institutions should pay special attention to quality in higher education. NAAC, NBA & COA has taken a number of steps to promote the quality of Indian higher education.

NAAC has taken a number of steps to promote the quality of Indian higher education. NAAC's assessment has made great attempts in bringing about quality culture among the Higher Educational Institutions of India. Quality is the major life giving force in the Institutions of higher education. Without quality higher education is of no use to anyone. In the recent

past there has been a mushroom growth of higher educational institutions with sub-standard quality of education. We find educational institutions in almost every lane of our country fulfilling the required norms to I would say start it's business of educating today's youth who will be tomorrow's workforce without possessing any of the required skills and competencies. But after NAAC's inception, there has been a massive change in the total scenario of higher education. NAAC's assessment has brought about quality development in the colleges. There has been major improvement in the academic and non-academic activities of the college. There is must be a broad based academic development plan which includes students, professors, researchers and teachers for all kinds of consultations.

Impact of GST on Indian Economy

Ms. Renuka Talwar

Goods and Service Tax (GST) is a single tax on the supply on Goods and Service right from manufacturer to the consumer. GST has launched in India on 1st July, 2017. GST is the biggest tax reform in independent India. It's a great step by team India towards transformation and transparency. GST is called world most complex reform, where 7.5 million businesses can register, can make payment and file return on a GST portal. It is design to support the economic growth of the country. More than 150 countries have implemented GST so far. There is certain positive and negative Impact of GST on Indian Economy.

In Long run the positive Impact of GST can be seen. GST has removed the Cascading effect of tax earlier tax on tax was one of the major reasons for the hike in rate of tax in GST system, there is no cascading effect of tax because Credit of Input tax paid at each stage of value addition. In GST, All work of taxation is available online this will increase the transparency of all activities as a result tax evasion and corruption can be reduced. Since with the Elimination of Various Types of Indirect taxes, the assessee is required to comply with only one Law as a result there will be lot of Cost Savings in compliance in terms

of time, money and resources. GST system has brought larger population in tax Net means people who were not paying tax now they are liable to pay tax. This will not only increase the revenue collections of the government, but would also help in bringing down the tax rates to a reasonable level and it will also decline Inflation as a result cost will reduce and production will increase. In GST, Cost of collection of tax has reduced as GST is a single indirect tax. Reduction in overall tax burden, Input tax Credit & the improvement in Supply chain will help to lower the price of goods and services. Interstate supply has become easier as instead of multiple taxes only one tax is paid and tax rate is uniform across the country. So, the movement of commodities between states will be easier and hassle free. Import will be treated as an Interstate supply and only IGST will be levied. Exports and Supplies to SEZ are zero rated. GST will help in Improving India's ranking in ease of doing business as a result foreign investor will bring more and more money to India which will Contribute to Make in India. A business whose turnover in financial year is less than Rs.20 lakh (Rs.10 lakh for North east state) is exempted from paying GST. After introduction of GST State will get full compensation for revenue loss, if any for the first five years. Large portions of consumer

expense of lower income families are spent on necessary goods. under GST System, the tax rate on necessary goods are either exempted or very less as result price will reduce and demand and employment will increase. GST will increase revenue of government as it has widen the tax base ,online transaction will provide accurate data and will help government to collect accurate Income tax. Tax evasion and corruption will also reduce.In GST, Full and instant input credit is allowed for tax paid on Capital goods earlier which was not available as a result purchase of Capital goods will increase which will contribute to overall economic growth.According to the finance minister ArunJaity, GDP is expected to be increased by 2%..Enhancing GDP will attract more Foreign investments and this is in turn would take India to greater heights and surely stock markets will make new highs.

In Short run there are certain Negative Impact of GST Under GST system, the operating cost has increased because of some major causes such as Computerization (especially in small organization),Installation of new software or updating of existing software, Hiring of professionals (Lawyers, CA etc),Training of employees etc. Earlier Tax return is used to be filed only once in year but after GST it is to be filed monthly. As the return is filed online but many times GSTN website is either slow or not working because of which it is difficult to file the return on time. If organization failed to file return or doesn't file return on time then it will be liable to pay fine. Businessmen who have paid GST are not getting input Credit Tax immediately as a result there capital has been blocked up specially the organization which has paid 28% tax. Retailer or Mulite product firm has to file return

separately for each kind of product therefore for such organization filing return is difficult task. In case of some goods and services, GST rates are higher than previous rate hence the Price of some goods and services are increased such as readymade garments, mobile phone, jewllery etc. Benefits of GST will be indeed slow to come, probably by 2019 but It will be game changing reform for the Indian economy because of its various features such as Elimination of cascading effect, Uniformity, Transparency etc.Even if there are certain complications in short run but still in long run there will be positive impact of GST on Indian Economy. GST is implemented in more than 160 countries and they all are experiencing its benefits.GST is a Short run pain for long run gain. Therefore there should not be any kind of fear in the mind for GST.

A Study of Problems, challenges and opportunities faced by businesses due to rising use of Paytm with selected businesses at F.C. College Road area.”

Introduction

Paytm is a unique solution to go cashless. Paytm is a huge step towards digital India.

Paytm was founded in August 2010, with an initial of \$2 Million, by its founder Vijay Shekhar Sharma in Noida. It started off as a prepaid mobile and DTH recharge platform, and later added data card, post-paid mobile and landline bill payments in 2013.

By 2018, it started allowing merchants to accept Paytm, UPI and Card payments directly into their bank accounts at 0% charge.

Paytm operates only in India (Being the founder Country) and in Canada. The different Products offered by Paytm are Paytm Mall, Paytm Payment Bank, Paytm Money and Paytm Gamepind.

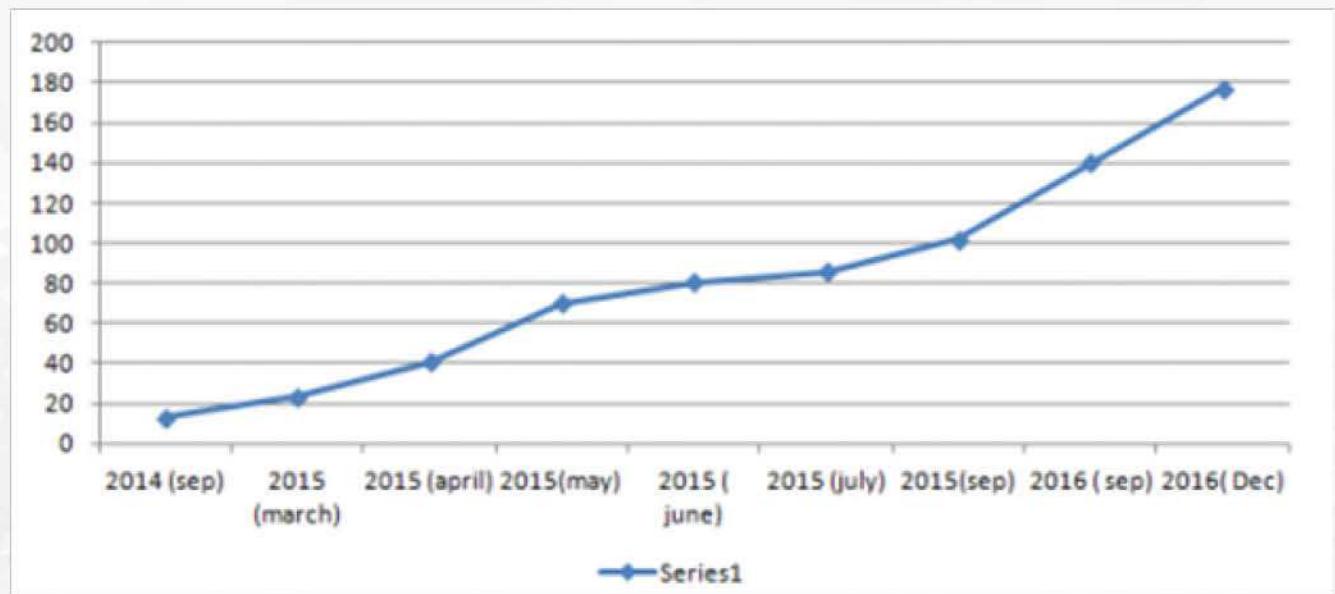

Today Paytm Serves s with different facilities including Money Transfer, Ticket Bookings, Online shopping, Bank facilities. Paytm also gives Users different types of rewards, Discounts, Offers, etc.

Paytm is a privately operated business with its revenue of approximately 814Crore (Financial Year 2017). As per the Company, over 7 million Merchants across, Use the QR code to accept payment directly into their paytm wallets or Bank account. The Company also uses Advertisement or paid promotional contact to generate income.

The Indian M-Wallet industry has been growing, especially after demonetisation. The government of India and the regulator Reserve Bank of India are taking steps to facilitate financial inclusion in India especially in rural areas. M-Wallet is one of the most popular methods of digital payments. According to a study, "Indian M-Wallet market: forecast 2022," conducted by ASSOCHAM jointly with research firm RNCOS, the Indian M-Wallet market in FY2016 was around Rs.1.54 bn or Rs.154 Cr, and it is expected to grow at a compounded annual growth rate (CAGR) of 141% during the period 2015-16 to 2021-22 and reach till Rs.300 bn or Rs.30,000 Cr by the end of FY2022. It is also anticipated that the market value of M-Wallet transaction in India will grow at a CAGR of 154% during the period FY2016 to FY2022, and reach Rs.55 Tn or Rs.55 lakh Cr from Rs.206 bn or Rs.20, 600 Cr. That makes M-Wallet transactions one of the fastest growing paperless modes of payment and banking, and it is expected that the majority of transactions will go paperless in the next 10 years. Besides, in FY2016, the total M-Wallet transaction was 0.6 billion; and it is expected to reach 120 billion by FY2022 growing at a CAGR of 142%.

As per the Company, over 7 million Merchants across, Use the QR code to accept payment directly into their paytm wallets or Bank account. The Company also uses Advertisement or paid promotional contact to generate income.

Figure :1 Indicates the Number of users of Paytm

According to the diagram given above it is seen that there is a rapid growth in the usage of paytm from 2014 to 2016. Demonetisation has helped paytm grow and make transaction easier. Growth is still coming, according tour source said Paytm processed \$1 billion in GMV in India in July — but the company is looking to expand its appeal and engagement with users by moving into messaging and content. The ultimate goal, TechCrunch understands, is to reach

Objectives:

1. To study the problems faced by small businesses due to rising use of pay tm
2. To understand the challenges associated to it and know the changes around the technology
3. To know the opportunity which may give raise in businesses in their current sale
4. To know, among which type of business uses Paytm .
5. To ascertain these issues and create small solutions to the small businesses so that they can accelerate their business

Literature Review

Paytm's employees are now being investigated by CBI sleuths for defrauding the company itself. It has been reported that based on complaints from Paytm, two cases of fraud amounting to nearly Rs 10 lakh have been registered against 22 private individuals. The police suspect that insiders facilitated the fraud. "What surely influence the brand value of Paytm are the technical glitches and the insider fraud that has come to light. In order to

Consider Companies have to keep their technological up to date. They have a Fear of hacking. Big companies sometimes fear to put the money in one basket. So they feel they are in need of multiple e-wallets. Because Companies can't place all the money in one account for safety issues. There is a possibility of "no transparency" for a business. E-wallets are accessed by mobile phones and if it is lost, there is possibility of that being misused.

Not all e-wallets applications are made for all operating systems on mobiles. As cash and card payment process won't ever fade in time, companies find it extremely risky to place their account with e-wallets as even though they are progressing rapidly, there is a chance it may end anytime. Internet connections also matters on a huge basis. Big companies cannot lose transactions based on low network connectivity. Big companies use international transactions and every country has different services. Companies sometimes give order to different merchants for their products. E-wallets are used on smartphones, tablets, and laptops; but if due to internet issue or battery shortage all technical errors, companies cannot risk their finance on e-wallets. Digital wallets are not as safe as debit or credit cards because most of the banks provide the 3D secure password. If you try to use the e-wallets with an online order from whose blank fields are in different order from those in your e-wallets. This would force you to risk all the fees and enter your personal information manually defeating the purpose of the e-wallet.

Research Methodology

The data analysis for this study was carried out using the quantitative approach. Physical as well as online questionnaires were created and distributed using manually and through Google forms respectively.

Research area - The researcher covers FC Road, Pune with any random business.

Sample size - 50 people are randomly been selected.

Sampling Techniques : Convenient Sampling

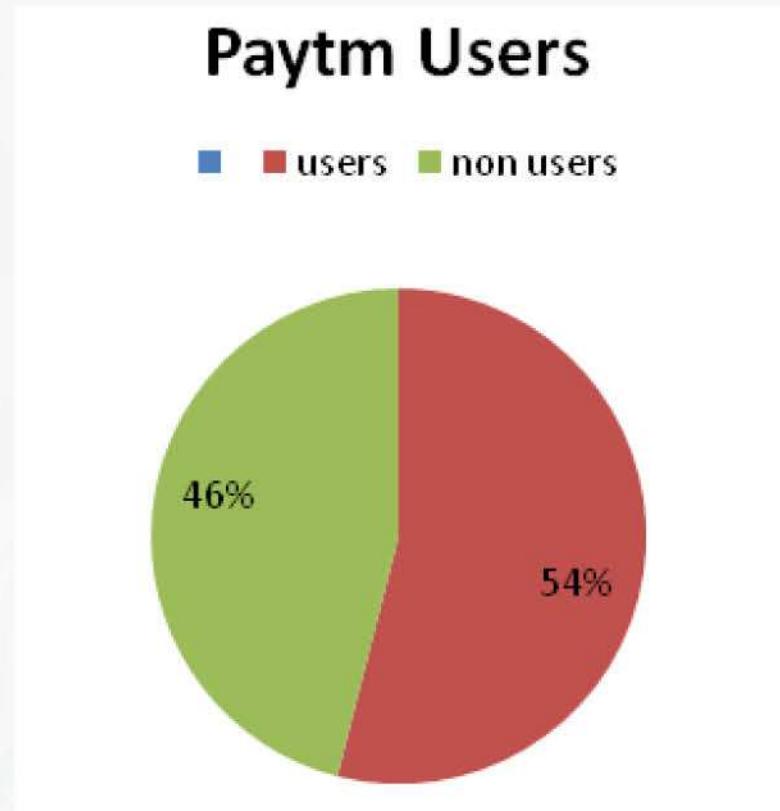

Primary sources - Data was collected from males and females of mixed business. Age was not considered as a factor.

Secondary sources - Journal of Information Technology, ICFAI, Internet.

Results and discussions

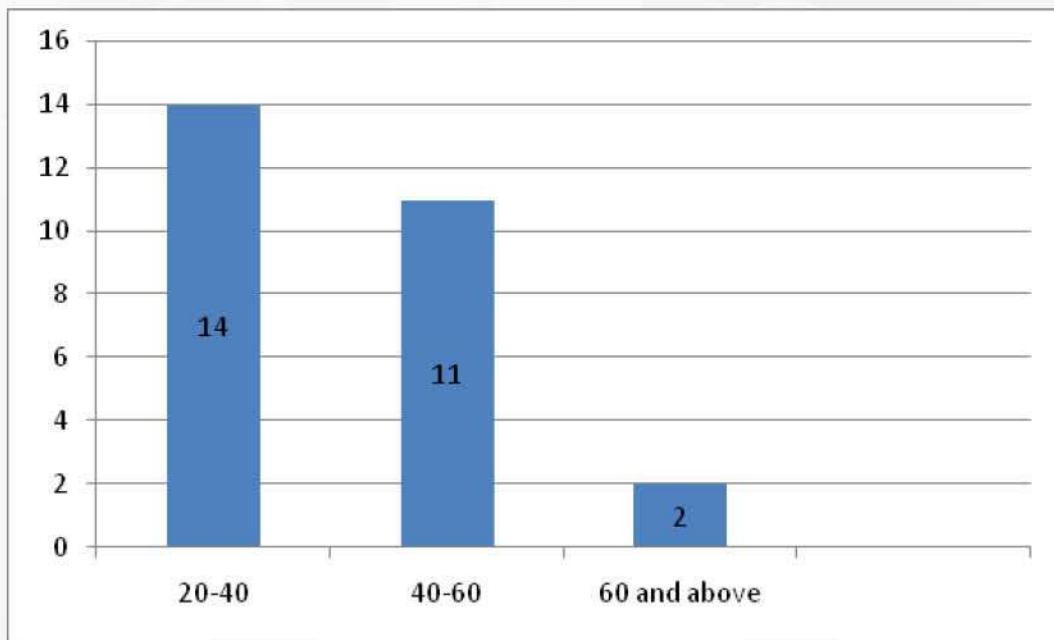

According to the survey conducted among 50 people, more than half of them have been found to use Paytm as an e-payment option. 27 were using Paytm and 23 people were not, which turned out to be 54% and 46% respectively.

Fig 2 : Indicates the percentage of Paytm users

According to the survey we found that, 28 people were comfortable using Paytm and 22 were not, because of the problems they face while using Paytm.

According to the study, the age group between 20 to 40 have been found to use paytm the most, followed by the age group of 40 to 60. While the people above the age of 60 shows more resistance to use paytm in their business.

Fig 3: Indicates the age group of Paytm users

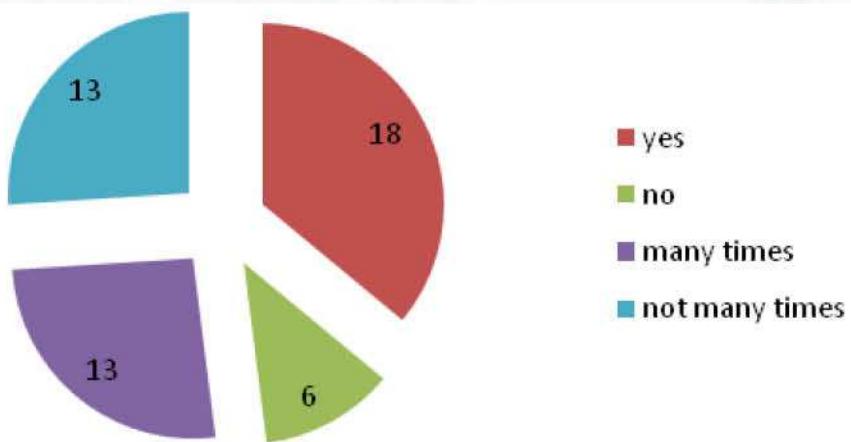

Among 50 people that have been randomly surveyed , 28 people have observed that they have more demand by using Paytm as an payment options, and the other hand 22 people denied for getting more demand, their business was not affected by not using Paytm.

When being asked if their business affected when the Paytm is under maintenance or downtime, 15 people said “yes”, 17 said that it “does not affect their business” and 18 said it “partially does”.

Among the non-users of Paytm, 20 people have said “their business does not affect” after not using Paytm whereas 7 people agreed of “affecting their business” for not using Paytm.

We even asked them if people have denied to purchase from their store only because they were not using Paytm, 18 people said “yes”, 6 people said “no”, 13 people said “many times”

Whereas 13 people said “not many times”, which results in 36.66%, 10%, 26.6%, 26.6% respectively.

fig 4: Indicates the percentage of affect on business due to not using Paytm.

And the reason for not using paytm according to the non users were, 4 people said they “don’t know how to use paytm”, 8 people have “lack of trust on online method”, 6 people said they “cannot take risk on big payment” and 3 people have “security issues”

Findings

Problems: It has found ,from the survey conducted with the businessmen that major problems while using Paytm is that there should always be an internet facility on phone, also difficulty in operating Paytm also , they should have smart phone and the concern of whether the money is being credited or not.

After demonetisation and rising cashless transactions, businesses are being affected due to not using Paytm. Many a times customers have refused to buy from a particular store just because they aren't using Paytm.

Challenges: The challenges regarded Paytm can be studied as customer tendency, internet connection, privacy and security. There are many fake applications which can be used for fake transactions. Hence, it is a major concern and challenge for businesses.

Moreover, many traditional businessmen find Paytm difficult to operate and show resistance to its adoption. Also, they show lack of trust towards online methods and cannot trust big payments on it. Security is also a big concern for them.

Opportunities: Opportunities can also be seen in business due to rising use of Paytm. This can be studied as rising sales, alternative payment methods, etc.

Many businessmen believe that they might use Paytm if certain issues are fixed and demands being fulfilled.

Also more customers can be attracted and served if a business is using Paytm. Hence, that challenge can be converted as an opportunity.

Suggestions

Paytm should take an initiative to offer offline transaction facility, so as to avoid internet problems. Also, paytm should start smart phone free transactions wherein many non-smart phone users can be tapped. The taxation on money transfer from wallet to bank should be reduced as that is the main challenging issue faced by users. Paytm should take care about the privacy and security and give assurance to people who are afraid about the policies. They should also cater to the need of lowering down of frauds.

Conclusion

Therefore, it can be concluded as paytm has emerged as an alternative payment option for cash after demonetisation. It has helped many businesses to expand and increased the sales.

Although there are several problems which keep many people away from using paytm. Due to this, paytm cannot be trusted and is not used in big businesses. These problems can be resolved. As paytm has given many services like shopping, ticket booking and recharge facilities, the number of paytm users is increasing day by day irrespective of the problems and challenges associated with it. Many people use paytm for discounts and their convenience. Also the track of transactions can be kept in paytm passbook.

Joy of Learning through Case Studies : Application of Emotional Intelligence

Dr. M. D. Lawrence
Principal, Marathwada Mitra Mandal's College of Commerce

Case studies in management education and training is a very vibrant, dynamic teaching pedagogy and is very popular in all professional management institutes. The origin of the use of case studies began in Harvard University. Case study method is widely used for solving management problems. The dynamics of case study method involves group discussion, experiential learning and participative based activity to study the case in hand and its problems; holistically. Thus, a case is a real chunk of reality which is brought into the classroom for analysis.

Most of the cases deal with a rational approach based on logic, science and professionalism but case studies can also be best analyzed, reviewed and solved through the use of emotional intelligence for it has been largely observed that most of the time, the analysis of the case is generally done with a very logical, rational and professional approach and attitude which many a times has proved that the solutions are not truly effective. Thus, the use of emotional intelligence in case studies can prove very beneficial and can lead to solving problems very effectively.

Concept and Meaning of Emotional Intelligence :
The concept of emotional intelligence has become so popular in the management literature that it has become imperative to understand and leverage it for the sake of enhancing the capacity of human capital in organizations. As the pace of change is increasing and world of work is making ever greater demands on a person's cognitive, emotional and physical resources, this particular set of abilities are becoming increasingly important. Since majority of the concerns in organization involve people in different roles, emotional intelligence must become a determining factor for their effective management. It has also been found that ultimately it is the emotional and personal competencies that we need to identify and measure if we want to be able to predict performance at workplace resulting in its effectiveness, thereby enhancing the worth of the human capital. In this scenario the competencies possessed by the people will have a bearing on the extent to which they can actualize their emotional intelligence.

Emotional intelligence (EI), also known as Emotional quotient (EQ) and Emotional Intelligence

Emotional intelligence (EI), also known as Emotional Quotient (EQ) and Emotional Intelligence Quotient (EIQ), is the capability of individuals to recognize their own emotions and those of others, discern between different feelings and label them appropriately, use emotional information to guide thinking and behavior, and manage and / or adjust emotions to adapt to environments or achieve one's goal(s).

Studies have shown that people with high EI have greater mental health, job performance, and leadership skills although no causal relationships have been shown and such findings are likely to be attributable to general intelligence and specific personality traits rather than emotional intelligence as a construct. For example, Goleman indicated that EI accounted for 67% of the abilities deemed necessary for superior performance in leaders, and mattered twice as much as technical expertise of IQ. Other research finds that the effect of EI on leadership and managerial performance is nonsignificant when ability and personality are controlled for, and that general intelligence correlates very closely with leadership. Specifications/ metrics of EI and methods of developing it have become more widely coveted in the past decade. In addition, studies have begun to provide evidence to help characterize the neural mechanisms of emotional intelligence.

In this article, ten select cases covering and evolving around the ambit and scope of emotionality, emotional intelligence are provided for self analysis, review and for creating awareness of using emotional intelligence to

sensitive humane situations, events and people.

Case - 1 : Where There is a Will, There is a Way!

An old man lived alone in his home. He wanted to dig his potato garden, but it was a very hard work. His only son, who would have helped him, was in prison. The old man wrote a letter to his son and told his situation. "Dear son, I am feeling pretty bad because it looks like I won't be able to plant my potato garden this year. I hate this, because your mother always loved planting on time. I am just getting too old to be digging us a garden plot. If you were here, all my troubles would be over. I know you would dig the plot for me, if you weren't in prison... your Father."

Shortly, the old man received the reply from his son: "for heaven's sake, dad, don't dig up the garden! That's where I buried the Guns!" The next morning, a dozen police men shooed up and dug up the entire garden. The confused old man, wrote another note to his son telling him what had happened, and asked him what to do next.

His son's reply was : "go ahead and plant your potatoes, Dad, it's the best I could do for you from here."

Case - 2 : People have Reasons for Being Abnormal :

A twenty four year old boy seeing out from the train's window shouted... "Dad, look the trees are going behind!" Dad smiled and a young couple sitting nearby, looked at the twenty four year old's childish behaviour with pity. Suddenly he again exclaimed... "Dad, look the clouds are running with us!" The couple couldn't resist and said to the old man...

"Why don't you take your son to a good doctor?"

the old man smiled and said... "I did and we are just coming from the hospital, my son was blind from birth. He just got his eyes today." Every single person on the planet has a story. Don't judge people before you truly know them. The truth might surprise you.

Case - 3 : Emotional Leadership at its Best!

During a hectic project, one of the seventy scientists working on its asked Late Dr. Kalam if he could leave him at 5.30 pm that evening as he had promised to take his kids to an exhibition. Late Dr. Kalam gave him permission. However, the scientist got busy with work only to realize that it was 8.30 p.m. When he looked for his boss, he wasn't there. Guilty for having disappointed his kids, he went back home only to find that his kids weren't there. When he asked his wife where they were, she replied, "You don't know? Your manager came here at 5.15 pm and took the children to the exhibition.

Case - 4 : The Chair alone does not Matter!

Indian Institute of Technology at Varanasi in 2013 on its convocation day, Dr. APJ Kalam (Chief Guest) refused to sit on a chair that was designated to him; because the chair was larger in size than the other chairs.

Noticing that out of the five chairs, the centre chair, which was for the former president, was bigger in size, he offered the chair to the Vice Chancellor (VC) of the college. The VC did not accept this and immediately another chair was arranged for him. Having, been the former President of India and a renowned individual as well as globally known scientist the special chair was offered to him, but Dr. APJ Kalam refused to sit on that.

Entrepreneurs in similar way may achieve great

heights and may be offered high positions but, it is their choice whether or not to accept the supreme position offered. People known for their qualities and knowledge do not require to attain a high position and proclaim supremacy. Be known for your qualities rather than for the position that you acquire.

Case - 5 : The Need for Emotional Understanding!

A farmer had some puppies he needed to sell. He painted a sign advertising the pups and set about nailing it to post on the edge of his yard. "Mister", a little boy who noticed the advertisement said, "I want to buy one of your puppies. "Well", said the farmer, "these puppies come from fine parents and cost a good deal of money."

"I've got thirty-nine cents. Is that enough to take a look." "Sure", said the farmer. And with that he let out whistle, Here, Dolly! He called. Out from the doghouse and down the ramp ran Dolly followed by four little balls of fur. As the dogs made their way to the fence, the little boy noticed another little ball appearing slowly; this one noticeably smaller. Then in a somewhat awkward manner the little pup began hobbling towards the others, doing its best to catch up...

"I want that one", the little boy said, pointing to the runt. The farmer knelt down at the boy's side and said, "Son, he will never be able to run and play with you like these other dogs would." With that the little boy stepped back from the fence reached down, and began rolling up one leg of his trousers. In doing so he revealed a steel brace running down both sides of his leg attaching itself to a specially made shoe.

Looking back up at the farmer, he said, "You see sir, I don't run too well myself, and he will need

someone who understands."

Case - 6 : Miraculous Reunion in the Arms of Love!

A few years ago, a set of twins were born. They were kept in separate incubators as usual, but one of them was not expected to live. One of the nurses, going against hospital policy, placed both babies in the same incubator. As soon as they were reunited, the healthier twin threw her arm over her weaker sister in an endearing embrace. What happened? The little sisters' temperature rose to normal and her heart rate stabilized, and she survived!

Both babies thrived and went home together. At home they continued to share a crib and were always snuggling closely. Today they are happy preschoolers. Did the hospital change its policy? You bet it did! After seeing the effect of putting the two girls together, they now put sibling together. How about that! You can never underestimate the value of a hug! Let's not forget to embrace the ones we love. An emotional touch can make a world of difference!

Case study - 7 : Emotional Treasure : Nature's Bounty!

Olavo Bilac (1865 - 1918) was a Brazilian poet, journalist and translator. He was famous for writing the lyrics of the Brazilian Flag national anthem. Once, the owner of a small business, a friend of Bilac, met him on the street and asked him, "Mr. Bilac, I need to sell my small farm... the one you know so well. Could you please write an announcement for me for the paper?

Bilac Wrote : "For sale : A beautiful property, where birds sing a dawn in an extensive woodland, bisected by the brilliant and sparkling waters of a large stream. The house is bathed by the rising

sun. It offers tranquil shade in the evenings on the verandah."

Sometime later, the poet met his friend and asked whether he had sold the property. To which he replied : "I've changed my mind when I read what you had written. I realized the treasure that was mine."

Case - 8 : Anything More than Need is Greed!

A beggar found a leather purse that someone had dropped in the marketplace. Opening it, he discovered that it contained hundred pieces of gold. Then he heard a merchant shout, "A reward, to the one who finds my leather purse!" Being an honest man, the beggar came forward and handed the purse to the merchant saying. "Here is your purse. May I have the reward now?"

"Reward?" scoffed the merchant, greedily counting his gold. "Why, the dropped had two hundred piece of gold in it. You've already stolen more than the rewards! Go away or I'll tell the police." "I am honest man," said the beggar defiantly. "let us take this matter to the court."

In the court the judge patiently listened to both sides of the story and said, "I believe you both. Justice is possible! Merchant, you stated the purse you lost contained two hundred pieces of gold. Well, that's a considerable cost. But, the purse this beggar found had only hundred pieces of gold. Therefore, it could not be the one you lost." And, with that, the judge gave the purse and all the gold to the beggar.

Case - 9 : Rope Versus Hope!

A group of botanists was exploring almost inaccessible regions in search of new species of flowers. One day they spied, through their binoculars, a flower of great rarity and beauty. It

lay in deep ravine, with perpendicular cliffs on both sides. To reach it, someone would have to be lowered over the sheer precipice by means of a rope, and it was certainly a very dangerous undertaking.

Approaching a young lad nearby, who was watching them with great curiosity, they said, "We'll give you five thousand rupees if you'll let us lower you down below to obtain that beautiful rare flower for us." The young lad looked way down into the ravine and replied, "Just a minute; I'll be back." When he returned he was accompanied by an older man. Approaching one of the botanists, he said, "I'll go over the cliff and get that flower for you if this man holds the rope. He's my father."

Case Study - 10 : A Lesson for Every Son and a Hope for Every Father!

A son took his old father to a restaurant for an evening dinner. His father, being very old and weak, while eating, dropped food on his shirt and pants. The mess that he made disgusted the other diners in the restaurant while his son remained calm.

After they finished eating, the son, who was not embarrassed at all, quietly took him to the washroom wiped off the food particles, removed the stains, combed his hair and fitted his glasses firmly, when they came out, the entire restaurant was watching them in dead silence, not able to grasp how someone could embarrass themselves publicly like that.

The son settled the bill and started to leave the eatery with his father.

At that time, an old man amongst the diners called out to the son and asked him, "Don't you think you left something behind?" The son replied,

"No sir, I haven't." The old man retorted, "Yes, you have left a lesson for every son and hope for every father." The restaurant went silent.

Conclusion :

In the above ten case studies, it is found that there is an association between emotional intelligence and the case study as a teaching pedagogy. The case studies demonstrate that rational thinking does not always matter in exceptional situations. The human emotional intelligence overcomes a few hindrances in the most effective way by the use of emotions; which truly defines the existence of humans.

The case study pedagogy or methodology whenever used with emotional intelligence is best suited as a teaching methodology to be used by teachers; especially while dealing with adolescence, teenagers and young boys and girls who are craving not for rational grooming but are very much hungry for emotional care, empathy, understanding and emotional recognition.

Thus, emotional intelligence, seems to provide all the empathy and emotional inputs for the learners and not only do they understand the impact and implications but with the influence of emotional intelligence they are more certain to be calm, cool, collected and become emotionally mature and strong.

अंधश्रद्धा निमूर्लन एक आव्हान...

दिपाली गोसावी
१२ वी

अंधश्रद्धा दूर करणे होते एक स्वप्न...
दाभोळकरांनी केले त्यासाठी प्रयत्न...
जादू-टोणा, भूत बाबा आणतात समोर...
परंतु खरं तर हेच असतात समाजाचे मोठे चोर...

डॉ. नरेंद्र दाभोळकर यांनी श्रद्धा-अंधश्रद्धा यातील फरक समाजाला पटवून दिला. श्रद्धा ही एक चांगली मानवी भावना आहे. आपली एखाद्यावर श्रद्धा म्हणजेच विश्वास, प्रेम, निष्ठा असते. आपण देवावर श्रद्धा ठेवतो. देव दगडात न मानता तो माणसांत मानने म्हणजे श्रद्धा. परंतु देव हा फक्त दगडात आहे असे समजून त्याला पुजणे म्हणजे अंधश्रद्धा.

आजही आपल्या समाजात अंधश्रद्धेचा खूप मोठा पगडा आहे. केसांत जट होते तेव्हा त्या मुलीला देवदासीत सामील केले जाते. केसात जट होते ती केसांची नीगा न राखल्यामुळे हे अंधश्रद्धा निमूर्लन समितीच्या कार्यकर्त्यांनी अनेक शहरात व गावांत जाऊन समजावून सांगितले आहे. तरीही लोक अंधश्रद्धा सोडायला तयार नाहीत.

अंधश्रद्धा हा मानवी जीवनाला मिळालेला शाप आहे. अंधश्रद्धाळू माणूस आपली विचार करण्याची शक्ती हरवून बसलेला असतो. श्रद्धा हा मानवी जीवनाचा अमूल्य ठेवा आहे. आई-वडील, गुरुंवरील श्रद्धा ही अभिमानास्पद गोष्ट आहे. जेव्हा श्रद्धेचा अतिरेक होतो तेव्हा ती अंधश्रद्धा बनते. आज अनेक ठिकाणी बाबा, बुवा, महंत यांवर विश्वास ठेवून तरुण-तरुणीच्या दुःखद शोकांतिकेची वार्ता कानी पडते. यावरुन हे कळते की, आपला तथाकथित प्रगत समाज अंधश्रद्धेच्या बाबतीत अंधारात चाचपडत आहे. आजच्या विज्ञानाच्या जगात ही अंधश्रद्धाळू मंडळी चमत्कारांवर

विश्वासच कसा ठेवतात, कळत नाही.

ग्रह, तारे, ग्रहण याची सखोल माहिती विज्ञानाने आपल्याला पुरवली आहे. ग्रहणातील स्थित्यंतरे आपण दूरदर्शनवर पाहतो. तरीही आज लोक ग्रहणाबाबत अनेक अंधश्रद्धा जोपासतात. अंधश्रद्धा ही अशिक्षित किंवा कमी शिक्षित लोकांत असते असे काही नाही परंतु आपल्याला उच्चशिक्षित व विज्ञाननिष्ठ म्हणवणारे सुद्धा अंधश्रद्धेला कवटाळून बसलेले असतात. म्हणून तर आधुनिक तंत्रज्ञानाच्या सहाय्याने बनवलेली नौका जलतरण करण्यापूर्वी नारळ वाढवला जातो. निवडणुकीचा अर्ज करण्यासाठी किंवा नवीन वित्रपटांच्या आरंभासाठी शुभमुहूर्त पाहण्यात येतो.

आंधब्या श्रद्धेला सोडावे...

सर्वप्रथम मानवतेच्या मंदिराला पूजावे...

तुम्ही-आम्ही सर्वांनी अंधश्रद्धेला दूर करावे...

भुकेल्याला न पाजता दूध पिंडीवर का ओतावे ?...

आपला समाज हा अंधश्रद्धेच्या आहारी गेला आहे. समाजाला अंधश्रद्धेच्या मुळांनी जोखडलेले आहे. अंधश्रद्धेची कीड काढून टाकणे खूप गरजेचे आहे. त्यासाठी समाजप्रबोधनाची नितांत गरज आहे. अंधश्रद्धा निमूर्लन समितीच्या कार्याला जाणून त्यात सहभागी होणे आजची गरज आहे. डॉ. नरेंद्र दाभोळकरांनी स्वतःच्या प्राणांची आहुती देऊन आपल्याला अंधश्रद्धेपासून दूर नेण्याचा मार्ग दाखवला आहे. आपण सर्वांनी महाराष्ट्रातून अंधश्रद्धा दूर करून त्यांना श्रद्धांजली दिली पाहिजे. आशानेच अंधश्रद्धा निमूर्लनाचे आव्हान पूर्ण होईल...

तुमचं बोलणं कोणी ऐकतय का? ! तुमचा डेटा सुरक्षित आहे का? ! हे प्रश्न पडण्याचे कारण की, केंद्र सरकारच्या गृहखात्याने इनफॉरमेशन टेक्नोलॉजी कायद्याअंतर्गत अधिसूचना काढली आहे. या अधिसूचनेनुसार प्रमुख दहा संस्थांकडे कोणत्याही कॉम्प्युटर, मोबाईलच्या डेटावर लक्ष ठेवण्याचे विशेष अधिकार दिले आहेत. या अधिसूचनेमुळे कोणी तरी आपल्यावर नेहमी लक्ष ठेऊन आहे का, आपला डेटा सुरक्षित नसून तो कोणीही, कधीही बघू शकतात का अशी भीती सर्वसामान्य जनतेमध्ये निर्माण झाली आहे.

इनफॉरमेशन टेक्नोलॉजी कायदा भारतात २००० साली आला, त्यानंतर २००८ साली झालेल्या मुंबई हल्ल्यानंतर २००९ साली या कायद्यामध्ये बदल करून केंद्र सरकार, राज्य सरकार आणि काही अधिकाऱ्यांना डेटा वर लक्ष ठेवण्याचे अधिकार देण्यात आले होते, पण आता हे अधिकार सीबीआय, आयबी, एनआयए, नार्कोटिक्स कंट्रोल ब्युरो, अंमलबजावणी संचलनालय, सेंट्रल बोर्ड ऑफ डायरेक्ट टॅक्स, डायरेक्टरेट ऑफ रेहेन्यू इंटेलिजन्स, रॉ, दिल्ली पोलीस आयुक्त, डायरेक्टरेट ऑफ सिग्रल इंटेलिजन्स (जम्मू-काश्मीर, ईशान्य भारत) या प्रमुख दहा संस्थांकडे देण्यात आले आहेत. या अधिसूचनेपूर्वी मोशन डेटा म्हणजेच चालू कॉल, ई-मेल चेक करता येत होते पण आता या अधिसूचनेनंतर कोणत्याही प्रकारचा डेटा म्हणजेच साठवलेला डेटा, डिलीट केलेला डेटा, पूर्वी पाठवलेला किंवा आलेला डेटा सर्व प्रकारच्या डाटावर लक्ष

ठेवण्याचे अधिकार या संस्थांकडे देण्यात आले आहेत. हे अधिकार देताना राष्ट्रीय सुरक्षेचे कारण केंद्र सरकार देत आहे.

भारतीय राज्यघटनेनुसार व्यक्तिगत गोपनीयता हा मूलभूत अधिकार आहे असे सुप्रीम कोर्टने सांगितले आहे. पण केंद्र सरकारने घेतलेल्या या निर्णयामुळे व्यक्तिगत गोपनीयतेवरच गदा येणार असल्याचे काही तज्ज्ञांचे मत आहे. तसेच काही तज्ज्ञांनी या निर्णयामुळे सायबर सुरक्षा, फेक न्युज सारख्या मुख्य मुद्यांवर तोडगा निघेल अशी आशा व्यक्त केली आहे.

वाढत असलेल्या डेटा ट्रॉफिकिंगमुळे मोठ्या प्रमाणात डेटा निर्माण होत आहे, या डेटावर कशाप्रकारे ह्या संस्था लक्ष ठेवणार, सोशल मीडियावर बोलण्याचे स्वातंत्र्य सर्वसामान्य जनतेला राहणार का? राष्ट्रीय सुरक्षेच्या नावाखाली व्यक्तिगत गोपनीयतेवर गदा येणार का? असे एक ना अनेक प्रश्न सर्वसामान्य जनतेच्या मनात आहेत. तसेच या निर्णयाचा वापर सत्ताधाऱ्यांकडून विरोधकांवर पाळत ठेवण्यासाठी होईल अशी भीती विरोधकांकडून व्यक्त केली जात आहे. एकूणच काय की, या निर्णयामुळे सर्वसामान्य जनतेमध्ये भीतीचे सावट असल्याचे दिसून येत आहे.

खरंच! आपला हात जगन्नाथ म्हणतात तेच खरं आहे. माणूस आपल्या गरजा भागवण्यासाठी एकमेकांवर अवलंबून असतो. परंतु त्याचे आयुष्य हे देवाने दिलेले त्याच्यासाठी सर्वात मोठी भेट आहे. यासाठी आपण धन्यवाद देवाला म्हणणेही तेवढेच गरजेचे आहे. त्याने आपल्याला या विश्वाचे दर्शन घडवले व जीवन जगण्याची एक संधी दिली. परंतु या सुंदर जीवनात तर रंग आपल्यालाच भरायचे असतात आणि तेही आपल्या आवडीनुसार. पण आपल्या जीवनात कोणते रंग भरायचे हाच मोठा प्रश्न भेडसावतो बच्याचदा? परंतु आज सर्वात जास्त गरज आहे ती आत्मजाणीवेची. खरंच, प्रत्येकाच्या आत काही ना काही गुण दडलेले असतात, ते आपण ओळखले पाहिजेत. उदा. कोणाला गायन करायला आवडत असेल, कोणाला नृत्य करायला आवडत असेल इ.

आपल्या अभ्यासाव्यतिरिक्त काही वेगळं म्हणून कला ओळखून आपल्या कलांना एक संधी देऊन जीवनाच्या

नव्या वाटा शोधणे यात खरं तर जीवनाचा खरा अर्थ दडला आहे. आपल्या कलांना सर्वप्रथम आपण उत्तेजन दिले पाहिजे व आत्मविश्वासाने ठामपणे आपले विचार लोकांपर्यंत पोहोचवले पाहिजेत.

आपल्या जीवनात जितक्या महत्वाच ज्ञानाचं क्षेत्र आहे तितक्याच महत्वाच कलेचं देखील आहे. खरंच, असं म्हणतात की, सचेतन व अचेतन वाटणाऱ्या सृष्टीतली रहस्ये आणि मानवी व्यवहारातले नाना प्रकार समजावून घेण्याची अट सुटू न देणे होय. ती ओढ ज्ञानाच्या आणि कलेच्या क्षेत्रात सारखीच असते.

यातूनच खरा मार्ग सापडतो तो जीवन सुंदर रीतीने जगण्याचा. आपण सर्वप्रथम आपल्या कलागुणांना वाव देणे गरजेचे आहे. ते जेव्हा आपण ओळखू तेव्हा खच्या अर्थाने रंग भरायला सुरुवात होते.

आपण एक सुजान व सक्षम नागरिक बनावे असे प्रत्येक आई-वडिलांचे स्वप्न असते. तसा प्रयत्न करून त्यांना ते

बनवून दाखवणे व त्यांच्या अपेक्षा, भावना न दुखावता त्यांच्या स्वप्नासह आपले स्वप्न साकार करणे म्हणजे आपण आपला उद्धार करणे असे आपण म्हणू शकतो.

आपल्या आवडत्या क्षेत्राकडे वळून मेहनत, चिकाटी, धैर्य व त्या कामात शौर्य दाखवून त्या क्षेत्राला जिंकून लोकांपुढे एक आदर्श दाखवून देणे म्हणजे मला वाटते आपण आपला उद्धार करणे होय!

२१ व्या शतकातील भारतीय युवकांची कर्तव्ये व जबाबदाच्या

जोशी शुभांगी प्रभू
एफ.वाय.बी.कॉम

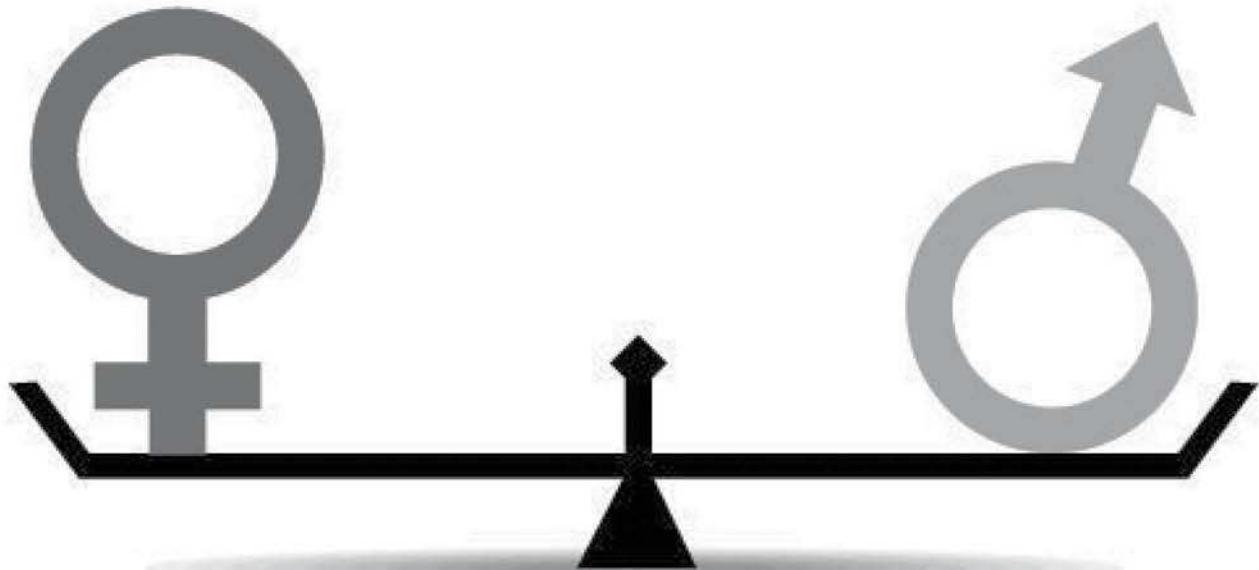

झोपू नको युवका तू जागा हो,
वेळ आहे लढण्याची,
उगाच का रडतोस तू रे,
रात्र आहे ही वैन्याची....

वरील पंक्ती ऐकताना किती गोड वाटतात, पण त्याचा गोडवा किती प्रमाणात आपले युवक त्यांच्या जीवनात अनुकरण करतात हा सर्वात मोठा प्रश्न आहे. बरं ते सगळं राहू द्या. मला सांगा युवक म्हणजे काय? युवक म्हणजे एक असा तरुण ज्याच्यामध्ये सद्यस्थिती बदलण्याची व देशाला एका प्रगतीपथावर घेवून जाण्याची पूरेपूर शक्ती असते. मला असे वाटते जे जाते पण परत कधीच भेटत नाही ते आहे तारुण्य. मग उगाचच का आपले तरुण त्यांचे आयुष्य वायफळ घालवतात, हे मला अजूनही उमगलेले नाही. असे म्हणतात, कुठल्याही गोष्टी आपण आयात करु शकतो पण चांगली माणसे कधीच आयात करता येत नाहीत. ती घडवावीच लागतात. त्यामुळे आपल्या देशाला चांगली माणसे घडवल्याशिवाय तरणोपाय नाही. डॉ. बाबासाहेब आंबेडकर म्हणतात की, 'आत्मविश्वास ही यशाची गुरुकिली आहे.' खरोखरच ज्यांच्याकडे आत्मविश्वास आहे ते त्यांच्या जीवनात काहीही मिळवू शकतात. याच बाबतीत स्वामी विवेकानंद देखील आपले विचार मांडताना सांगतात की, 'भारताचा इतिहास हा मूठभर आत्मविश्वास असणाऱ्या लोकांचाच तर आहे. मला मूठभर आत्मविश्वास असणारी

माणसे मिळवून द्या मी नक्कीच देशाचा विकास घडवून आणेन.'

"मला अशी काही माणसे मिळवून द्या, की जी शरीराने तंदुरुस्त आहेत, ज्यांच्या इच्छा व विकार यावर ज्यांचा ताबा आहे व जी आरशाप्रमाणे पारदर्शक मनाची आहेत, मी नक्कीच तेव्हा या देशात काहीतरी चमत्कार करून दाखवेन." - थॉमस हक्सले

वरील वाक्ये अगदी बरोबर आहेत. जर आपल्या देशातील युवकांमध्ये काहीतरी करून दाखवण्याची, देशाचा विकास करण्याची इच्छा प्रबळ असेल तर त्यांना कोणीच थांबवू शकत नाही. आजची पिढी ही पुढच्या पिढीसाठी आदर्श बनेल असे काहीतरी कर्तृत्व आपल्या तरुणांनी नक्कीच केले पाहिजे. एकाने तसेही म्हटलेच आहे की, 'We don't need followers, we need Ideals.' म्हणजेच आपल्या युवकांनी अशी जबाबदारी पार पाडली पाहिजे की त्यांचे अनुकरण इतरांनी केले पाहिजे. आजचे युवक महात्मा गांधी, शिवाजी महाराज, डॉ. बाबासाहेब आंबेडकर इत्यादींना आपले आदर्श मानतात. पण खरोखरचं ते त्यांना आदर्श मानतात का? हा सर्वात मोठा प्रश्न आहे. कारण आदर्श मानने म्हणजे फक्त त्यांची जयंती अतिशय उत्साहात साजरी करणे नव्हे, तर त्यांनी जे चांगले विचार आपल्यापर्यंत पोहचवण्याचा प्रयत्न केला आहे, त्या विचारांची अंमलबजावणी देखील करणे तितकेच गरजेचे आहे. ही आपल्या युवकांची सर्वात

महत्त्वाची जबाबदारी आहे.

याचबरोबर आपल्या युवकांसमोर व देशासमोर असे अनेक प्रश्न आहेत ज्यांचे उत्तर फक्त आणि फक्त या देशाचे नागरीकच खासकरून युवकच देवू शकतात. देशापुढील सर्वात महत्त्वाचा प्रश्न म्हणजे 'स्त्रीभृणहत्या.' आज आपण गर्वाने सगळ्यांना सांगतो की, आपला देश विकसनशील आहे व तो विकसित होण्याच्या मार्गावर आहे. पण दुसऱ्या बाजूने विचार केला तर आपल्याच देशात स्त्री-पुरुष समानता अजूनही निर्माण झालेली नाही. पुरुष स्त्रियांना आजही दुय्यम दर्जाचे मानतात. व काही हिंस्र माणसे तर आपल्या चिमुकलीला जन्माला यायच्या आधीच गर्भातच मारून टाकतात. यालाच स्त्रीभृणहत्या नाव देण्यात आले आहे. जर ही समस्या मुळासकट काढून टाकायची असेल तर आपल्या युवकांनीच सुरुवात केली पाहिजे. त्यांनीच स्त्रियांना देखील समानतेचा दर्जा दिला पाहिजे. तेव्हाच आपला देश सक्षम होऊ शकेल. ही युवकांपुढील सर्वात महत्त्वाची जबाबदारी आहे.

ध्येयाच्या वेदना तुझ्या मनास होऊ दे,
वार तुझ्या प्रत्येक क्षणास होऊ दे,
अशक्य सुद्धा म्हणेल शक्य आहे,
एवढा गर्व तुझ्या बुद्धीच्या मीपणास होऊ दे

खरंच, ज्याप्रमाणे वरील काव्यपंक्तीमध्ये सांगितले आहे तसे जर आपल्या युवकांनी अनुभवले तर नक्कीच आपला देश खूप मोठी भरारी घेवू शकेल. आपल्या तरुणांपुढील सर्वात महत्त्वाची जबाबदारी आहे ती म्हणजे सर्व जनतेने शिक्षण घेतले पाहिजे. साक्षर झाले पाहिजे. व आपल्या ज्ञानाचा उपयोग आपल्या देशासाठी, त्याच्या प्रगतीसाठीच केला पाहिजे.

मला असे वाटते की, आपल्या देशात ७० टक्क्याहून अधिक लोक हे खेड्यात राहतात व आपला देश हा खेड्यांचा देश म्हणून ओळखला जातो. त्यामुळे जर युवकांना देशाचा विकास करावयाचा असेल तर खेड्यांचा देखील विकास करणे तेवढेच गरजेचे आहे. याचबरोबर अजून एक महत्त्वाचा प्रश्न म्हणजे राजकारण होय. आपल्या देशात जरी नावापुरती लोकशाही असली तरी इथे खन्या अर्थाने राजेशाहीच आहे. जे लोक नीट शाळेतही गेलेले नाहीत ते लोक राज्यकर्ते बनतात. अशामुळेच आपल्या देशाची प्रगती होऊ शकत नाही. ते लोक फक्त भ्रष्टाचार करण्यासाठी राजकारणात येतात. परंतु जर त्या म्हाताच्या व असुशिक्षित लोकांऐवजी सुशिक्षित तरुण राजकारणात जावू लागले तर नक्कीच आपल्या देशाची प्रगती होईल असे मला वाटते.

आपल्या युवकांची सर्वात मोठी जबाबदारी आहे ती म्हणजे

आपल्या देशातील वाईट रुढी, परंपरा, चालीरिती, अंधश्रद्धा इ. मुळापासून नष्ट करण्याची. आपल्या देशाने आज जरी एकविसाव्या शतकात पदार्पण केले असले तरी आपल्या देशातील जनता ही फक्त आणि फक्त देवावरच अवलंबून आहे. जर युवकांनी देवावर विश्वास न ठेवता स्वतःवर, स्वतःच्या कर्तव्याबाबरीवर विश्वास ठेवला तर नक्कीच आपण काहीतरी प्रगती करू शकतो.

आपला देश आज कितीही प्रगत मानला गेला तरी आपल्या देशात मुर्लींना खूप सारी बंधने आहेत. त्यांना कसल्याच प्रकारची सुरक्षितता नाही. आज गेल्या पाच वर्षांची आकडेवारी पाहिली तर आपल्या देशात जवळपास १ लाख ६० हजार मुर्लींवर बलात्कार झालेला दिसतो, हे असे का घडते. मुले मुर्लींना आपल्या आईसमान, बहिणीसमान का मानू शकत नाही. जर अशा प्रकारच्या घटना आपल्याला थांबवायच्या आहेत असे आपल्याला वाटत असेल तर सर्वात प्रथम आपल्या युवकांनी त्यांची कुर अशी मानसिकता बदलली पाहिजे. तेव्हाच कुठे आपला देश खन्या अर्थाने प्रगत मानला जाईल.

आज आपल्या देशातील युवक दुसऱ्या देशात शिक्षण घेण्यासाठी जात आहेत. नवनवीन तंत्रज्ञान आत्मसात

करीत आहेत व त्याच देशात स्थायिक होत आहेत. आपल्या म्हाताच्या आईवडिलांना ज्यांनी त्यांना लहानाचे मोठे केले, जीवाचे रान करून शिकू दिले, त्यांनाच ते परके करत आहेत. अशा प्रकारची पाश्चात्य संस्कृती ते अवलंबत आहेत. हे खूप चुकीचे आहे. आपल्या युवकांनी आपल्या वृद्ध मातापित्यांची काठी बनणे ही त्यांची सर्वात मोठी जबाबदारी आहे.

याचबरोबर अशी अनेक कर्तव्ये आपल्या देशाच्या वतीने पार पाडणे युवकांना गरजेचे आहे. आपण या देशाचे नागरीक आहोत व त्याच्या उन्नतीची जबाबदारीदेखील आपलीच आहे. फक्त गरज आहे ती पेटून उठण्याची.

अजूनही वेळ गेलेली नाही. आपण एकजूट होऊन हे नक्कीच करू शकतो. म्हणून आपल्या युवकांना प्रेरित करण्यासाठी बा. भ. बोरकरांच्या चार काव्यपंक्ती मला सांगाव्याशा वाटतात –

तुला एवढे कसे कळत नाही,
खुलत्या कळीस वय नाही,
क्षितिज ज्याचे संपले नाही,
त्याला कशाचेच भय नाही॥

पु. ल. नी महाराष्ट्राला काय दिले ?

हास्य ही एक अशी गोष्ट आहे जी स्वतः जवळ नसताना ही ती आपण इतरांना देऊ शकतो. हाच विचार घेऊन पु.ल. देशपांडे यांनी महाराष्ट्रातील तमाम साहित्य प्रेमींना भरभरून हसविले आहे. पु. ल. नी महाराष्ट्राला काय दिले? हा प्रश्न मुळातच चुकीचा आहे कारण त्यांची साहित्य रचना महाराष्ट्रातच नव्हे तर संपूर्ण भारतात प्रसिद्ध आहे. पु. ल. यांनी महाराष्ट्रातील लाखो रसिकांच्या हृदय सिंहासनावर राज्य केले आहे. पु. ल. देशपांडे यांचे संपूर्ण नाव आहे पुरुषोत्तम लक्षण देशपांडे. त्यांचे आजोबा वामन मंगेश दुभाषी हे देखील प्रसिद्ध लेखक व कवी होते. इथूनच त्यांना साहित्याचा वारसा लाभला असे म्हणता येईल.

पु. ल. यांची पुस्तके, लेख वाचताना आपणास जाणवते की त्यांच्यामध्ये मनुष्य निरीक्षणाची शक्ती व कल्पनाशक्ती ही अतिशय जबरदस्त आहे. समाजातील नमुने व त्यांना पु. ल. यांनी आपल्या अपार कल्पनाशक्तीतून निर्माण केलेले पात्र आपल्याला भरभरून हसवितात. रत्नागिरीचा कडवट वाणीचा पण मनाने प्रेमळ असणारा 'अंतू बरवा' असो वा तोंडावर शिव्या देणारा पण मित्रांना वाढवेल ती मदत करणारा, संगीत नाटकांच्या उद्घारासाठी झटणारा 'रावसाहेब' असो वा आपल्या विद्यार्थ्यांना तळमळीने शिकवणारा 'चितले मास्तर तसेच लग्र समारंभात स्वयंसेवकासारखा धावपळ करणारा अष्टपैलु 'नारायण' असो या सर्व पात्रांमध्ये पु. ल. यांनी जिवंतपणा आणला होता. पु. ल. यांच्या या लेखनातून सगळ्यांना भरभरून असे हास्य दिले. पु. ल. यांना आपण 'विनोदाला कारुण्याची झालर असणारा लेखक' असे

देखील म्हणू शकतो. कारण मनुष्य स्वभावाच्या असणाऱ्या दोन बाजू त्यातील एक बाजू जी कोणाला देखील माहित नसते, ती पु. ल. यांनी आपल्या पात्रातून समाजापुढे आणून ठेवली आहे.

१९३७ साली पु. ल. देशपांडे यांनी नभोवाणीवर काम करण्यास सुरुवात, केली होती. तसेच अनंत काणेकर यांच्या 'पैजा' या श्रुतिकेतून त्यांनी पहिल्यांदा काम केले. त्यानंतर त्यांचे पहिले व्यक्तिचरित्र 'भट्ट्या नागपूरकर' हे अभिरुची या नियतकालिकेत प्रसिद्ध झाले. फर्गुसन महाविद्यालयात असताना पु. ल. यांनी चिंतामण कोल्हटकर यांच्या नाट्यनिकेतन, नाट्यसंस्थानातून नाटकात काम करण्यास सुरुवात केली. १९४८ साली पु. ल. देशपांडे

यांनी 'तुका म्हणे आता' व 'विचारे' सौभद्र प्रयत्ने लिहिली. पु. ल. देशपांडे यांचे योगदान हे केवळ मराठी साहित्यापुरती सीमित नाही राहिली तर मराठी चित्रपट सृष्टीत देखील त्यांनी त्यांचा ठसा उमटवला. पु. ल. हे केवळ लेखक नव्हते तर ते एक कथाकार, पटकथाकार, नकलाकार, विनोदवीर, कवी, दिग्दर्शक, संगीत दिग्दर्शक, इत्यादी देखील. अशा या अष्टपैलु पु. ल. यांचे मराठी भाषेवर देखील विलक्षण प्रभुत्व होते.

पु. ल. यांनी 'गुळाचा गणपती', 'दुधभात', 'वंदे मारतम्' यांसारख्या उल्लेखनीय मराठी चित्रपटात देखील आपल्या सर्व गुणांची छाप सोडली आहे. पु. ल. देशपांडे व त्यांच्या पत्नी यांनी 'वंदे मातरम्' या मराठी चित्रपटात प्रमुख भूमिका केल्या होत्या. आपल्या सर्वाना लहानपणी एक गाणे ऐकण्यात येत असे, ते म्हणजे 'नाच रे मोरा, आंब्याच्या वनात, नाच रे मोरा नाच'. हे बालगीत कित्येक वेळा आपल्या कानावर येत असे आणि आवडत देखील असे. हेच गाणे पु. ल. यांच्या 'देवबप्पा' या मराठी चित्रपटातले आहे आणि या चित्रपटाचे संगीत दिग्दर्शक हे पु. ल. हे आहेत. 'गुळाचा गणपती' या चित्रपटामधून पु. ल. यांनी 'नाच्या' या पात्राचे अतिशय सुंदर असे रेखाटन केले आहे. चित्रपट सृष्टीतील पु. ल. यांचे योगदान हे अगणित आहे.

पु. ल. देशपांडे यांनी आकाशवाणी केंद्रात देखील नोकरी केली होती. तेथे पु. ल. आपल्या छोट्या मोठ्या कथा, लेख यांचे प्रदर्शन करीत असे. तसेच दिली येथे बदली झाल्यानंतर पु. ल. व त्यांच्या पत्नीने दिलीत 'गडकरी दर्शन' हा कार्यक्रम सादर केला होता. यातूनच 'बटाट्याची चाळ' याचा जन्म झाला. पु. ल. यांचे भरपूर किस्से प्रसिद्ध आहेत त्यातलाच एक म्हणजे बिर्जू महाराज दूरचित्रवाणी वर आपल्या नृत्याचे प्रदर्शन करीत होते, जसजशी संगीताची लय वाढत गेली तसेतशी पु. ल. यांनी देखील त्या संगीताला आपल्या तबला वादन कौशल्याची साद दिली. भारतातील पहिल्या दूरचित्रवाणी कार्यक्रमातील पंडीत नेहरु यांची मुलाखत ही पु. ल. देशपांडे यांनी घेतली होती. भारतातील दूरचित्रवाणीवरील पहिले मुलाखतकार म्हणून पु. ल. यांचे नाव घेतले जाते.

साहित्य अकादमी, व संगीत नाटक अकादमी हे दोन्ही पुरस्कार मिळालेल्या प्रतिभावंतांमध्ये पु. ल. यांचा समावेश होतो. पु. ल. यांचे अजून एक श्रेष्ठ योगदान आहे ते म्हणजे मुंबई येथील नॅशनल सेंटर फॉर परफॉर्मिंग ऑर्ट्स (एनसीपीए) येथे पु. ल. यांनी संशोधकांना साजेसे असे बरेच लेख, साहित्य इत्यादी यांचा संग्रह केला आहे. एनसीपीए मध्ये पु. ल. यांनी विविध प्रयोग देखील केले आहेत. त्याच प्रयोगांपैकी एक म्हणजे बैठी लावणी व दोन पिढ्यांचे गायन. पु. ल. कडून स्फूर्ती घेऊन इतर प्रांतातील साहित्यकारांनी प्रेरणा घेतली व स्वतःच्या प्रांतात देखील असेच संग्रह करण्यास सुरुवात केली. भारतातील सर्वात पहिल्या दूरचित्रवाणी कार्यक्रमाचे निर्माते हे पु. ल. देशपांडे होते.

पु. ल. यांचे साहित्य क्षेत्रातील योगदान हे अगणितच आहे. पु. ल. आपल्या लेखनातून नेहमी सर्वाना हसवतच आले आहेत पण हसविणे हाच एक त्यांचा उद्देश नव्हता. त्या सर्व पात्रांची एक दुःखद बाजू देखील त्यांनी मांडली होती. लेख वाचता वाचता खळखळून हसविणारे आणि हसता हसता डोऱ्यात अशू आणतील असे त्यांचे सर्व लेख असायचे. ही त्यांची एक उत्कृष्ट अशी प्रतिभा होती. याला तर आपण त्याचे एकप्रकारे यश आहे असे म्हटले तरी चालेल. त्यांचे अप्रतिम असे लेख जे काळजाला हात घालतात. रसिक प्रेक्षकांच्या मनाला मोहून टाकणारे आहेत.

पु. ल. यांचे म्हैस, पानवाला, बिगारी ते मॅट्रीक, ते चौकोनी कुटुंब, माझे उत्कृष्ट जीवन इत्यादी सर्वच लेख खूप प्रसिद्ध झाले होते. 'पूर्वरंग' यासारख्या प्रवासवर्णनाचे पुस्तक कोणालाही आपल्या बुक शेल्फ वर असणारे आहे, या पुस्तकाचे लेखन देखील पु.ल. यांनी केले आहे. अशा बच्याच गोष्टी आहेत ज्यात पु. ल. यांनी १००% योगदान दिले आहे.

यातूनच समजून येते की पु. ल. यांच्यासारख्या व्यक्तिमत्वामुळे महाराष्ट्राला अशी साहित्याची देण आहे. त्यांनी रंगवलेल्या सर्व पात्रांची आठवण आपणास राहणार आहे. अशा या महाकाय अष्टपैलु व्यक्तिमत्वाबद्वल जेवढे लिहावे तेवढे कमीच आहे.

भाषा आणि तंत्रज्ञान

‘ओ माय गॉड’, ‘मला खूप लेट झालय’, ‘मला इमिजियटली गेलच पाहिजे’ या तीन वाक्यांतच मराठीची ऐशी-की-तैशी झाली आणि मी हे सहजच पचवले. हे म्हटल्यावर माझी मैत्रिण तिथून निघून गेली. परंतु माझ्या मनात उठलेला तरंग हा पाण्यात टाकलेल्या दगडासारखाच.

आजकाल इंग्रजीमध्ये बोलण हे, सुधारलेपणाचं, प्रतिष्ठेच मानल जात. जे इंग्रजीत बोलतात ते महान, अशी मानसिकता झाली आहे. ‘देअर इज अ तुलसी वृदावना इन आवर कोर्टयार्ड’ हे वाक्य ऐकले की असे वाटते, माझी मायबोली वांझ तर झाली नाही ना? आजकालचे आई-वडील आपले मुल सीनीयर के. जीत असल्याचे जेव्हा लोकांना कौतुकाने सांगतात, तेव्हा अस फॅड मला मँडच करून टाकते. मग असे वाटते झानेश्वरांनी ‘अमृतातूनही पैजा’ कशाच्या बळावर जिंकल्या असाव्यात. खरच का, इंग्रजीच्या कुबळ्या घेणे इतक आवश्यक आहे का की, मराठी भाषा हिणकस वाटू लागली आहे?

‘माझ्या मन्हाटीची बोल कौतुके,
परि अमृतातूनही पैजा जिंके
ऐसे अक्षरे रसिक मेळवीन.’

‘होमर’ या तत्ववेत्याच्या शब्दांत सांगायचे म्हटले तर, जेव्हा कोणी गुलामिगीरी पत्करतो, तेव्हाच त्याचे निम्मे गुण त्याला सोडून निघून जातात. ‘स्वाभिमान’ त्या सोडून गेलेल्या गुणांचा, गुणसमुदायांचा म्होरक्या असतो. इंग्रजांच्या तावडीतून आपण देश सोडवला, परंतु स्वाभिमान आणि भाषा अजूनही इंग्रजांकडे गहाण आहे.

भाषा आणि तंत्रज्ञान याचा जर आपण विचार केला तर या दोन्हीही गोष्टी एकमेकांशी आंतरसंबंधित आहेत. हे जरी

खरे असले की, आजकाल तंत्रज्ञान खूप पुढे गेले आहे! ते प्रगतीच्या पथावर आहे, परंतु तंत्रज्ञान हे फक्त भाषेमुळे पुढे गेले आहे. तंत्रज्ञान हे आपले काम सोपे, जलद करते मात्र भाषा ही आपल्याला त्यात दडलेला अर्थ सांगते. भाषेमुळे माणसे एकमेकांशी एवढे संबंधित आणि जोडलेले आहे. तंत्रज्ञानामुळे आज आपले जग हे वेगव्याच पथावर आहे. तंत्रज्ञान म्हणजे वेगवेगळी (मशीन्स) उपकरणे.

आयुष्य म्हणजे नेमके काय असते? ‘पृथ्वीच्या सरोवरात एक विराट कमलपुष्ट उमललेल आहे.’ त्या कमळाच्या पाकळीवर एक सुंदर दवबिंदू पडाव आणि ते म्हणजेच आयुष्य आहे. या जीवनात आपल्याला खूप संकटांना सामोरे जाव लागत. त्यासाठी आपल्याला तंत्रज्ञानाचा वापर करावाच लागतो. परंतु भाषेशिवाय ते शक्य नाही, कारण भाषा हे एकमेव माध्यम आहे ज्याद्वारे आपण विचारांची देवाणघेवाण, आदानप्रदान करत असतो. तंत्रज्ञान भलेही माणसाला दिशा देते परंतु भाषा ही आपल्याला जीवन जगण्याची प्रेरणा देते. कधीही न संपणारी, कधीही न सोडणारी.

वि. दा. सावरकर म्हणतात, स्वदेश, स्वर्धम आणि स्वभाषा या बाबतीत कोणतीही तडजोड नसावी. ‘केवढा थोर विचार यांचा.’ आपल्या मराठी भाषेला एवढा मोठा वारसा लाभलेला असूनही आजकाल इंग्रजीमध्ये शिकणे श्रेष्ठत्वाचे आणि मराठी भाषा म्हणजे खालच्या जातीची. असं का? संतांनी सुद्धा जनजागृतीसाठी मराठीचा उपयोग केला आहे. मराठी भाषा ही शिकण्यास साधी व सोपी आहे. संतांना काव्यरचना करताना ही कधीच शब्दांची उणीव भासत नाही, कारण मराठी भाषेचा इतिहास कधीही न संपणारा

आहे. मला सर्व भारतीयांना खडसावून सांगावेसे वाटते.

**‘मी सुखसंवाद करीन मराठीतच
मी दुखःविलाप करीन, तोही मराठीतच
आणि मी प्रतिभाविलास करीन तो देखील
आमुच्या मराठीतच, मराठीतच!’**

आजच्या एकविसाव्या शतकाला ‘तंत्रज्ञानाचे युग’ म्हणजेच ‘संगणकाचे युग’ म्हणून संबोधले जाते. बाहेरच्या देशांमध्ये तंत्रज्ञान एवढ पुढे गेलय की तिथली सगळी कामे यंत्रमानव पार पाडतो. तो कोणतीही गोष्ट ही कमी वेळात आणि अगदी व्यवस्थितपणे पार पाडतो. त्यात सापडूनही चुकी सापडणार नाही. पण हे जरी खरे असले तरी आपल्याकडच्या आईने भरवलेल्या घासात, आणि यंत्रमानवाच्या हातात जमिन आसमानाचा फरक आढळून येतो. कोणतीही गोष्ट करताना, काम करताना नुसते यंत्र महत्त्वाचे नाही, तर त्यामागची भावना महत्त्वाची आहे.

आजकाल लोकांचे स्वतःच्याच बाबतील खूप मोठे गैरसमज झाले आहेत. त्यांना वाटते आपल्यापेक्षा पण मशीन्स कामे पटकन करतात. असे वागून ते स्वतःलाच कमी लेखत आहेत. स्वतःचेच महत्त्व कमी करत आहेत. आपण जर पाहिले तर हे निर्दर्शनास येते की, भाषा ही आपल्या विचारांना चालना देते, आणि आपल्याला यशाच शिखर

गाठण्यात मदत करते. तसे तंत्रज्ञान हे आपल्या विचारांना थांबवून स्वतः पुढे जाते.

**‘माझी मराठी बोली,
ज्ञानसमृद्धीची खाण।
तिची कृपा माझ्या ठायी,
मनी आपुलकीचा मान॥
शब्द शब्द रत्नावली
तिला अमृताची गोडी॥
तिची साथ सर्वकाली
मज आवडे माझे बोली॥’**

मराठी साहित्यात आपण पाहिले तर, ‘मराठी अकादमीचे पुरस्कार’ मिळेपर्यंत मराठी भाषेचे स्थान उंचावले आहे. मागच्या वर्षी महाराष्ट्रातील पाच जणांना हे पुरस्कार मिळाले. मराठी साहित्य हे माणसाला जीवनशैली शिकवून जाते, जी माणसाचे आयुष्य बदलून टाकते. त्यामुळे मला वाटते आता गरज आहे बदलायची. ‘मराठी भाषा आणि तंत्रज्ञान’ आणि त्यांच्या महत्त्वाला जाणण्याची.

**युग आहे हे तंत्रज्ञानाचे,
जे वाटते सगळ्यांना हवेहवेसे!**

प्रसारमाध्यमांचा समाजव्यवस्थेवर प्रभाव

बदल हा मानवी जीवनात एक घटक अन् निसर्गाचा नियमच आहे. स्वातंत्र्य काळात रेडीओ, ६०-७० च्या दशकात दूरदर्शन, ८० च्या दशकात संगणक, ९० च्या दशकात केबल आणि आज २१ च्या शतकात इंटरनेटच्या माध्यमातून व्हॉट्सॅप, ब्लॉग, ट्विटर अशी अनेक प्रसारमाध्यमे मानवाच्या हाती आली. आज ही प्रसार माध्यमे म्हणजे सोशल मीडिया मानवी जीवनाचा एक अविभाज्य भाग बनत चालली आहेत. आज मानवाला प्रसारमाध्यमांशिवायचे जीवन निरस वाटत असावे. हे झालेले बदल मानवासाठी वरदान तितकेच शाप ही ठरले. आज त्याच्यामुळे सारा जमाना ऑनलाईन झाला आहे.

ऑनलाईन झालाय सारा जमाना
तू अन् मीही ऑनलाईन हाच याराना,
नाती जपण्यासाठी मोबाईलच हवा
या सोशल जगतात कुठे आहेस तू देवा ?
भावनांचा रेट झालाय लो
नाती जणू जस्ट फॉर शो !

आज सोशलमीडिया / प्रसारमाध्यमांमुळे अनेक फायदे झाले पण म्हणतात ना, 'कोणत्याही गोषीला दोन बाजू असतात; सकारात्मक अन् नकारात्मक'. पण प्रसारमाध्यमांचा समाजावर झालेला परिणाम विसरता कामा नये. आपल्याला वाटते प्रसारमाध्यमातून आपले मनोरंजन होते, पण एखाद्या चुकीच्या किलकवर दंगली देखील होऊ शकतात. समाजातील वाईट प्रवृत्ती वाढीस लागू शकते. तंत्रज्ञान क्षेत्रातील विस्तारामुळे वैचारिक क्रांती झाली पण आज घरबसल्या मिळत असलेल्या सोयी-

सुविधांमुळे माणूस परावलंबी झाला आहे. तो समाजापासून दुरावला गेला.

प्रसारमाध्यमांमुळे शेती ते उद्योगधंदे, समाजकारण ते राजकारण आणि शिक्षणापासून विज्ञानापर्यंत अनेक क्षेत्रात प्रगती केली पण ही प्रगती चांगल्या कारणासाठी न वापरता घोटाळ, फसवेगिरीसाठी वापरली जात आहे, ही खूप मोठी शोकांतिका म्हणावी लागेल. कधी-कधी समाजात अफवा पसरवण्यासाठी काही लोक प्रसारमाध्यमे आजमवतात. राजकारणात देखील प्रसारमाध्यमे खूप मोठी कामगिरी पार पाडतात. शिक्षणातील वापरामुळे विद्यार्थ्यांमधील स्वयं-अध्ययन-अध्यापनाची सवय आज पूर्णपणे नष्ट होऊ लागली आहे.

प्रसारमाध्यमे आहे पर्वणी छान
पण समाजावर झाला वाईट परिणाम।
एका किलकने केले
सगळ्या जगाला जवळ,
अन् समाजाशी तोडला
त्यांनी संबंध निवळ

अशा प्रकारे प्रसारमाध्यमांचा समाजावर काही अंशी नक्कीच चांगला, सकारात्मक परिणामही झाला पण बरोबरच अनेक नकारात्मक परिणामही झाले. अनेक गुन्हेगारी प्रवृत्तींना चालना मिळाली. सायबर गुन्हे मोठ्या प्रमाणावर वाढले, हे विसरता कामा नये. अशा रीतीने प्रसारमाध्यमे नावाच्या रोगाला काही लोक खूप गंभीर रीतीने बळी गेले असे म्हणणे देखील चुकीचे किंवा वावगे ठरणार नाही.

भारतीय अभिजात संगीत व गुरुशिष्य परंपरा

आपल्यापैकी बरेच जण शास्त्रीय संगीत ऐकतात, शिकतात. शास्त्रीय जरा अवघड व मोठा शब्द होईल म्हणून आपण अभिजात म्हणू, आपण वाद्यसंगीत, नृत्य व गायन इ. प्रकारचे संगीत ऐकतो. त्यामध्ये उत्तर भारतीय व कर्नाटकी अंगाचे संगीत असते. भारतीय अभिजात संगीताचा सुरुवातीपासून अभ्यास करायचा असल्यास त्याच्या चार स्तंभांविषयी समजून घ्यावे लागेल. अभिजात संगीत हे चार गोर्धींवर अवलंबून आहे. शास्त्र, तंत्र, विद्या आणि कला. गुरु-शिष्य परंपरेमध्ये या चारही गोर्धींची जाणीव गुरु शिष्याला करून देत असतो. त्यातूनच शिष्याचा कलाकार घडतो.

१) शास्त्र हे समजावलं जातं. म्हणजेच काय कराव, काय करु नये इ. २) तंत्र हे शिकवल जातं. तंत्राचा संबंध शरीराशी आहे. म्हणजेच बुद्धीला कळलेल शरीरापर्यंत पोहचवणे. उदा. शास्त्र समजून घेऊन गायक गायन सादर करतो, तबला वादक वाद्य वाजवतात, नृत्यांगना नृत्य सादर करतात. ३) विद्या – विद्या म्हणजे संगीत क्षेत्रात असलेल मटेरियल असंख्य राग-रागिण्या, ताल (त्रिताल, एकताल, रुपक, झपताल इ.) ही विद्या गुरु शिष्याला देत असतो. ४) कला – गुरु शिष्याला शास्त्र समजावून

नील सुहास दीक्षीत
टी. वाय. बी. कॉम

सांगतो, तंत्राचा रियाज त्याच्याकडून करून घेतो, विद्या देतो. व शेवटी घनघोर रियाज व विचारांनी साध्य होते ती शिष्याची कला आणि त्यातूनच कलाकार घडतो.

हली क्लासरुम टीचिंग, मोठी मोठी प्रशिक्षण केंद्रे, इंटरनेट इत्यादींमुळे गुरु-शिष्य परंपरा हरवत चालली आहे. गुरु शिष्य परंपरेतच शिष्य चांगला घडतो. कारण त्यामध्ये तो गुरुच्या घरी राहून विद्या घेत असतो. गुरुच्या सहवासात तो शिष्य २४ तास रहात असतो. म्हणून त्याच्यावर चांगले संस्कार होतात. गुरुकडून त्याला उर्जा मिळत असते. फक्त संगीतातच नाही, बन्याच क्षेत्रात गुरु शिष्य परंपरेचे महत्त्व आहे. भारतीय अभिजात संगीतामध्ये गुरु शिष्य परंपरेची उत्तम उदाहरणे म्हणजे भारतरत्न पंडित भीमसेन जोशी, तालयोगी पद्मश्री पंडीत सुरेश तळवलकर जे स्वतः गुरु शिष्य परंपरेत शिकले व त्यांनी त्यांच्या शिष्यांना सुद्धा त्याच परंपरेत शिकवले. पं. विजय घाटे, पं. रामदास पळसुले असे उत्तम शिष्य त्यांनी घडवले व ते आज मोठे कलाकार आहेत. पं. योगेश समसी हे सुद्धा मोठे तबलावादक गुरु-शिष्य परंपरेमध्येच घडले. तर भारतीय अभिजात संगीत हे जितक शास्त्र, तंत्र, विद्या आणि कला या स्तरावर उभ आहे तितकेच त्यात गुरु शिष्य परंपरासुद्धा महत्त्वाची आहे.

देण्यातला आनंद

डॉ. संदिप अनपट

Dept. of B.Sc. (CS) & BBA(CA)

एक प्रश्न – आनंद कशापासून मिळतो? खर तर ह्या प्रश्नाच उत्तर अनेक प्रकारे मिळेल. व्यक्ती तेवढ्या प्रवृत्ती. कुणाला मुक्तपणे भटकण्यातून, कुणाला नाचण्यातुन, कुणाला गाण्यातुन, कुणाला जंगलात शिकार करण्यातुन, कुणाला भौतिक वस्तु मिळविण्यातुन, कुणाला भजन किर्तनातुन, कुणाला स्वःस्तुतीतुन तर कुणाला विरक्तीतुन अशा अनेक प्रकारे आनंद मिळवीत असतात.

सृष्टीतल्या चराचरात, प्राणिमात्रांत, डॉँगरदच्यात, पठारात, समुद्रात आणि नद्यांतसुद्दा आनंद भरलेला आहे. खर तर माणसाचे सारे वर्तन व्यवहारच आनंदाशी संबंधित आहे. 'सुख पाहता जवापाडे। दुःख पर्वतायेवडे' या संत वचनातही आनंद लपलेला आहे. माणसाला वाटतं आपण एक आनंदाच झाड ह्यावं आणि आपल्या फांद्या फाद्यांवर आनंदाचे गाणे गाणारे पक्षी यावेत. हा शोध निरंतर सुरु आहे. या शोधाच्या वाटेवर आपण सगळे शोधक आहोत.

खर तर भौतिक गोष्टिंपासून मिळालेला आनंद हा क्षणिक आहे. एखादी वस्तु मिळेपर्यंत तिच्या विषयी उत्सुकता व अद्वृहास केल्यानंतर ती वस्तु प्राप्त झाल्याबरोबर त्याविषयी उत्सुकता नाहिशी होते व आनंदही क्षणिकच उरतो.

अतिव भूक लागल्यानंतर मिळालेले जेवण व पोटभर जेवल्यानंतर त्याविषयी आसक्ती राहत नाही, हाही एक क्षणिक आनंदच.

एखादे पद मिळेपर्यंत, खुर्ची मिळेपर्यंत त्यासाठी प्रयत्न व अद्वृहास परंतु ते पद मिळाल्यानंतर त्यातील उत्सुकता व त्याचे नाविन्याबरोबर जाणारा आनंद हा क्षणिकच.

ज्याच्या पायात चप्पल नाही त्याला चपलांची आसक्ती, चपला मिळाल्यानंतर चालताना सायकलची आसक्ती, सायकल चालवणाऱ्याला मोटरसायकलची आसक्ती, व मोटरसायकल चालवणाऱ्याला चारचाकी गाडीची आसक्ती ह्यातील आनंद हाही क्षणिकच.

मग चिरकाल टिकणारा आनंद कोणता?

खर तर या सृष्टीची निर्मीतीच देण्याच्या आनंदातून झाली आहे. प्राणी, पक्षी, वनस्पती, सर्व चराचर ह्या सर्वांच्या मूळाशी दातृत्व हेच आहे. वनस्पती आपल्या अस्तित्वाने पृथ्वीवर प्राणवायु अखंडपणे देत असतात. पक्षी आपल्या

पिलांना घास भरविताना भविष्यामध्ये आपल्या वृद्धावस्थेत घास भरविण्याची अपेक्षा नसते. प्राणी ही आपल्या पिलांना वाढविताना त्यांचे रक्षण करताना कुठलीच अपेक्षा करित नसतात.

मनुष्य जन्मच मुळी ह्या "Joy of Giving" मधून झाला आहे. ईश्वराने मनुष्य प्राणी जन्माला घालताना त्याला नवनिर्मीतीचे सामर्थ्य (डोळा, कान, नाक, हात, मन, वाचा, विचार) दिले आहे. मनुष्य जन्मातही आई आपल्या लहान बाळाला घास भरविताना निरपेक्ष भरवित असते. अगदी गर्भात असताना पासूनचे त्याचे हट्ट आई पुरवित असते. हा देण्यातला आनंद तो चिरकाल असतो. तो कायम हवाहवासा वाटतो.

'देण्यातला आनंद' ह्या मराठी दो शब्दांमध्ये मानवी जीवनाचा सार भरलेला आहे. हे कळण्यासाठीसुद्धा माणसाला एका ठराविक उंचीवर यावे लागते. आपण आपल्या जवळ असलेल्या सामर्थ्याच्या जोरावर जग

जिंकण्याची भाषा करतो. 'मी, माझा आणि माझ्यापुरताच' हा विचार ज्याच्या मनात घोळत असतो ते लोक लौकिक अर्थाने यशस्वी होतील मात्र त्यांच्या वाट्याला येणारा आनंद कधीच उच्च कोटीचा असू शकत नाही. ते कधीच समाधानी असू शकत नाहीत. तना-मनापासून समाधानी रहयचे असेल तर आपण दुसऱ्याला काहीतरी दिले पाहिजे की ज्यात आनंद आहे.

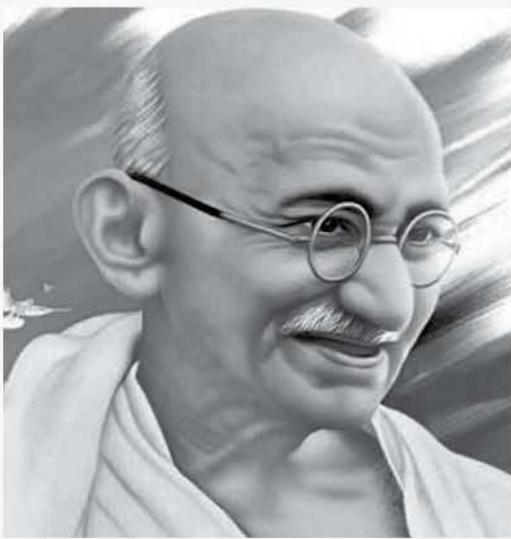

"Joy of Giving" चा आनंद काही औरच असतो. तो वाचून की ऐकून कळण्यासारखा नाही. ही गोष्ट अनुभवण्याची आहे. नव्हे अनुभूतीचीच आहे.

विंदा करंदीकरांच्या भाषेत म्हणता येईल –

देणाऱ्याने देत जावे
घेणाऱ्याने घेत जावे
घेता घेता एकेदिवशी
देणाऱ्याचे हात घ्यावे

युवाओं को विश्व बंधुत्व की शिक्षा

ऋतुजा कापसे
बी. कॉम

विश्व में वास्तविक शांति की स्थापना के लिए युवा ही सबसे सशक्त माध्यम है। राष्ट्रपिता महात्मा गांधी का मानना था कि विश्व बंधुत्व की भावना उतनी ही महत्वपूर्ण है जितनी सुरक्षा और स्वतंत्रता की भावना। विश्व बंधुत्व की भावना, करुणा, प्रेम और भ्रातृत्व ही मानव आधिकारों की सुरक्षा की कुंजी है। इन्हीं मानवीय गुणों से अधिक सभ्य मानव विकसित होगा और गरीबी, जाति, धर्म, ऊँच-नीच तथा अन्य आधारों पर होनेवाले मानव अधिकार प्रभावी रूप से रोके जा सकेंगे। हमारे देश की तकरिबन 30% जनसंख्या युवा है, जिनको सही मार्ग दिखाना हमारी जिम्मेदारी है। वे हमारे देश का भविष्य हैं। अगर हमारे युवाओं में विश्व बंधुत्व की भावना जागृत हुई तो वे अधिक सहयोगी और प्रगतिशील बन जाएंगे। धरती पर जीवित हर व्यक्ति अपना मानना और उसे सन्मान देना, यही विश्व बंधुत्व की सीख है। कोई बड़ा नहीं, कोई छोटा नहीं; सब एक है, और एकता में ही ताकत है। हम जनते हैं की युवा पिढ़ी कई बार गलत कामों में अपना समय बरबाद करती, ऐसा करने से केवल अपना और अपने परिवार का ही नहीं, बल्कि पूरे देश और विशेषतः मानव जाति को नुकसान पहुँचाती है। युवा पीढ़ी जीवनायु का वो समय होता है, जहाँ पर उनका मन बहुत नाजुक और विचलित रहता है। उनपर छोटी-छोटी बातों का भी गहरा प्रभाव पड़ता है।

आजकल के आधुनिक युग में युवाओं को हर साधन-सुविधा उपलब्ध है, परंतु उसका सही तरह से इस्तमाल

करने की शिक्षा कोई उपलब्ध नहीं कराता। घर में, कॉलेज में, गाड़ी चलाते समय, खाना खाते समय, हर वक्त उनका मन सौ चीजों में उलझा हुआ होता है। इसलिए ये सबकी जिम्मेदारी है कि घर का वातावरण युवाओं के लिए पोषक हो, कॉलेज का वातावरण युवाओं के लिए शिक्षाप्रदान हो और हमारे देश का वातावरण युवाओं के हीत में हो। विश्व बंधुत्व एक अकेले के हाथ का काम नहीं है। सब मिलकर अगर पहल करे तो क्या असम्भव है। श्रेष्ठ संसार के लिए विश्वबंधुत्व जरूरी है। जब भी आज के युवाओं के विषय पर चर्चा चलती है, सभी एकमत से बोल उठते हैं, जोशीले, गर्वीले व ऊर्जासे भरपूर हैं आज के युवा। यह सच भी है, आज की युवा पीढ़ी के लिए क्षेत्र में अपार संभावना है। वह जिस क्षेत्र में योग्यता रखते हैं। उसमें आगे बढ़ने के लिए प्रयास करता है। यह भी सही है कि युवावर्ग बाहरी प्रभावों के प्रति अतिसंवेदनशील होते हैं और दूसरों की नकल हमेशा करते हैं। किंतु इसका तात्पर्य यह कदापि नहीं कि युवा वर्ग हमेशा ही विद्रोही, आक्रमणकारी, विध्वंसक, विवेकहीन, अपरिपक्व, रुढ़ीवादी एवं आतंकवाद में विश्वास रखता है। युवाओं को इन सब से बचाने के लिए, उनमें विश्व बंधुत्व की भावना की स्थापना करना बहुत जरूरी है। संसार का वास्तविक सुख इसी में है कि हर देश और उसके नागरिक समानता और एकता में रहे।

शिक्षा का महत्व

“तमसो मा ज्योतिर्गमय” अर्थात् अंधकार से मुझे प्रकाश की ओर ले जाओ – यह प्रार्थना भारतीय संस्कृति का मूल स्तंभ है। प्रकाश में व्यक्ति को सब कुछ दिखाई देता है, अंधकार में नहीं।

प्रकाश से यहाँ तात्पर्य ज्ञान से है। ज्ञान से व्यक्ति का अंधकार नष्ट होता है। उसका वर्तमान और भावी जीने योग्य बनता है। ज्ञान से उसकी सुस इन्ड्रियाँ जागृत होती हैं। उसकी कार्य क्षमता बढ़ती है। जो उसके जीवन को प्रगति पथ पर ले जाती है।

शिक्षा का क्षेत्र सीमित न होकर विस्तृत है। व्यक्ति जीवन से लेकर मृत्यु तर शिक्षा का पाठ पढ़ता है। प्राचीन काल में शिक्षा गुरुकुलों में होती थी। छात्र पूर्ण शिक्षा ग्रहण करके ही घर वापस लौटता था लेकिन आज जगह-जगह सरकारी और गैर-सरकारी विद्यालयों में शिक्षण कार्य होता है। वहाँ पर शिक्षक भिन्न-भिन्न विषयों की शिक्षा देते हैं। छात्र जब पढ़नें के लिए जाता है तब उसका मानसिक स्तर धीरे-

साक्षी शिंदे
१२ वी जनरल सायन्स

धीरे ऊपर उठने लगता है। उसके मस्तिष्क में तरह-तरह के प्रश्न उठते हैं, जैसे तारे कैसे चमकते हैं? आकाश में व्यक्ति कैसे पहुँच जाता है।

इन सब प्रश्नों का उत्तर हमें शिक्षा द्वारा मिलता है। जैसे जैसे हम शिक्षा के क्षेत्र में आगे बढ़ते जाते हैं, वैसे-वैसे हमारा ज्ञान विस्तृत होता जाता है। ज्ञान का अर्थ केवल शब्द ज्ञान नहीं अपितु अर्थ ज्ञान है। अर्थात् जिस तरह चंदन की लकड़ी को ढोने वाला केवल उस के भार का ही ज्ञान रखता है किंतु चंदन की उपयोगिता को नहीं जान सकता। उसी प्रकार जो विद्वान् अनेक शास्त्रों का अध्ययन बिना अर्थ समझे करें वह उन गधों की भाँति ग्रंथ-भार मात्र के वाहक है।

विद्या सर्वश्रेष्ठ धन है। इसे चोर भी नहीं चुरा सकता। जो दूसरों के देने पर बढ़ता है। विदेश में विद्या ही अच्छा मित्र है। ज्ञान से बुद्धि तीव्र होती है।

“उत्तम विद्या लीजिए यद्यापि नीच पै होय। परयों अपावन ठौर में कंचन तजत न कोय।” शिक्षा व्यक्ति को ज्ञान के प्रकाश से शुभाशुभ, भले बुरे की पहचान कराके आत्म विकास की प्रेरणा देती है। उलाक का प्रथम सोपान शिक्षा है। उसके अभाव में हम लोकतंत्र और भारतीय संस्कृति की रक्षा नहीं कर सकते।

प्रकृति से संवाद

पारुल मौर्य

सायन्स

कभी सोचा है दोस्तो, हमारे आस-पास की प्रकृति हमसे किस प्रकार संवाद करती है। भले ही हम अपने जीवन का अंश मात्र समय प्रकृति को ना देते हो, पर वो नित्य हमसे संवाद करती है। रात के बाद सुबह हमें संकेत देती है कि इसी प्रकार जीवन में सुख और दुख का क्रम जारी रहता है। इसीलिए जीवन में आशावादी बने। प्रकृति में बदलाव समय के अनुसार होता रहता है यानि हमें सदैव समय के साथ चलाना चाहिए। प्रकृति में नित्य परिवर्तन होते रहते हैं, उसी तरह हमें जीवन में परिवर्तनशील होना चाहिए। जिस प्रकार बीज में अंकुर फुटते हैं, फिर वह धीरे-धीरे बड़ा होता जाता, फल-फूल आदि देता है। अंत में पतझड़ होने लगती है, और वह फिर से मिट्टी में विलीन हो जाता है। उसी प्रकार मनुष्य जन्म लेता है, बड़ा होता है, यौवन काल से वृद्धा अवस्था में प्रवेश करता है और फिर एक दिन मृत्यु को प्राप्त हो जाता है। जिस तरह वृक्ष अपने

जीवन काल में सिर्फ दूसरों के लिए जीता है, परोपकार करता है उसी प्रकार हमे परोपकारी बनना चाहिए।

हमारा चरित्र सूर्य की भाँति तेजस्वी, व्यक्तित्व वृक्ष के भाँति परोपकारी, आँखों में करुणा, हृदय में दयालुता होनी चाहिए। जिस प्रकार सागर की लहरें असंख्य ठोकरे खाते हुए भी रुकती नहीं, निरंतर बहती जाती है वह हमें सिखाती है कि जीवन में सदैव आगे बढ़ते चलो, दृढ़ निश्चयी बनों। आकाश हमें ऊँचे सपने देखना सिखाता है तो धरती हमें बताती है कि अहंकार पतन का मार्ग है। अपने पैर धरती पर रखो, न अहंकारी बनो। उगता हुआ सुरज मगरुर जवानी है, तो ढलता हुआ सूर्य वह असहाय्य बुढ़ापा है। तो आईए एक टक इस प्रकृति को निहारे, जीवन के इन गूढ़ रहस्यों को समझो। प्रकृति से संवाद करें, संवाद करें।

तुझी को पूजता हूँ
तुझी को मानता हूँ
पर पता नहीं क्यूँ भगवान्
तुझी को मैं धर्मों में बाँटता हूँ।

कितने तेरे रंग, कितने तेरे रूप,
कोई कहे ईश्वर, कोई कहे अल्लाह
पर इन सभी को मिलाकर
बनता है तेरा एक ही स्वरूप।

आज तेरे ही नाम से लोगों ने
धंदा शुरू कर दिया है
जो तेरे पास अपना दुख भुलने आते थे
उन्हीं को ठगना शुरू कर दिया है।

तूने बनाई थी ये दुनिया
एक खुबसुरत सा सपना सजाकर
पर रख दिया लोगों ने
इसे जहन्नूम बनाकर।

विश्व की सबसे ऊँची मूर्ति 'स्टैच्यू ऑफ युनिटी', यह भारतीय राज्य गुजरात में स्थित है। यह स्टैच्यू भारत के माननीय प्रधानमंत्री श्री. नरेंद्र मोदी जी ने भारत के 'लोह पुरुष' के सम्मान में निर्मित किया है। ३१ अक्टूबर २०१८ को सरदार पटेल के जन्म दिवस पर इस मूर्ति का उद्घाटन माननीय प्रधानमंत्री द्वारा किया गया। यह मूर्ति केवाड़िया गाँव मे नर्मदा नदी के किनारे स्थित है। यह विश्व की सबसे ऊँची मूर्ति है, जिसकी लंबाई १८२ मीटर (५९७ फीट) है। इसके बाद विश्व की सबसे ऊँची मूर्तियाँ चीन, म्यानमार, जपान, अमेरिका, थौइलैंड और रुस में स्थित हैं।

स्टैच्यू ऑफ युनिटी भारत के प्रथम उप प्रधानमंत्री तथा प्रथम गृहमंत्री वल्लभभाई पटेल को समर्पित एक स्मारक है। आजादी के बाद रियासतों में बिखरे भारत के एकीकरण में अहम भूमिका निभाने वाले पटेल जी को 'लोह पुरुष' भी कहा जाता है। सरदार जी ने सभी को संदेश दिया है कि - 'एकता के बिना जनशक्ति शक्ति नहीं है, जब तक उसे ठिक तरह से सामंजस्य में ना लाया जाए और एकजुट ना किया जाए, तब तक यह आध्यात्मिक शक्ति नहीं बनती।'

इस विशाल मूर्ति के मूर्तिकार पद्मभूषण सन्मानित 'राम सुतार' जी है। सरदार वल्लभभाई पटेल जी के मूर्ति में उनकी छाती पर एक गलियारा १४० मीटर उपर बनाया गया है जहाँ से पर्यटक महा-गुज-राज का मिलाव देख सकते हैं। इस देखनीय गलियारे में जाने का मूल्य रु. ३५० प्रति व्यक्ति है। आज सभी भारतीयों का सीना गर्व से ऊँचा हो जाता है जब वो कहते हैं कि विश्व की सबसे ऊँची प्रतिमा भारत में है।

'इस मिट्टी में कुछ अनूठा है, जो कोई बाधाओं के बावजूद हमेशा महान आत्माओं का निवास रहा है।'

बेटी - एक अनमोल उपहार...

सिमरन युनुस शेख
११ वी कॉमर्स

माँ का खजाना है बेटी! माँ की परछाई है बेटी। माँ का दर्द समझती है बेटी! बाप के आँसू पोंछती है बेटी! भाई के दुख लेकर अपने सुख लुटाती है बेटी। हर एक बेटी अपने माँ-बाप का गुरुर होती है।

जैसे हर बेटी को अपनी गुडिया प्यारी होती है, ठिक वैसे ही हर माँ-बाप को अपनी गुडिया यानि अपनी बेटी बहुत प्यारी होती है। सुरत सावली हो या चाँद सी बेटियाँ अपने माँ बाप की शहजादियाँ और परियाँ ही होती हैं। बहुत कम माँ-बाप हैं, जो भगवान से बेटी माँगते हैं और जो माँगते हैं, वो पहले बेटी का अच्छा नसीब माँगते हैं। माँ-बाप को डर बेटी से नहीं उसके नसीब से लगता है। अगर भगवान माँ-बाप से अपने बेटी का भविष्य लिखने को कहते, तो माँ-बाप सारे जहाँ की खुशियाँ अपनी बेटी के भविष्य में लिख देते।

बेटियाँ तो परियों जैसी होती हैं। जैसे परियाँ एक जगह नहीं रहती, ठीक वैसे ही बेटियाँ भी एक जगह नहीं रहती। बेटी भगवान का उपहार बनकर माँ-बाप के आँगन में उतरती है, अपनी बातों से, अपने चहकार से आँगन को महकाती है और फिर एक दिन परीयों की तरह चली जाती है, किसी और के आँगन को महकाने। लेकिन वह अपनी खुशबू और यादें हमेशा के लिए छोड़ जाती है। बेटियों के लिए तो उस घर में भी जगह नहीं रहती जहाँ वह रहती है।

बेटियाँ अपने साथ-साथ अपने माँ-बाप की भी इज्जत बनाए रखती हैं। अपने माँ-बाप की लाज रखने के लिए

बेटियाँ माँ-बाप के कहने पर जिस से कहो उस से शादी कर लेती हैं। बेटियाँ जब बड़ी हो जाती हैं, तब वह अपने दुख किसी को बताती नहीं। उसका दुख समझना बहुत मुश्किल होता है। वे अपनी खाहिशें दिल में छिपा कर रखती हैं। बेटी सबकुछ छोड़कर अपने ससुराल जाती है, फिर जब घर की याद आती है, तब वह छुपके से रोती है और किसी से कुछ नहीं कहती।

बेटी अपने मायके की याद में छुएँ के बहाने आँसू बहाकर दिल हल्का कर लेती है, तो कभी आठा गँथते वक्त आँसू बहाती है, जो आटे में मिल जाते हैं। कोई नहीं जान पाता कि उन रोटियों में बेटियों के आँसू मिले होते हैं।

किसी ने सच ही कहा है -

चिडियाँ होती हैं बेटियाँ,

मगर पंख नहीं होते बेटियों के।

मायके भी होते हैं, ससुराल भी होते हैं,

मगर घर नहीं होते बेटियों के।

मायका कहता है - बेटियाँ पराई हैं।

ससुराल कहता है - पराए घर से आई हैं।

हे भगवान। अब तू ही बता,

ये बेटियाँ किस घर के लिए बनाई हैं?

इस जहाँ के सारी बेटियों को मेरा कोटी-कोटी प्रणाम...।

दोस्ती का महत्व

साहिल ओव्हाळ

११ वी सायन्स

मनुष्य एक सामाजिक प्राणी है और साथ ही उसके विचारों को व्यक्त करने एवं भावनाओं को महसूस करने की शक्ति होती है। इसी कारण मनुष्य अकेला नहीं रह सकता। एक मनुष्य दुसरे मनुष्य अथवा किसी अन्य प्राणी की तरफ आकर्षित होता है। उसे भावनात्मक रूप से अपना समझता है। बिना किसी संबंध के अपने दुःख सुख उससे बाँटता है और सदैव उसकी मदत करता है। ऐसे ही संबंध को दोस्ती का संबंध कहा जाता है। इसीलिए हर साल अगस्त माह के पहले रविवार को फ्रेंडशिप डे के रूप में मनाया जाता है।

दोस्ती के भिन्न-भिन्न प्रकार हैं। जैसे की बचपन की मित्रता: जब हम छोटे से होते हैं, खेलने के लिए हमें हमेशा अपनी उम्र के किसी दोस्त की जरूरत होती है। कॉलनी में हमें कई तरह के मित्र मिलते हैं पर उन में भी कुछ हमें खास लगने लगते हैं। जिसके साथ हमें खेलना अच्छा लगता है। जिससे हम अपने खिलोने शेयर कर सकते हैं, जिसे हमेशा हम अपने साथ देखना चाहते हैं ये वो मित्रता है जिसका पहला और आखरी मतलब है खेल।

स्कूल, कॉलेज की मित्रता : बचा बड़ा होता है। यह समय

उसकी जीवन का सबसे सुंदर समय होता है, जिसमें वो जिंदगी का सबसे अच्छा वक्त बिताता है। लेकिन यही वह समय होता है जब एक बचा अपना भविष्य बनाता है या बिगाड़ता है। इस समय दोस्तों का बच्चे की मानसिकता पर बहुत अधिक प्रभाव पड़ता है। अच्छी एवं बुरी संगति उस बच्चे के पुरे जीवन को प्रभावित करती है। स्कूल एवं कॉलेज के दौर में एक बच्चे को दोस्ती की सबसे ज्यादा जरूरत होती है। पढाई के लिए, मनोरंजन के लिए यहाँ तक की मन में उठ रहे विचारों के लिए उसे एक 'हम उम्र' साथी की जरूरत होती है।

रक्त संबंध में मित्रता : जरुरी नहीं दोस्ती केवल स्कूल, कॉलेज या गली मोहल्ले के हम उम्र के लोगों के बीच ही होती है। आज के समय में सबसे करीबी दोस्त माता, पिता, दादा, दादी एवं भाई बहन ही हो सकते हैं। उन्हें खेल खेल में सही गलत समझाते हैं। तब ये रिश्ते ही सबसे बेहतर दोस्त कहलाते हैं। रक्त संबंध से बने मित्रता के रिश्ते आज के समय में ज्यादा कारगर सिद्ध होते हैं।

माँ माँ कहते सारा बचपन निकल गया,
लेकिन जब आई बीवी घर में,
तब माँ का वो लाडला
पता नहीं कहाँ चला गया।

बचपन से खिलाया था,
जिसने तुझे अपनी गोद में
अरे पगले उसे ही तू पलभर में भूल गया।

ऐसा क्या जादू किया है उसने तुझपर
जो तूने नौं महिने के उस कर्ज को
यूँ ही ढूकरा दिया।

अरे जो तेरी एक मुस्कुराहट देखकर,
अपना सारा गम भूल जाती थी,
उसे आज सिर्फ तेरी ही वजह से,
इतना गम क्यों उठाना पड़ा।

जिसने सारी उम्र ढाल बनकर
तुझे धूप से बचाए रखा
उसे ही तूने धूप में
अकेला क्यों छोड़ दिया।

लेकिन याद रख जब तू होगा दुख में
तब तुझे उसी की ही याद आएगी
लेकिन तेरे बहुत बुलाने पर भी
वो तेरे पास कभी ना आएगी।

ना तुफानों की कमी यहाँ,
ना आराजू ढूब जाने की,
यह एक ही बात गुँजती सदा,
जिंदगी जिंदगी और जिंदगी

ना हौसले हारे कभी,
ना डरे किसी के खोंफ से,
यु तो बस चल पडे हैं सुनसान राहो पे,
अकेले अकेले बस अकेले,

क्यू ना लढे बुराई के खिलाफ,
क्यू ना दिखाई देता जुनुन सच्चाई का,
यु तो बस बह रहे हैं साहिल आँखो से जिंदा रहने के
बेवाजह बाखूब बेइतहा,

ना समझे उतार चढाव वक्त के,
ना ध्येय कोई साध्य हो रहा,
शिखस्त तो आनी है एक दिन, अगर कम पडे
जिंदगी जीने का जबा।

डरे हो क्यू

रोहित

डरे हो क्यों, जिंदगी अक्सर एक सबक सिखाती है।
हारे हो क्यों, हार हमेशा बुरे वक्त मे ही आती है।
बस हौसले बुलंद रखना और डटे रहना उस मकाम पे,
आये हो क्यू इस दुनिया मे, इसका एहसास दुनिया को दिलाने के लिये।

सह रहे हो क्यू अगर जुल्म आपके सामने हो रहा हो।
जल रहे हो क्यू अगर दुसरा कोई उंचाई के शिखर पे हो।
ना जाने कौनसा मकाम हासील करते हैं लोक दुसरों को गिराकर,
मग रहे हो क्यू इंसानियत को सबके सामने जलील करने में।

बड रही है क्या, यादों की दरारे
पास होंके भी अपनों से
चढ रही है क्यू जुदाई की शराब अपनों को अपनो से अलग करने में।
जिंदगी का बनना बिघडत तो रेषाओं का खेल है आखीर,
लढ रही है क्यू इंसानियत एक दुसरे से
अपनी अलग एक पहचान बनाने के लिये।

हैसले बुलंद हो तो
मंजिल आसान लगती है
हर मुसिबत से लडकर इस
दुनिया में पहचान बनती है...
समंदर में नौका लहरों का
सामना डटकर करती है
आनेवाले तुफान को भी
वह शिक्स्त देती है
शिक्स्त के बाद उसकी
जीत जरुर होती है
क्यों कि मुसीबत से लडकर इस
दुनिया में पहचान बनती है...
मंजिल के रास्ते पे गिर

पडे तो चोट जरुर लगती है
ध्यान से देखों उस चोट को
वो हमें कुछ सिख देती है
सफलता के राह पे ठोकर
लगती रहती है
क्योंकि मुसीबत से लडकर इस
दुनिया में पहचान बनती है...
हम वक्त के साथ
समझौता नहीं कर सकते,
कोशिश तो हमें करनी पड़ती है
क्योंकि हर मुसीबत से लडकर इस
दुनिया में पहचान बनती है...
कामयाबी के राह पे

तेरी हार जरुर होगी,
मत डर इस हार से
यहाँ हार कर जितनेवालों की
जयजयकार होती है
क्योंकि हर मुसीबत से लडकर इस
दुनिया में पहचान बनती है....
कोशिश कर हल निकलेगा
आज नहीं तो कल निकलेगा
क्योंकि सुबह के रात और
रात के बाद सुबह होती है
हर मुसीबत से लडकर इस
दुनिया में पहचान बनती है...

दूर से एक सूरज की किरण नजर आती है,
पास जाती हूँ तो अँधेरा बन जाती है।
हमे आशा का दीप जलाना है,
समय का लाभ उठाना है।
सुनहरी किरण से जीवन चमकाना है।
कॉटो से भरी राह को फूल से सजाना है।
यश-अपयश की हवा चली आती है।
आते ही मन को शुद्ध कर जाती है।
संघर्ष में एक बाढ़ चली आती है।
सुख-दुख मे सँवरना सिखा जाती है।

लेकिन,
भले ही पड़ जाए पैरों में छाले
पाना है मंजिल चलना है अकेले
वो जीवन ही क्या जिसमें संघर्ष ना हो,
वो इन्सान ही क्या जिसमें लडने की
हिम्मत ना हो।
